

Mayors Summer Youth Employment Program 2017: Team CDD

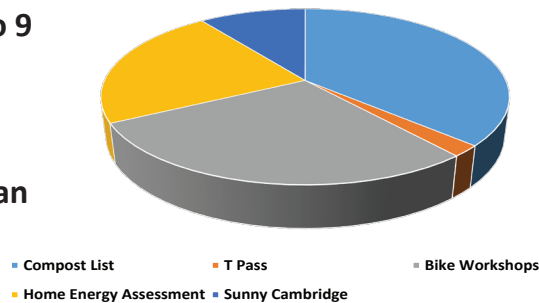

For two months this summer, the Cambridge Community Development Department hosted 31 highly motivated and innovative high school students as our CDD youth interns.

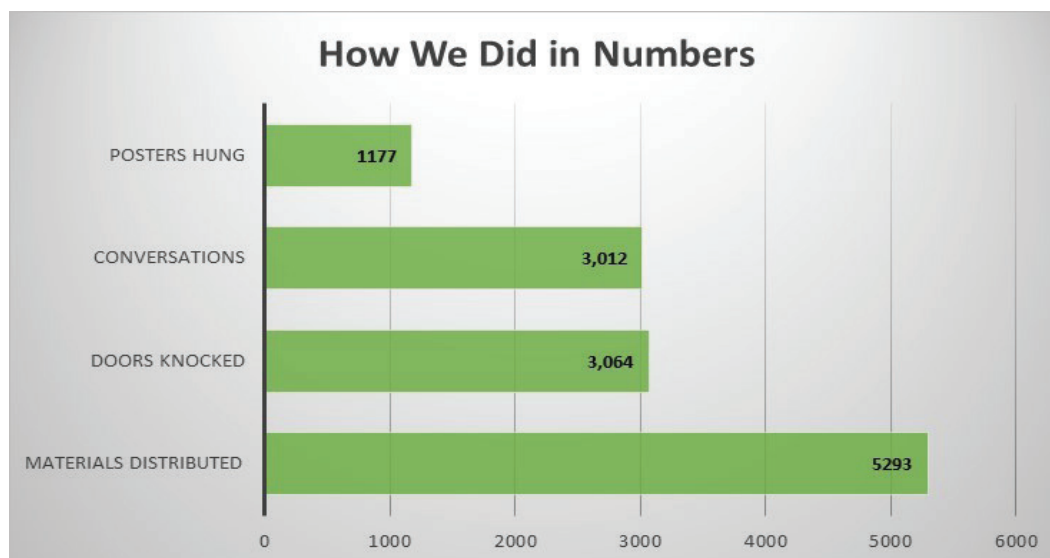

The interns were divided into 9 teams with different focus areas such as sustainable transportation, food and general waste reduction, clean energy, open space, and affordable housing.

CDD Program Sign-Ups

Over the 7 weeks of their internship, they tabled at 15 outreach events to engage the community about all the different programs the City has for them, including Envision Cambridge, Bike Workshops, and more.

Notably, the CDD youth interns made a significant impact this summer. In total, the teams signed 487 residents up for various programs and spoke to thousands of Cambridge residents and visitors! We were truly lucky to host such an incredible team.
