## **ABOUT THE PROJECT**

This project involves the design of a multi-use path along the Grand Junction railroad tracks. It will provide a continuous pathway for residents, workers and visitors to stroll, jog, or bike between neighborhoods, commercial areas, and the Charles River. The path is also being designed to accommodate future transit use of the corridor.

More information about the project can be found at [www.CambridgeMA.gov/GrandJunction](http://www.CambridgeMA.gov/GrandJunction).
