Chapter 1 - Introduction

The 2009 edition of *MBTA Ridership and Service Statistics* (“*The Blue Book*”) is the twelfth edition of this compendium. The “Blue Book” was first published in 1988.

The MBTA receives frequent inquiries from customers, students, peer transit providers, government agencies, community organizations, transportation enthusiasts, and the media for information regarding its operations, and this book is intended to address these needs. Additionally, this book serves as a management and analytical tool for MBTA staff.

If you have any questions or suggestions for future updates and revisions, please contact Sandra Clarey in the Service Planning Unit:

by email : sclarey@mbta.com .

Chapter 2 - Subway Service

Subway Service includes the MBTA's **heavy rail** (Red, Orange, and Blue Lines), **light rail** (Green Line), and **trolley** (Mattapan-Ashmont) systems. The Operations Control Center at 45 High Street, Boston provides dispatching support.

Subway vehicles range from 1945-vintage Electric Railway Presidents' Conference Committee ("PCC") trolleys to the newest Type 8 low-floor Light Rail Vehicles. Rail vehicles are maintained and stored at individual facilities on each line, since dimensional considerations generally preclude vehicle transfers between lines.

Subway Operations Statistical Highlights:

- Routes: 9 (4 heavy rail, 4 light rail, 1 trolley)
- Revenue Vehicle Fleet Size: 669
- Number of Stations and Stops: 121 (by route, six stations are shared)
- Route Miles of Service: 79.6 (63.5 discounting route designation overlap)

NOTES

Boeing-Vertol (USA) were retired in March 2007.

Red Line 01500 cars as-built were capable of autonomous operation, but have since had one operator's cab removed.

Red Line 01600 cars as-built were operated in pairs. Cars 01604 and 01605 were damaged in a 1975 collision and are retained for spare parts.

All Red, Orange, and Blue line cars are operated in 2-car sets.

Blue Line cars 0622/3 were rebuilt by TTA of Hornell, NY in 2002.

A Cars are even numbered. B Cars are odd numbered.

The MBTA also rosters 43 work cars for non-revenue service, such as tool cars, flat cars, cranes, snow plows, and diesel locomotives. Blue Line - 5, Orange Line - 9, Red Line - 14, Green Line - 15

The Green Line vehicle roster includes serviceable and short-term repairable vehicles. Accident-damaged and other vehicles held in reserve for eventual repair or as parts sources are not included.

Four Type 7 vehicle equivalents (3657A, 3602B, 3672A, 3630B, 3638AB, 3666AB) have been scrapped. Four Type 7 vehicles (3648A, 3639B, 3623A, 3679B, 3667, 3703) are stored awaiting final disposition.

PCC numbers: 3087, 3230, 3234, 3238, 3254, 3260, 3262, 3263, 3265, 3268.

(A) Over Bumpers

(B) At Floor Level

(C) Over air conditioning unit

(D) At 1.35 SF/Pax

Not included are Green Line historic cars 5734 (owned by the Seashore Trolley Museum) and 3295.

Chapter 3A - Silver Line

Phase I - Washington Street

The first segment of the Silver Line opened on July 20th, 2002, and provides bus rapid transit (BRT) service linking Downtown Crossing at Temple Place with Dudley Square Station via Washington Street. Initial service was provided by a dedicated fleet of 17 40-foot, low floor, compressed natural gas-powered New Flyer Industries model C40LF buses. These buses were replaced during the Summer and Fall of 2003 with the MBTA's first-ever articulated buses, a fleet of 17 60-foot Neoplan model AN460LF buses. Like the New Flyers, they are also low-floor and powered by compressed natural gas.

The Silver Line includes eight BRT stations on Washington Street (Herald St, East Berkeley St, Union Park St, Newton St, Worcester Square, Mass. Ave, Lenox St, and Melnea Cass Blvd.). At Dudley Square, the existing (since 1987) bus terminal is used. At the four downtown stations:

- New England Medical Center: Shelter is provided by the Medical Center structure itself, which covers Washington Street.
- Downtown Crossing: A shelter furnished by the Wall Corporation is provided for Silver Line customers on Temple Place. A pre-existing passageway from the Orange Line southbound platform to Temple Place was re-opened for the convenience of transferring customers here.
- Chinatown and Boylston: No permanent facilities are provided.

