

CREDIT CARD SKIMMING

Beware & Stay Safe at the Pump

You can help stop skimmers! See something that doesn't seem right (e.g. loose, damaged, etc.)? Notify the clerk and pay inside.

Skimmers often tamper outer pumps; Try to use pumps closer to the store/clerk.

Monitor bank accounts regularly for any unauthorized purchases.

By working together, consumers, regulators and station owners can put skimmers out of business!

If your credit card information is compromised, contact your bank immediately and then call City of Cambridge [Weights and Measures Department](#) at (617) 349-6133 and the [Cambridge Police](#) at (617) 349-3300 to direct them to the station you believe your card information was compromised.
