

# FRESH POND PARKWAY

## Before & After

### City of Cambridge

Community Development Department  
Environmental & Transportation Planning

Before

A larger center island, splitter islands, curbs, pavement markings and sidewalks organize the space around the rotary.

After

Before

By removing the slip lane from Lakeview Ave., a new pedestrian plaza was created with sidewalks, landscaping and a push-button pedestrian signal for crossing Fresh Pond Parkway.

After

Before

After

Curbing installed to define public right of way along with a generous sidewalk, lighting and landscaping.

Before

After

Excess roadway space used to create a planting strip, sidewalk and two-way bicycle facility.

Before

After

Landscaped islands, signs and pavement markings encourages vehicles to yield when entering into the rotary. Bicycle path with lighting installed on the "pond" side of the roadway.