A Silver Line Washington Street one-way trip is about 2.3 miles in length and takes 12 to 21 minutes one-way, depending upon the time of day. Scheduled service levels (Fall, 2008) are as follows:

	Inbound Trips	Outbound Trips	Total Trips	Vehicle Revenue Miles
Weekday	168	168	336	776
Saturday	154	154	308	711
Sunday	125	125	250	577

A local bus fare is charged on the Silver Line Washington Street, with free bus-to-bus transfer, free rail-to-bus transfer or step-up bus-rail transfer. Vehicles are based at the Southampton Garage that opened on Saturday March 27th 2004. All Silver Line vehicles are equipped with GPS-based vehicle identification and location equipment that permits constant real-time monitoring by dispatching staff. Other customer amenities include real-time information kiosks and shelters at stops, all-new graphics (including posted schedules at stops), and automated stop announcements on-board the buses.

Equipment at Stations - Silver Line Washington Street

- 15 Canopies (Two each at Washington Street stops Herald St, East Berkeley St, Union Park St, Newton St, Worcester Square*, Mass. Ave, Lenox St, and Melnea Cass Blvd.)
- 1 "Wall" brand Shelter (Temple Place)
- 18 dot-matrix signs with real-time information (Two each at Washington Street stops, One each at Dudley Station and Temple Place)
- 16 Kiosks to showcase local artwork (Washington Street stops)
- 16 bike racks (Washington Street stops)
- 16 call boxes for contacting police or customer assistance (Washington Street stops)
- Interfaces with city traffic controllers to provide traffic signal priority to buses that fall behind schedule (select Washington Street stops, 4 intersections, 7 interfaces)

Note: 60-foot Articulated Buses replaced 40-foot buses in late 2003-early 2004 with no reduction in fleet deployment.

Phase II - Waterfront

The Silver Line Waterfront opened on Friday, December 17th 2004. Initial service was provided the length of the new South Boston Waterfront Transitway tunnel (South Station to World Trade Center via Courthouse) to the portal at D Street and turnaround loop and layover facility at Silver Line Way (Connector Road). Service was provided by a mix of 60' Dual Mode Articulated diesel-electric buses (DMAs) and 40' straight electric Electric Trolley Buses (ETBs).

On December 31st, 2004 the service was expanded to include two subway-surface routes: SL2 (Boston Marine Industrial Park) and SL3 (City Point). The service was provided by a mix of DMAs and temporarily-assigned former Silver Line Washington Street 40' C40LF model buses meeting the ETBs/DMAs at Silver Line Way.

On June 1st, 2005 Route SL1 (Logan Airport) was inaugurated. This replaced a temporary Sunday-only Logan Airport connecting service at Silver Line Way. Due to the fact that the DMA order was still being filled, Routes SL2 and SL3 were temporarily consolidated to allow the DMA fleet to cover all subway-surface service. The temporary route was SL2/3 (City Point - South Station via BMIP). ETBs continued to provide shuttle service Silver Line Way - South Station so as to increase the amount of service in the transitway tunnel. By the Fall of 2005, distinct Routes SL2 and SL3 were re-established. In February of 2006, use of the 40' ETBs was discontinued, and the DMA fleet provided all Silver Line Waterfront service. The last two South Station-bound SL1 trips of the night use a special all-surface routing to South Station to permit closure of the tunnel for security/maintenance purposes.

A subway fare is charged on the Silver Line Waterfront with barrier-free transfers to/from the Red Line at South Station. Vehicles are based at the Southampton Garage that opened on Saturday March 27th 2004. All Silver Line vehicles are equipped with GPS-based location equipment that permits automated stop announcements on-board the buses.

Chapter 3B - Bus Service

Bus Service includes the MBTA's bus and trackless trolley networks. This surface transportation network includes approximately 200 routes with variations totaling over 550 distinct services. This does not include special purpose routes, such as emergency routes used during rail service interruptions and “supplemental” services that operate during periods of high customer demand.

There are ten active garage facilities at nine sites that, in conjunction with the Everett Main Repair Facility, house and maintain the bus and trackless trolley fleets. On a typical weekday, the MBTA's ~1,000 surface vehicles:

- Complete 7,600 round trips (about one every twelve seconds)
- Travel over 80,000 scheduled vehicle revenue miles (about enough to circle the globe 3 times)
- Serve nearly 370,000 customers (about the population of Minneapolis, Sacramento, or Pittsburgh)
 - as measured in unlinked trips

The Bus Operations Control Center at 45 High Street, Boston provides dispatching support for these services, including the two Silver Line segments (Washington Street and Waterfront). Presently, the MBTA employs almost 1,600 bus operators - 1,246 full-time, and 330 part-time.

