

# Help Us Shape the Flex Space

Using a sticky note, show us on the draft concept where some of the items below might work best

	Function	Definition	Examples of Uses
	<b>Access for Commerce</b>	Goods and services reach their customers	Commercial vehicle loading, truck loading
	<b>Access for People</b>	Arrivals, transfers between modes	Bus stops, bike parking, curb bumpouts, pick up/drop off, short-term parking, taxi zones
	<b>Activation</b>	Offers vibrant social spaces	Food truck parking, seating, parklets and patios, public art, street festivals
	<b>Greening</b>	Enhances aesthetics and environmental health	Plantings, rain gardens, bio-swales, green infrastructure
	<b>Mobility</b>	Moves People & Goods	Sidewalks, bus lanes, bike lanes, travel lanes, turning lanes
	<b>Storage (less than 24-hour)</b>	Provides storage for vehicles and equipment	Bus layover, private vehicle parking, reserved spaces (police, govt, etc), construction needs

Example Loading Area

Example Bike Parking

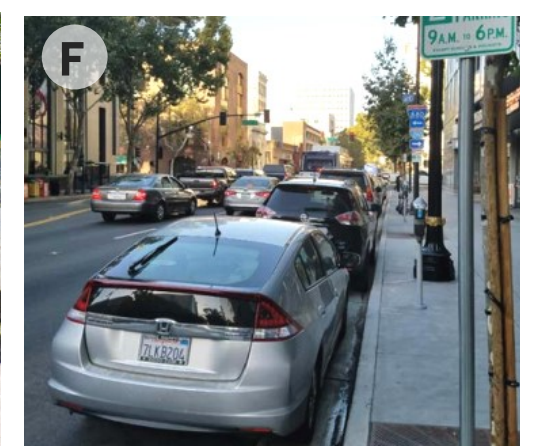

Example Parklet with Seating

Example Curb Extension with Landscaping

Example Wide Sidewalk

Example Vehicle Parking
