Notice of Pre-Construction Survey Along Western Avenue

Dear Resident/Property Owner:

As you may know, the City of Cambridge is to begin an infrastructure improvement project near your home or business. The project will require trench and excavating to upgrade existing underground utilities, as well as the removal and replacement of sidewalks and roadways.

The contractor for this work is:

D'Allessandro Corp.
41 Ledin Drive
Avon, MA 02322
508-559-6400

Prior to the start of construction the contractor is required to conduct a pre-construction survey of nearby houses and buildings. This survey will be conducted by Mr. Michael J. Nutting, consultant to D'Allessandro Corp. and will have an identification badge indicating his association with the City's project. Photographs, video and notes will be taken about the conditions of properties along Western Avenue in order to have a record of conditions along the street prior to construction.

The survey is scheduled to take place during the week of October ??. This survey is offered at no cost to you, and does not require that you be home during the process. Your yard or driveway may briefly be entered in order to take photographs or video.

If you have any questions or concerns about the pre-construction survey, or would like to be present when your property is entered, please contact Michael Nutting at 978-660-1827.

You can also contact Rebecca Fuentes, Assistant Commissioner for Administration at the Cambridge Department of Public Works, at 617-349-6948 or rfuentes@cambridgema.gov, with any questions or concerns related to the Western Avenue Improvements.

Sincerely,

Michael J. Nutting
Engineer/Geophysicist