The future will see continued improvements in the MBTA's bus operations. A major fleet renewal initiative that began with the arrival of test buses in 1999 and commenced in earnest in 2001-2003 is now complete. About 86% of the MBTA's bus fleet is vintage 2003 or newer, and many of the remaining RTS model buses have been overhauled by an outside contractor, or rehabilitated by in-house forces at the Everett Main Repair Facility.

The entire bus fleet is accessible to persons with disabilities, and powered with environmentally-friendly fuels: compressed natural gas or ultra low sulfur diesel. Two all-new garage facilities, Southamptton and Arborway, were placed on line in early 2004. “Talking Bus” announcement systems combining AVL technology with MBTA scheduling data are in use on all remaining RTS buses, on the two Silver Line segments, and are standard on all new buses. 60-foot articulated buses now provide service on several of the MBTA's busiest bus routes. An agreement with Cemusa, Inc. is providing and maintaining bus shelters at selected locations throughout the MBTA network at no expense to the taxpayers or MBTA customers.

Bus Operations Supplemental Services Fall 2008

In addition to regular scheduled bus service in communities, the MBTA provides the supplementary bus service listed below. This service operates only on days when secondary schools are in full session as a convenience to our riders because of the increased demand for service on these days. However, it should be noted that in doing so, the MBTA reserves its right to change or terminate any or all of these trips at any time without giving prior notice. Please note that all times indicated on this timetable are approximate. For more information on these or any MBTA route, please call 617-222-3200 or visit www.mbta.com.

Chapter 4 - Commuter Rail

A third party contractor, currently the Massachusetts Bay Commuter Railroad Company (a joint venture of Bombardier, Veolia Transportation, formerly Connex North America, and Alternate Concepts), operates and maintains the MBTA's Commuter Rail service.

Commuter Rail service is provided along 13 active trunkline routes essentially split into two districts. They are:

North Side: North Station Routes

- Newburyport/Rockport Line ("Eastern" Line)
- Haverhill/Lawrence Line ("Western" or B&M Line - this line also hosts Amtrak "Downeaster" service to Portland, Maine that began on Saturday, December 15th, 2001)
- Lowell Line ("New Hampshire" Line)
- Fitchburg Line

South Side: South Station Routes

- Framingham/Worcester Line ("Boston and Albany" Line)
- Needham Line
- Forge Park/495 Line ("Franklin" Line)
- Attleboro/Providence Line ("Northeast Corridor" or "Shore" Line)
- Stoughton Line
- Fairmount Line ("Midlands" or "Dorchester" Line)

And three routes referred to as the Old Colony Railroad:

- Middleborough/Lakeville Line
- Plymouth/Kingston Line
- Greenbush Line

Heavy maintenance on trains is performed at the new (1998) Commuter Rail Maintenance Facility (at the former Boston Engine Terminal site) in Somerville. Dispatching for North Side routes is controlled at the nearby Cobble Hill facility, while South Side dispatching is coordinated with Amtrak's Centralized Electric and Traffic Control (CETC) system at South Station. Running maintenance and special work are performed at the Southside Service and Inspection Facility near South Station, and at the Readville Interim Repair facility in Hyde Park, Boston.

In addition to regular service, railroad operations special trains are operated for major events such as sporting events, First Night, and chartered trains.

The MBTA owns about 500 pieces of commuter rail rolling stock, including passenger locomotives, utility locomotives, work train equipment (such as flat cars, hopper cars, etc.), snow plows, midtrain coaches, and cab cars. Operation, staffing, and maintenance of this equipment is the responsibility of the contractor. The MBTA also owns the majority of the trackage upon which commuter rail service is provided, including the "Wildcat" branch that links the Haverhill and Lowell lines near Wilmington. Several trains per day use this route variation.

Exceptions to MBTA track ownership include:

- Worcester Line - Back Bay to Newton (r-of-w owned by the Mass Turnpike Authority)
- Worcester Line - Framingham to Worcester, owned by CSX Transportation
- Foxboro Station - Connecting trackage owned by CSX Transportation
- The "Grand Junction" line from Beacon Park to Somerville, used in non-revenue service to transfer trains from one district to another, is owned by CSX Transportation.

