

Traffic Calming

What is traffic calming?

Speeding traffic interferes with our ability to enjoy our neighborhoods by making it uncomfortable to walk, bike, or drive safely. Traffic calming is a way to redesign streets to slow down traffic. The goal of traffic calming is to make our streets safer and more comfortable for all people.

Shared Streets
(Winthrop Street)

Modified Raised Crosswalk
(Western Avenue)

Curb Extensions
(Sixth Street)

Crossing Islands
(Brattle Street)

Chicanes
(Upland Road)

Raised Intersections
(Tremont Street)
