Changes to Article 11.800

- Removes references to special permit; leaves in references to building permits and C/O requirements
- Retains references to maintaining licenses/registrations and meeting public health regulations and other applicable laws
- Maintains requirement that the approval is limited to the entity seeking the permit.
- Maintains buffer requirements – will be reviewed administratively as part of building permit review
- Leaves in special permit requirements and findings criteria as they might apply to a Cannabis Production Facility application

Summary

- Zoning petition is more about **process reform** than **changing standards**
- Many Article 11.800 requirements can be administratively reviewed
 - Maintains buffers
 - Maintains Host Community Agreement requirements/process
 - Maintains areas/districts of the City where use would be allowed
- Goal is to treat Cannabis Retail Stores like other types of retail