Rail freight service is provided along many commuter rail lines by agreement with private railroad corporations. Carriers include the Providence and Worcester Railroad, CSX Transportation, the Bay Colony Railroad, Guilford Transportation, and Fore River Transportation.

Railroad Operations Statistical Highlights:

- Revenue Vehicle Fleet Size: 80 Passenger Locomotives, 410 active coaches (including 33 900-series double deckers)
- Number of Stations: 127*
- Route Miles of Service: Approximately 394 (169 North Side, 146 South Side, 79 Old Colony including Greenbush)
- Approximate ridership (inbound + outbound boardings) is as follows:

	Weekday	Saturday	Sunday
FY 1999	127,759	36,255	24,287
FY 2000	130,055	32,642	24,719

Chapter 5A - Ferry

There are three principal ferry routes operated under contract to the MBTA.

Commuter Ferries

- **F1** Hingham–Boston (*Hingham Shipyard - Rowes Wharf, operated by Boston Harbor Cruises*).
- **F2** Quincy–Boston via Logan Airport, also known as Harbor Express (*Fore River Shipyard–Long Wharf via Logan Airport, operated by Water Transportation Alternatives, Inc.*). Certain trips serve Pemberton Point, Hull and are designated route **F2H**. Seasonal service may also be provided to Georges Island. The Harbor Express service became MBTA-owned on May 1, 2002 when the MBTA purchased certain assets of the service contractor Water Transportation Alternatives, Inc.

Inner Harbor Ferry

- **F4** Boston - Charlestown (*Long Wharf - Charlestown Navy Yard*)

As of this writing, the Inner Harbor Ferry route is operated by Boston Harbor Cruises, LLC.

