

Irving St./Scott St. Construction Resumes

Dear Neighbor,

During the week of March 31, 2014, the City's contractor, F. DeRoma & Sons, will resume work in the area. Please see below to view the upcoming schedule.

Upcoming Schedule

- Beginning April 3, 2014, crews will make their way to Kirkland Street to reconstruct four (4) wheelchair ramps. This work is expected to take one week to complete and may impact traffic, but thru traffic will remain at all times. Please note that during this time, the contractor will begin to mobilize equipment and material to the area in preparation for the raised intersection.
- Once crews have completed the wheelchair ramps on Kirkland Street, they will begin to construct the raised intersection where Farrar Street, Irving Street and Scott Street meet. The raised crosswalk will take up to 2-3 weeks to complete and due to the size of the intersection, traffic will be impacted. City staff are currently working with the contractor to establish detour routes for each phase of the raised intersection. You will be notified with a separate notice at least 48 hours in advance of construction at the intersection.
- Plantings and work in the greenspace will begin in late April. The final paving of the roadways is scheduled to take place this summer. More details will follow in the coming months.

For Information or Assistance

If you have any questions regarding construction, please contact Debbie Cheng, Project Manager, at 617.349.4051 or dcheng@cambridgema.gov. Please also contact Chris Neil, Community Relations Manager, at 617.349.4825 or cneil@cambridgema.gov if you have any special need or disability that requires special accommodations.

Thank you for your continued patience during this construction!

Sincerely,

A handwritten signature in black ink, appearing to read "Chris Neil".
