

Persons within a Quarter-Mile Radius of Each Census Block

Population

Source: U.S. Census Bureau, 2010 Census;
Cambridge CDD.

This is a summation of the total population living within a quarter-mile of the centroid of each Census block in Cambridge. The populations of Census blocks in adjacent municipalities were included in the analysis to better reflect the true density of neighborhoods along the city line. This analysis utilized the Proportional Attribute Aggregator tool authored by Jeff Essic of North Carolina State University.