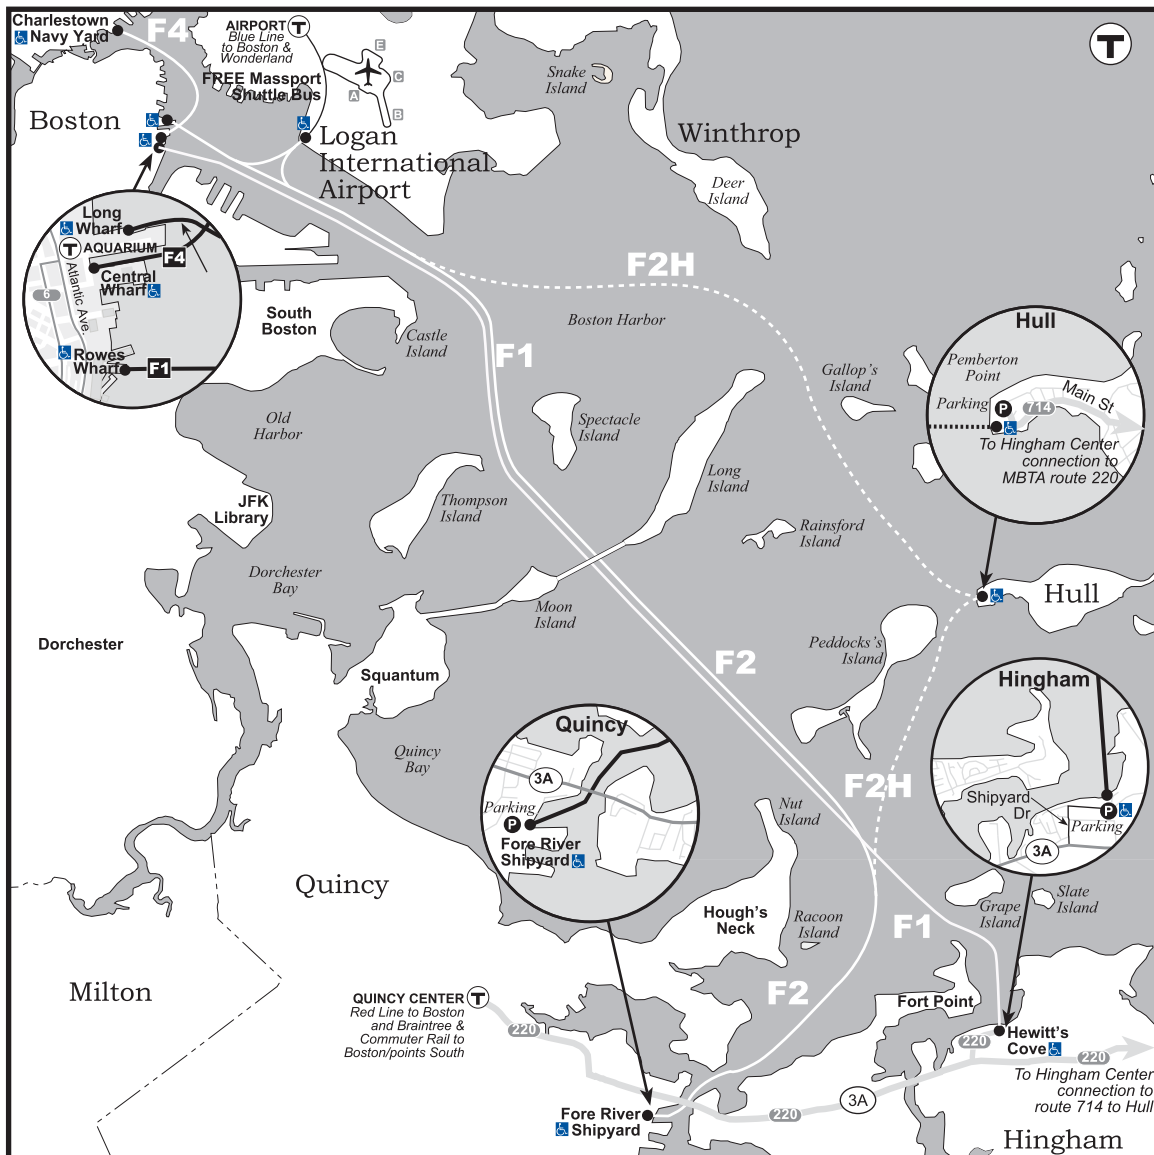

Inner Harbor Ferries F3 and F5 were discontinued after Friday, January 21, 2005. (Route F5X was not subsidized by the MBTA. Service on F5X continued until February 24, 2006, as it was operated and funded by others.)

The MBTA selects ferry operators based on their ability to provide quality, cost-effective service. The MBTA owns and/or maintains all docking/landside facilities, and sets all boat fares and schedules. The MBTA owns two vessels “Lightning” and “Flying Cloud”, which operate on F2/F2H and the terminal building in Quincy. The operators provide and maintain all non-MBTA owned vessels used in MBTA ferry service. All terminals, docks, and vessels, are accessible to persons with disabilities.

Greenbush Commuter Rail service commenced on October 31, 2007.

In FY2007 Logan ridership in July and August increased during the Ted Williams Tunnel temporary closure

* Service to Georges Island first operated in May 2004. Ridership for Georges Island is MBTA service only and does not represent total ridership to the island.

Service Note: Route F2/F2H service annulled 15 Jan - 5 Feb 2004 due to harbor ice conditions.

Route F2 became an MBTA service in May 2002. Prior data provided by private operator.

Chapter 5B – Contracted Bus Services

Certain bus services are operated by third parties under contract to the MBTA. These contracted bus services are categorized under distinct programs.

Private Carrier Program: Local bus service in MBTA-service district member communities such as Winthrop, Medford, Hingham, Hull, and Canton.

Suburban Transportation Program: Local bus service in certain communities within the MBTA service district.

Inter-District Transportation Program: Beginning in 1987, the Commonwealth of Massachusetts provided financial assistance to Commuter Bus Operators who were providing services deemed essential to commuters in eastern Massachusetts. The routes complemented MBTA services, but did not compete with them. All funding for this program was eliminated by the Commonwealth in February 2009.

The MBTA selects bus carriers based on their ability to provide quality, cost-effective service. Competitive bids are advertised periodically. The MBTA monitors the service, while the operators determine fares and schedules with input from the MBTA. The operators provide and maintain all vehicles.

CHAPTER 6 - THE RIDE

THE RIDE is the MBTA's door-to-door paratransit program for persons who are unable to use fixed-route MBTA services due to a disability. THE RIDE is a shared-ride service - customers may travel with others who are going in the same general direction.

