**Subject:** Re: Tobin School 13 Nov Community Meeting

Thank you.

Could you add:

I am strongly against adding a vehicular passage or road on the east side of the property connecting Vassal Lane and Concord Avenue (on the back side of the Alpine Street properties). This is a waste of open space and it would be duplicating vehicular access already available using Alpine Street. If some vehicles need to use this passage, it should not go all the way across the property.

Dear Mr. Flandro,

Thank you for your comments. They will be submitted to the design team as part of the public process. As soon as I have more information about the second community meeting, I will let you know.

Thanks,  
Kate
