This project will include subsurface utility upgrades to separate stormwater and sewer infrastructure to reduce discharges to the Alewife Brook, resulting in the elimination of a combined sewer overflow and improved water quality. Upon completion of the subsurface utility work, there will be streetscape improvements completed along Concord Ave and the surrounding residential streets.

We strongly encourage you to attend the community meetings on April 4th and April 11th to learn more about the Concord Ave Neighborhood Project and to provide your input on the design.

Please contact us with any questions and to be added to the project e-mail list. To learn more about this project, visit the webpage at www.cambridgema.gov/theworks/ConcordArea.