THE RIDE is compliant with the Americans With Disabilities Act (ADA), and began with two lift-equipped vans serving an area of 12 square miles in Brookline and parts of Boston in April, 1977. The MBTA's Office for Transportation Access (OTA) manages THE RIDE program and determines customer eligibility via a written application process. ADA-certified visitors are eligible for THE RIDE service with prior arrangement.

THE RIDE (as of Fall, 2008) serves:

- An area of 729 square miles
- Over 55,000 registered customers
- All areas with MBTA bus, trackless trolley, light rail/trolley, or rapid transit service. (ADA does not require paratransit service in areas with express service [commuter boat, commuter bus, and commuter rail] only, or in areas without mass transit service.)

THE RIDE service is provided by four private firms under contract to the MBTA. One of THE RIDE contractors also uses a subcontractor. In total, these firms employ approximately 827 people to provide THE RIDE service. Contractors hire and train all required staff; take trip requests; schedule trips; maintain, operate, and provide storage for all RIDE vehicles; and investigate and resolve service complaints. THE RIDE service is provided utilizing a fleet of lift-equipped vans, and sedans. All RIDE vehicles are equipped with radios, global position satellite/automatic vehicle location equipment, and mobile data computers. The MDC/ AVL units in each vehicle are connected via wireless communication network to the new RIDE Computer System for more effective scheduling, dispatching, and monitoring.

Customers can request THE RIDE service to and from any point in the 62 RIDE-served communities. Boston customers have a choice of contractors for intracity trips. THE RIDE service is provided daily from 6AM to 1AM, including holidays. Customers reserve RIDE trips by contacting the appropriate contracted firm daily 8AM-4PM. Although same-day and after-4PM requests for service are accommodated whenever possible, customers are strongly encouraged to call in advance (up to 14 days) to secure a reservation. There is no limit to the number of trips a RIDE customer can take.

THE RIDE fares are paid through a debit account that is established by the customer. Fare is a one way flat fee of \$2.00 regardless of area traveled. If you are traveling with a Personal Care Assistant, PCA, the PCA is not charged. Guest fare is \$2.00. Contractor service areas remain the same and vehicle transfers are still required where necessary. Trips that cross contractor service area boundaries may require vehicle transfers arranged between contractors, with any additional fare being deducted automatically from the customer's RIDE account. To ensure the personal safety of the customer, THE RIDE vehicles wait for each other when transferring patrons. The use of prepaid paper tickets for THE RIDE service was discontinued effective March 1, 2005, although any remaining tickets can be returned for credit into the new RIDE Account System. THE RIDE fare deposits may be made by phone as well as the Internet, US

Mail or in person.

THE RIDE customers are allowed at least one companion (more by arrangement and if space permits). The companion's fare is paid using the customer's account and must travel with the customer. Animals, other than service animals, are not permitted, and school transportation for minors (grades K-12) is not provided by THE RIDE.

THE RIDE budget for FY 2009 is \$55.6M, an increase of approximately 7.6% over FY 2008 levels. THE RIDE has improved in the following significant areas:

- Ridership- increased by 8.6% in FY07, & 11.2% in FY08
- Record ridership, with a new high of 163,463 passenger trips in May 2008
- There was a 0% trip denial rate in FY08.
- On-time service- was @ 98.5% within 30 min. & 91.7% within 15 min. FY08

Typical day RIDE requests are approximately:

	Weekday	Saturday	Sunday
FY 2008	7,226	3,049	2,386
FY 2007	6,510	2,747	2,150

For information call 617-222-5438, TTY 617-222-5854.

Bicycles

Bicycles are generally allowed on Commuter Rail trains and Commuter Boats as well as Blue, Red and Orange line trains during certain off-peak weekday hours and all day on weekends. Bicycles are not allowed on the Green Line or Silver Line. Bikes are always allowed on buses with bike racks mounted on the front of the vehicle. See the MBTA website for a listing of bike rack-equipped bus routes.

No permit is required to take a bicycle on MBTA vehicles, but bicyclists are required to understand and comply with all MBTA bicycle policies. For details, please call the MBTA customer service line at 617-222-3200, then press 1. You may also consult www.mbta.com or the "Bikes on the T" brochure for additional information.

THE RIDE

THE RIDE is the MBTA's Paratransit program that provides door-to-door, shared-ride service to eligible people who cannot use general public transportation (subways, buses and trains), all or some of the time, because of a physical, cognitive or mental disability. Lift equipped vans and sedans are used to serve persons with disabilities, including those who use wheelchairs and scooters.

