*Written evidence of Agent's standing to represent petitioner may be requested.
Commonwealth of Massachusetts, County of SVFFOLK
The above-name ANTHONY FAVA personally appeared before me, this 17TH of AVGUST, 20 16, and made oath that the above statement is true.
ALLEN A. GARZONE IT Notary
My commission expires FEBRUARY 17, 2023 (Notary Seal).

• If ownership is not shown in recorded deed, e.g. if by court order, recent deed, or inheritance, please include documentation.

BZA APPLICATION FORM

SUPPORTING STATEMENT FOR A VARIANCE

EACH OF THE FOLLOWING REQUIREMENTS FOR A VARIANCE MUST BE ESTABLISHED AND SET FORTH IN COMPLETE DETAIL BY THE APPLICANT IN ACCORDANCE WITH MGL 40A, SECTION 10:

A) A Literal enforcement of the provisions of this Ordinance would involve a substantial hardship, financial or otherwise, to the petitioner or appellant for the following reasons:

A literal enforcement of the Ordinance would be a substantial hardship to the Petitioner because currently the site has no parking to serve the four (4) dwelling units contributing to the lack of available street parking. Granting the requested relief will provide compliant parking in the rear yard thereby satisfying Petitioner's substantial hardship as well as mitigating the parking challenges existing on Lopez street.

B) The hardship is owing to the following circumstances relating to the soil conditions, shape or to pograp hy of such land or structures and especially affecting such land or structures but not affecting generally the zoning district in which it is located for the following reasons:

The hardship is owing to the "L" shape of the Lot that provides room for additional parking that cannot be access because there is no curb cut access. Additionally the shape of the lot limits the compliant parking because of the 15' X 15' open space dimension requiring relief.

C) DESIRABLE RELIEF MAY BE GRANTED WITHOUT EITHER:

of the dwelling and the neighborhood.

Desirable relief may be granted without substantial detriment to the public good because the proposed parking will be located in the rear yard with the appropriate screening. The property also abutts a public park which lessens the impact of the rear yard parking. Lastly, the public good will be enhanced by providing less parking congestion on the street benefiting the ocucpants

2) Relief may be granted without nullifying or substantially derogating from the intent or purpose of this Ordinance for the following reasons:

The Ordinance recommends the most rational use of land throughout the city. The proposal seeks to bring the property into greater conformance by providing parking in the rear yard which is the most logical location on the lot.

* If You have any questions as to whether you can establish all of the applicable legal requirements, you should consult with your own attorney.

BZA APPLICATION FORM

SUPPORTING STATEMENT FOR A SPECIAL PERMIT

Please describe in complete detail how you meet each of the following criteria referring to the property and proposed changes or uses which are requested in your application. Attach sheets with additional information for special permits which have additional criteria, e.g.; fast food permits, comprehensive permits, etc., which must be met.

Granting the Special Permit requested for 30 Lopez St Cambridge, MA (location) would not be a detriment to the public interest because:

- A) Requirements of the Ordinance can or will be met for the following reasons:

 With the requested Special Permits the requirements of the Ordinance will be met.
- B) Traffic generated or patterns of access or egress would not cause congestion hazard, or substantial change in established neighborhood character for the following reasons:

Traffic generated or patterns of access or egress will not cause congestion hazard or substantial change in the established neighborhood characterin fact the proposed relief will lessen the impact on the neighborhood by provided much needed off-street parking.

- C) The continued operation of or the development of adjacent uses as permitted in the Zoning Ordinance would not be adversely affected by the nature of the proposed use for the following reasons:
 - The continued operation of or the development of adjacent uses would not be adversely affected because the multifamily use will remain unchanged and the parking in the rear yard is consistent with parking in the neighborhood.
- Nuisance or hazard would not be created to the detriment of the healthafety and/or welfare of the occupant of the proposed use or the citizens of the City for the following reasons:

No nuisance or hazard will not be created to the detriment of the health safety and/or welfare of the occupant of the proposed use or citizens of the City because the loss of a parking space by creation of a shared driveway will be offset by removing 5 cars from parking on the street.

