

Participatory Budget Project

North Massachusetts Avenue – 2017

Restriping and Signing Safety Improvements Beginning Week of 9/18

As a Participatory Budgeting Item in 2015, Cambridge residents voted to create short-term immediate measures in the form of better roadway markings and signage for the safety of people bicycling along north Massachusetts Avenue. The City will be installing designated bike lanes on Massachusetts Avenue from Beech Street to Alewife Brook Parkway (Route 16). This project complements the City's Vision Zero and Complete Streets policies.

The planned markings and signing vary with conditions along the Avenue, and include regular bike lanes, green markings at conflict points, shared lane markings, added signing, and short sections of separated bike lanes. Please remember that the bicycle lanes may never be used for stopping, driving or parking.

Parking Changes

Parking changes are limited to an area on the north side of the street near Linear Park. Do not use the bicycle lane for driving or parking.

Meters, Resident Parking, Street Cleaning, and other parking regulations remain in effect. Note that there may be additional temporary parking restrictions during installation.