The one-way fare for each registered passenger and each guest is \$2.00. Personal Care Assistants traveling with a passenger are not charged a fare.

For more information and to obtain an application for THE RIDE, please call 617-222-5123, TTY 617-222-5415. You may also consult www.mbta.com for additional information.

Chapter 8 - Park-n'-Ride

Parking for transit customers is available at many MBTA commuter rail, rapid transit, bus, and water transportation facilities. In many cases, parking lots or garages are directly owned or leased by the MBTA; typically these facilities are operated by concessionaires under contract, and a nominal user fee is charged.

Other facilities are owned and operated by municipalities or entrepreneurs who set their own rates and may also accommodate others, such as patrons of an adjacent venue (e.g., a shopping mall). The following tables thus make distinctions between MBTA-provided customer-only parking, and parking provided by others where transit customers are allowed.

Altogether, over 63,000 parking spaces are available to MBTA customers. Over 45,000 of these spaces are provided by the MBTA; which has risen from about 30,000 spaces in 1990.

Type of Facility	MBTA-Provided Spaces			Commuter Spaces		Total Auto Spaces
	Number of Facilities	Auto Spaces	Accessible Spaces	Bicycle Spaces	Provided by Others	
Rapid Transit Stations & Stops	23	16,131	249	1,344	4,160	20,291
Commuter Rail Stations	69	26,733	778	701	9,822	36,555
Ferry Terminals	2	2,191	20	8	390	2,581
Bus Facilities & Stops	1	200	6	100	4,259	4,459
TOTAL	95	45,255	1,053	2,153	18,631	63,886

Notes on above table: Joint bus/subway or commuter rail/subway are listed as subway

Notes on tables that follow: *Designated park and ride facilities* refer to facilities under MBTA auspices and municipal/private facilities that offer park and ride services to MBTA customers. *Other park and ride* services near MBTA facilities, where known, are tabulated separately. The MBTA is not responsible for the accuracy of any data regarding park and ride facilities operated by others.

Chapter 9 - MBTA District and Service Network

Today's MBTA service network was crafted from the networks of several private-sector predecessors.

Government's role in transit service provision grew substantially when, in 1947, the State Legislature created the Metropolitan Transit Authority (MTA), a new entity charged with providing transit service in a 14-member community district with Boston as its hub.

The MBTA was created by the State Legislature in 1964. The MBTA's charge was to craft a transit network serving 78 member communities, including the old MTA district. Over the next decade the MBTA network grew at a rapid pace.