For other reasons the proposed use would not impair the integrity of the district or adjoining district or otherwise derogate from the intent or purpose of this ordinance for the following reasons:

The proposed use would not impair the integrity of the district and is consistent with the intent and purpose of this ordinance because parking should be located in the appropriate rear yards with ample room to lessen street congestion and enhance livability.

Demolition Delay Ordinance and Application Information

The Demolition Delay Ordinance (Chapter 2.78, Article II of the Cambridge Municipal Code) was adopted by the City Council in 1979 to afford public review of demolition permit applications for potentially significant buildings. When the Historical Commission determines that a building is significant and should be preserved, demolition will be delayed for up to six months so that solutions can be sought to preserve the building indefinitely. The Ordinance covers all buildings over 50 years old, city-wide. The Historical Commission archives provide dates of construction for all properties in the City.

Demolition is defined in the ordinance as "the act of pulling down, destroying, removing or razing a building or commencing the work of total or substantial destruction with the intent of completing the same." The Inspectional Services Commissioner has provided further guidelines to outline what actions require a demolition permit. In addition to complete demolition of a building, the following actions may require a demolition permit,

- removal of a roof,
- removal of one side of a building,
- gutting of a building's interior to the point where exterior features (windows, etc.) are impacted, and
- removal of more than 25% of a structure.

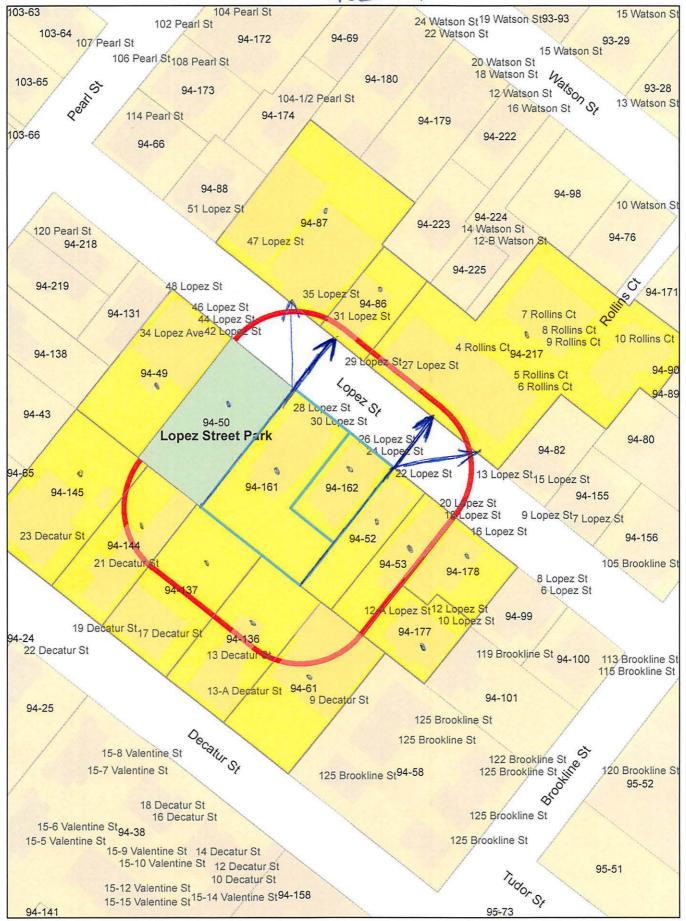

Please contact the building inspector or a staff member of the Historical Commission if you have questions about whether a demolition permit is required for a particular project.

Demolition permit applications can be obtained from the Inspectional Services Department. The completed application should be submitted to the Historical Commission, where the staff will review the application. If the Executive Director of the Historical Commission makes an initial determination that the building is significant, a public hearing will be scheduled with Historical Commission. If the staff makes an initial determination that the building is not significant, the application is released for further review by the Building Commissioner.

More information about the demolition permit application procedures is available on the Historical Commission's web site or by calling or dropping by the Historical Commission office.
