AMENDED SUPPORTING STATEMENT FOR A VARIANCE

A) A literal enforcement of the provisions of this Ordinance would involve a substantial hardship, financial or otherwise, to the petitioner or appellant:

A literal enforcement of the Ordinance would be a substantial hardship to the Petitioner because the ground floor of the property (on Massachusetts Avenue) contains mostly non-conforming retail oriented businesses all of which are prohibited by the Residence C-2B. Further the adjacent street is a commercial/retail corridor which would be incompatible with the residential allowed uses therefore necessitating a Variance from the Ordinance.

B) The hardship is owing to circumstances relating to the soil conditions, shape or topography of such land or structures and especially affecting such land or structures but not affecting generally the zoning district in which it is located:

The hardship is owing to the preexisting nonconforming building Uses and setbacks that predate zoning and aren't praticable for the allowed residential uses.

- C) Desirable relief may be granted without either:
 - 1) substantial detriment to the public good:

Desirable relief may be granted without substantial detriment to the public good because the proposed Use is replacing a non-conforming commercial use. Additionally the proposed Alcohol Retail Use will allow for the expansion of a thriving small business that is compatible with the retail corridor.

2) nullifying or substantially derogating from the intent or purpose of this Ordinance:

Granting relief will not derogate from the intent and purpose of the Ordinance and will occupy an already non-conforming commercial use store front further activating the streetscape.

Demolition Delay Ordinance and Application Information

The Demolition Delay Ordinance (Chapter 2.78, Article II of the Cambridge Municipal Code) was adopted by the City Council in 1979 to afford public review of demolition permit applications for potentially significant buildings. When the Historical Commission determines that a building is significant and should be preserved, demolition will be delayed for up to six months so that solutions can be sought to preserve the building indefinitely. The Ordinance covers all buildings over 50 years old, city-wide. The Historical Commission archives provide dates of construction for all properties in the City.

Demolition is defined in the ordinance as "the act of pulling down, destroying, removing or razing a building or commencing the work of total or substantial destruction with the intent of completing the same." The Inspectional Services Commissioner has provided further guidelines to outline what actions require a demolition permit. In addition to complete demolition of a building, the following actions may require a demolition permit,

- removal of a roof,
- removal of one side of a building,
- gutting of a building's interior to the point where exterior features (windows, etc.) are impacted, and
- removal of more than 25% of a structure.

Please contact the building inspector or a staff member of the Historical Commission if you have questions about whether a demolition permit is required for a particular project.

Demolition permit applications can be obtained from the Inspectional Services Department. The completed application should be submitted to the Historical Commission, where the staff will review the application. If the Executive Director of the Historical Commission makes an initial determination that the building is significant, a public hearing will be scheduled with Historical Commission. If the staff makes an initial determination that the building is not significant, the application is released for further review by the Building Commissioner.

More information about the demolition permit application procedures is available on the Historical Commission's web site or by calling or dropping by the Historical Commission office.
