## DID YOU KNOW?

Bicycling in Cambridge has more than doubled  
over the past eight years.

Two-thirds of Cambridge households own bikes.

There are more bikes than cars in Cambridge.

Cambridge has one of the highest rates of  
bike commuting in the country.

## WATCH FOR BIKES

## TIPS FOR SHARING THE ROAD

2010

## CYCLISTS ARE A PART OF THE CAMBRIDGE ENVIRONMENT.

And this is a good thing, because every cyclist means one less car on the road. Cyclists are particularly vulnerable in traffic crashes, and drivers need to take particular care in sharing the road.

Always look for bikes before opening a car door.

Always yield to bikes before turning, changing lanes, or pulling over to the curb.

Never stop or park your vehicle in a bicycle lane.
