UPDATE FROM CDD

Affordable Housing Overlay (AHO): The Affordable Housing Overlay was ordained by the City Council on October 5, 2020. The Overlay is effective immediately and is now available for new development projects. Staff have begun to hear from affordable housing providers about new opportunities for affordable housing development.

Trust members and staff reflected on the efforts to pass the AHO, which began with discussions several years ago. The process included hearing from many community voices not typically heard from in other planning efforts, and it is expected that the zoning overlay and associated design guidelines could be a model for other communities. The Trust celebrated this accomplishment and encouraged staff to consider what’s next as far as new affordable housing policies, including other ideas outlined in the Envision Cambridge community planning process.

HomeBridge: There are six approved buyers seeking units with three homes under agreement. Inventory is limited, but approved buyers continue to look for units to purchase. To date, 68 units have
been purchased by first-time homebuyers through HomeBridge and the city’s prior financial assistance programs.

**Homeownership Resale Pool:** In response to COVID-19, city staff are adapting the typical process to show new units to prospective buyers in the Resale waiting pool, such as virtual open houses.

**Finch Cambridge:** Construction is complete and the property is fully leased up and occupied. Due to the pandemic, HRI has been unable to showcase the property to the public but is working with the City to provide a video tour/virtual walk-through of the building.

**Frost Terrace:** Construction is underway and proceeding after pandemic-related delays. Construction is anticipated to be complete by late-Winter/early-Spring 2021. The construction delays incurred significant cost increases, which are being monitored by City staff.

**Vail Court:** Litigation continues with no news to report as the case continues.

**2072 Mass Ave.**: Capstone/Hope held their first public meeting for the project in September 2020. They have published a website, which includes many of the questions and comments that emerged at the community meeting. Their goal is to secure permitting and financing to allow construction to begin in 2022.

**SquirrelWood:** Construction was delayed due to the pandemic but is on schedule to be completed in early 2021. Some units are already online, and others will phased-in over the next few months. The construction delays incurred significant cost increases, which are being monitored by staff.

**Fresh Pond Apartments:** HUD has approved the terms of the new affordability program terms for the remaining third of the units which will take effect when the current use agreement expires. HUD has also approved the owner’s request for Enhanced Vouchers which will facilitate the transition to the new affordable program. The Cambridge Housing Authority will be administering the Enhanced Vouchers. Staff are working with the owner on scheduling a tenant meeting to share these updates and discuss next steps. The first meeting is tentatively scheduled for early November.

Trust members complimented City staff on their hard work over several years to preserve these units. The Trust also noted the City’s success with regard to all of the prior expiring-use projects over the past 10 years, leading up to the success of Fresh Pond Apartments.

**Rindge Commons:** The Board of Zoning Appeals voted to approve a comprehensive permit for the project on August 23, 2020. Just A Start is in the process of securing the necessary financing to begin construction of Phase 1 and will be applying for state funding in the upcoming application round.

**52 New Street:** Just A Start is starting to plan for the development of their New Street site, including the community and permitting processes, with a goal to secure permitting and financing to begin construction in 2022. This could be the first Affordable Housing Overlay project as they explore their development options for the site.

**ParkView Cooperative:** City staff met with Cooperative residents in early October to discuss their concerns about the City’s proposed terms and conditions and to identify areas that are workable for the
residents. The Cooperative is revising their operating budget for the Trust and reviewing resident selection language and affordability restrictions in place for other Trust-funded projects. The building heating system, a concern noted in the September discussion, will be repaired prior to the winter months, and will allow for more time to finalize the Trust’s funding terms and conditions and ensure a mutually agreeable solution is in place.

**55 Wheeler Street:** The project is back at the Planning Board. The Inclusionary Housing plan has been reviewed and will be complete once the Planning Board completes its review.

**Sullivan Court House Redevelopment:** The Inclusionary Housing Plan is under review. Developers will apply for a building permit by early November 2020. There will be 48 affordable units at this site of the old courthouse on Thorndike Street.

**Housing Stabilization Program (HSP):** The City continues to offer emergency housing assistance to residents through the Housing Stabilization Program which provides funds to income-eligible residents to help with partial rental payments. HSP assists households paying more than 40% of their income on rent and is supported with Community Preservation Act (CPA) and HUD CDBG funds. The program recently increased assistance offered from 2 to up to 4 months. City staff are monitoring the ongoing need for program.

**Resident Experience Study:** After two-rounds of issuing RFPs, the City has selected the National initiative on Mixed Income Communities at Case Western Reserve University to conduct the City’s resident experience study to understand issues of bias in inclusionary properties. The study should launch in the coming months.