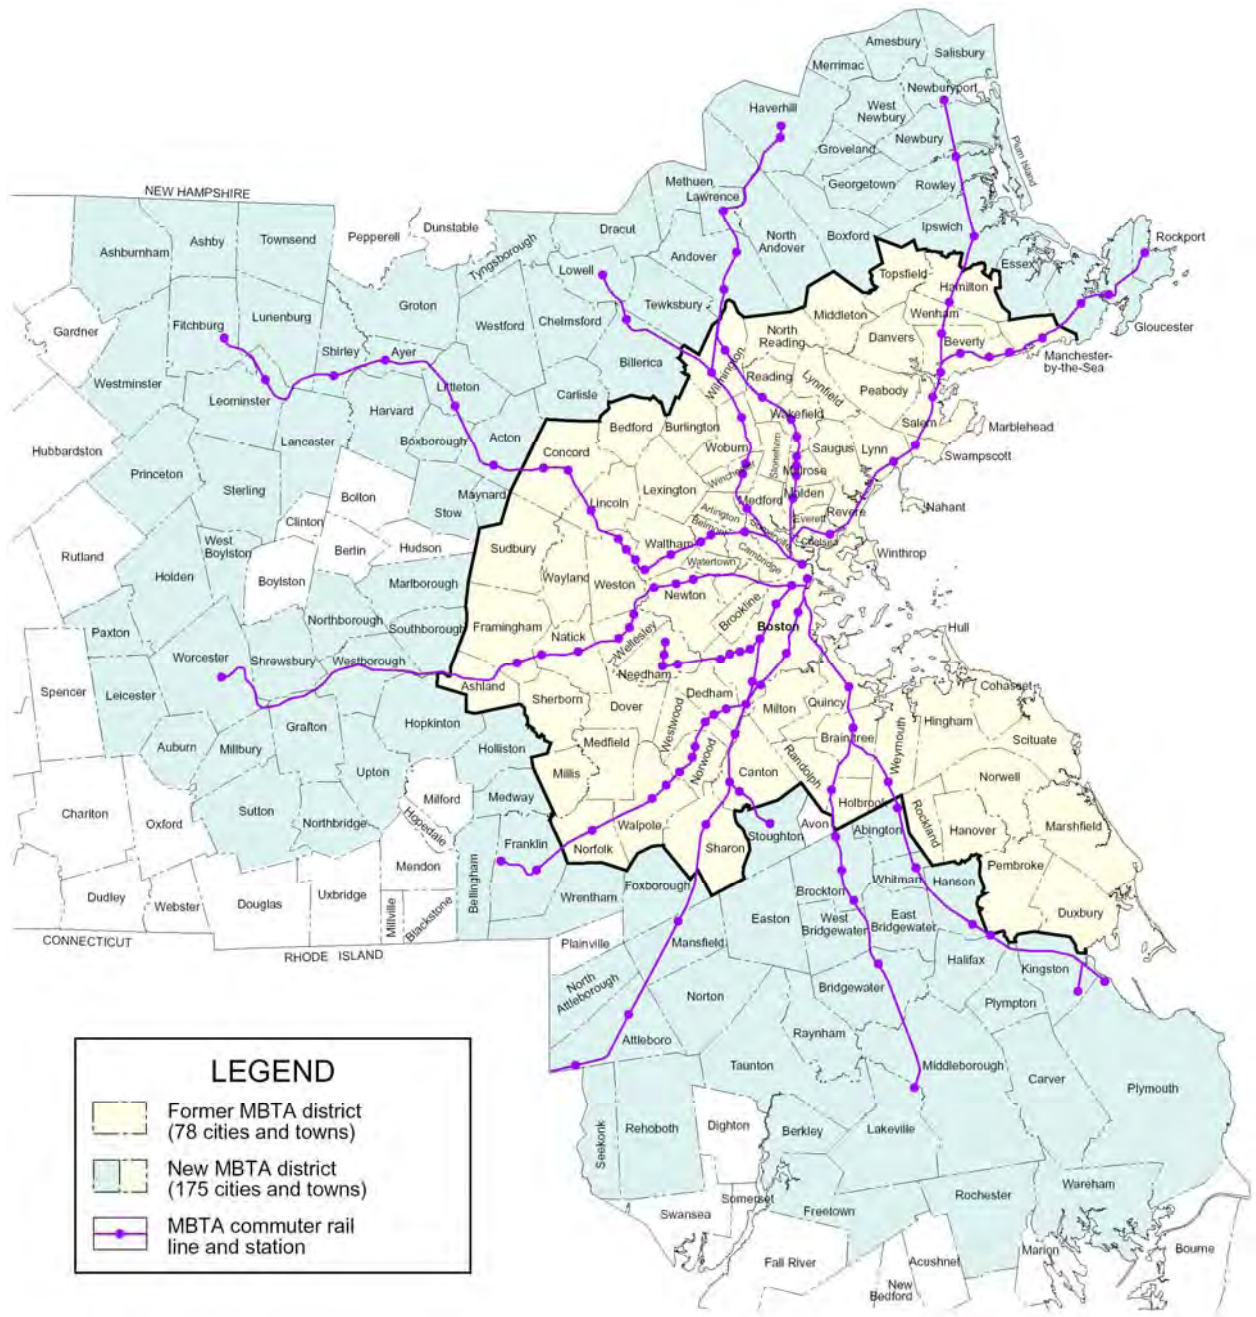

The role of the MBTA was expanded in 2000 when the state legislature expanded the authority's service district from 78 to 175 member communities. Many communities within the former 78-member district receive local bus and subway service. Others receive (or are proximate to) commuter rail service, and may (or may not, depending on the community) belong to a regional transit authority that provides local bus service. Member communities are represented on the MBTA Advisory Board, and contribute assessment fees (see Chapter 7). These fees – along with a portion of the statewide sales tax revenue and revenues from operations (fares, park-n'-ride fees, advertising revenues) – are the principal sources of revenue that ensure continued provision of MBTA service.
