The **Boys II Men Program** is a program designed for young men looking to foster the development of good-decision making and leadership skills as well as life-long learning in self-care, social responsibility and the importance of community. The program encourages young men to become positive, engaged citizens by introducing them to mentors, and using personal development, reflection and career awareness activities.

The **Leaders in Action Program** is designed to develop the leadership skills of teens. Participants work with their peers to take responsibility for making positive changes within their community. Youth choose a topic to explore and develop a programmatic response to it. This summer's project is focused on mentoring younger Frisoli members in the Girls' and Boys' Empowerment Programs.

**City Peace** is a violence prevention and youth leadership program for Cambridge teens. Participants learn about conflict resolution, community issues, facilitation and mediation while working with their peers to develop and deliver a legacy project on violence prevention for the community. This year's project will focus on teaching young people how to referee both on and off the court or field. They will learn the power of being a Life Referee.

**My City, My Voice** teens explore their city and their personal voice through the development of art projects throughout the summer. Participants will create and deliver public art pieces to be performed throughout the city. This year's theme will be created through the lens of social justice.