**Upcoming Housing and Ordinance Committee Meetings:** A discussion of inclusionary preferences will be discussed at the upcoming Housing Committee meeting, later tonight. The Housing Committee will meet again next week to discuss legal strategies to prevent evictions and housing risks for residents due to pandemic. The next Ordinance Committee will also meet next week to discuss a proposed home rule petition to establish transfer fee for real estate transactions, which would generate funds to Trust.

**NEW BUSINESS**

**Design Guidelines for Affordable Housing Overlay:** The design guidelines are now in place and will be referenced as affordable housing developers bring project forward to the planning board.

Trust members noted that the Guidelines work on paper, but that issues could arise as they are applied to individual projects. With as-of-right development, there can be contradictions site by site, and the guidelines layout the process by which we would want a developer to look at a new building. Trust members suggested the idea of establishing a subcommittee to review and endorse the guidelines, and to think through the Trust’s role in reviewing projects utilizing the Overlay to ensure they proceed smoothly.

Staff will be preparing updates to the Trust rules and regulations and it may be a place to include reference to how the Trust might use these guidelines consider funding requests for AHO and other new projects.
ADJOURNMENT

Meeting adjourned at 5:20 pm upon a motion moved and seconded, with absent, by roll call of eight in favor and one absent. The next meeting is scheduled for November 19, 2020.

Re: Amending and Restating Declaration of Trust

We are presenting the attached draft Amended and Restated Declaration of Trust for review and discussion by the Trust. The current Amended and Restated Declaration of Trust was last amended in November 2000, and the attached draft shows proposed changes CDD has developed in consultation with the Law Department redlined changes from that document.

You will recall that we discussed amending the declaration at a meeting earlier this year, with the principle goal to increase the income eligibility limit for households assisted by the Trust to 120% of area median income. We discussed this in response to a request from the City Council to expand HomeBridge program eligibility to households earning between 100% and 120% AMI. While making these changes, we also included needed updates to language and references, and where appropriate aligned language in the declaration with Section 11.206 of the Zoning Ordinance which also describes the activities of the Trust.

We look forward to the Trust discussion of these proposed changes.

We are also working to prepare proposed changes to the Trust’s Rules and Regulations, which describe how the Trust reviews requests for funding and conducts its business. We plan to bring these to the Trust for review and discussion at an upcoming meeting.

NOW, THEREFORE, on this 16th day of November, 2000, the Board does hereby set forth this Amended and Restated Declaration of Trust (the “Amended and Restated Declaration”).

MEMORANDUM

To: Affordable Housing Trust
From: Chris Cotter, Housing Director
      Anna Dolmatch, Housing Planner
Date: November 19, 2020
RE: Expanding HomeBridge Eligibility to Homebuyers earning between 100% to 120% AMI and Additional Funding Request

The HomeBridge program provides financial assistance for eligible applicants to purchase homes on the open market. In exchange for this assistance, buyers enter into an Affordable Housing Covenant and purchased homes become part of the permanently affordable stock.

The City Council adopted a policy order last year requesting that the Trust expand eligibility for HomeBridge to include households earning more than 100% but less than 120% of AMI. The proposed changes to the Affordable Housing Trust’s Declaration of Trust, if adopted, will allow for the Trust to offer HomeBridge assistance for households in this income tier.

In 2017 and 2018, the City appropriated more than $1MM from community benefits funds for a limited pilot HomeBridge program for this income group. The funds were quickly expended. There was significant interest in this offering, and we have heard from many residents who are interested in this program if we can serve buyers in this income range again.

While we do not anticipate that everyone who has expressed interest will apply or be eligible, we do expect that there will be high demand in the first year. We are requesting $3,000,000 from the Trust’s City budget funds. We estimate this will provide funding for eight to ten units.

HomeBridge provides a percentage of the purchase price, based on the unit size, buyer mortgage, and required asset contribution. There are also maximum market purchase prices, which will be the same for all buyers. HomeBridge subsidy funding is capped at a set percentage of the maximum market purchase price. The guidelines will be the same for this program component.

HomeBridge buyers are required to have a housing payment of at least 25% of their monthly income. This means that higher-income applicants must qualify for larger mortgages, and therefore require less assistance to purchase within...
the same price limit. This may result in buyers in this tier receiving less than the maximum subsidy, which will increase the program’s leverage.

Reduced subsidy at purchase will allow buyers to purchase at a higher base affordable price. However, if these units are resold when interest rates are higher and/or median incomes are lower, additional subsidy may be needed to preserve the same level of affordability.

**Recommendation:** Staff recommends that the Trust approve expanding eligibility for the HomeBridge program to households earning up to 120% of area median income, and that Trust commit $3,000,000 in City budget funds to the HomeBridge program.
