**NEW BUSINESS/ UPDATES**

**New Trust Member**

Beverly Bates was introduced as a new member of the Affordable Housing Trust. She is a Cambridge resident with extensive experience in affordable housing development, including almost 25 years with The Community Builders. Trust members and staff introduced themselves and welcomed Ms. Bates.

**First Time Homebuyer Buydown Funds**

Staff presented a summary of three previous trust votes approving the setup and expansion of the First Time Homebuyer Buydown Fund. The Fund was originally established to assist buyers in purchasing ownership units created through the inclusionary zoning program. It was later expanded to include units created through non-profit development and resale units from all programs, including inclusionary, Financial Assistance and CHBI.

Staff also presented the program guidelines outlining the parameters approved by the Trust in previous votes. These include limiting the assistance to Cambridge residents and setting buydown assistance limits of $25,000 or 25% of sales price for one-bedroom units and $50,000 or 25% of sales price for family-sized (two or more bedroom) units.

Upon a motion and seconded it was;

APPROVED to confirm the previous votes taken on the First Time Homebuyer Buydown Assistance Fund and to approve the program guidelines as written.

**Predevelopment Funding**

Staff presented information requested by the Trust on predevelopment costs for recent projects and how sponsors have funded these costs. While predevelopment costs have increased for projects with lengthy appeals and other development delays, in almost all cases Trust funds have been only a portion of the predevelopment funds. Sponsors have used their own equity, bank funds, Neighborworks funds, and CEDAC predevelopment loans in addition to Trust funds.
Trust members discussed the benefits of sponsors seeking additional funding sources for predevelopment. One of the issues discussed was that many sources, such as Neighborworks and CEDAC, are more likely to lend to projects further along in the development process, leaving a gap for the initial costs during the acquisition and permitting phases. Another issue discussed was the cost of certain predevelopment sources such as bank funds and CEDAC loans, which carry interest. However, the Trust also felt that pursuing other sources allowed projects to be visible to other funding agencies early in the process.

The Trust agreed that while predevelopment needs must be reviewed on a case by case basis, there is value in having sponsors contribute their own funds and seek sources other than the Trust to cover predevelopment costs. It was agreed that the Trust is and will remain an important predevelopment source for these projects.

ADJOURNMENT

The meeting adjourned at 5:15 pm. The next meeting is scheduled for February 25, 2010, at 4 pm in the Ackerman Room. Confirmation of this time and date will follow.
