

# POWER DOWN!

## PLEASE TURN OFF

YOUR COMPUTERS, MONITORS,  
SPEAKERS AND PRINTERS  
AT THE END OF EACH WORK DAY.

### IT ALL ADDS UP

Shutting down one computer saves just 435 kWh of electricity per year, but shutting down ALL city computers saves \$350,000 and 1,000 tons of greenhouse gas emissions.

Use Less. Gain More.

Cambridge GreenSense brings City of Cambridge employees together to cut energy use and minimize our impact on the environment. Learn more at [www.cambridgema.gov/greensense](http://www.cambridgema.gov/greensense).
