Remote Participation Instructions

- Working group members may speak and show webcam video
  - Use "Raise Hand" button during discussion
- Members of the public are muted and cannot show webcam video
- Public can write questions or to ask for assistance in Q&A window
  - Questions may be submitted at any time and will be addressed, as time allows, after working group member discussion
- Participants can be removed for inappropriate behavior
- Technical support – Sara Fontanez – sfontanez@cambridgema.gov
Welcome and Overview
Today’s Agenda

• Welcome and Overview 5 minutes
• Project Updates 5 minutes
• Corridor Traffic Overview 10 minutes
• Auburn St to Mass Ave – Circulation 20 minutes
• Carl Barron Plaza - Urban Design Options 30 minutes
• Working Group Discussion 15 minutes
• Public Comment 10 minutes
• Next Steps 5 minutes
Goals for Today’s Meeting

1. Review the corridor traffic analysis results
2. Present the proposed transportation network between Auburn Street and Mass Ave
3. Clarify, explore, and discuss the urban design approaches for Carl Barron Plaza
Updated Expected Timeline

Issues & Opportunities, Existing Conditions

Conceptual Design

2020

Public Meeting #1

Carl Barron Plaza Engagement

Public Meeting #2

Engagement Paused due to COVID-19

Working Group

Public Walks

Today
Expected Timeline

2020
- 25% Design
- Gas main construction (Eversource)
- Public Meeting #3

2021
- 100% Design
- Construction Bids
- Public Meeting #4

Construction (City) 2021-2023

Working Group
- Public Walks
- Today
Upcoming Meetings

• **Public Meeting #3**: October 2020 (tentative)
  • Review of Full Concept with Emphasis on Carl Barron Plaza and Traffic Analysis

• **Working Group Meeting #11**: November (tentative)
  • Design Plans
  • Review Public Meeting Feedback
Project Area Update

• Additional proposed Shared Streets: Howard, Kelly, Kinnaird between Kelly and Putnam
  - Part of the citywide response to COVID-19
  - Vehicle usage restricted to local access to allow for increased opportunity for physical distancing for pedestrians

• MBTA schedule changes to take effect Sunday 8/30
  - Route 70 to have added service on weekdays and weekends

• Neighborhood street design
  - Portions of Fairmont Ave, Fairmont St, Rockwell St, Laurel St, and Kelly Rd.
  - Separate community process / construction with River Street

• Eversource Gas
  - Replacing main line and customer services ahead of City project
Corridor Traffic Overview
VISSIM Analysis Overview

- What is VISSIM?
  - Traffic simulation software
  - Used to model complex transportation interactions between all modes

- What was analyzed for River Street?
  - Travel times & delay for all modes
  - River Street corridor & Central Square
    - Existing 2018
    - Future (2030) – without project
    - Future (2030) – with project
Memorial Drive to Putnam Avenue

- VISSIM Modeling Results
  - Observed sufficient vehicle capacity with one general purpose lane and shared bus/right-turn lane
  - Reduced pedestrian waiting time with concurrent pedestrian phasing
  - Overall vehicle delay at the intersection will be similar to today
Pedestrian Wait-time
Weekday Morning Peak Hour

Average Pedestrian Wait-time(s) in Seconds

- Putnam Ave
- Howard St & Kelly Rd
- Green St & Western Ave
- Mass Ave & Prospect St

- Existing 2018
- Future 2030 No Project
- Future 2030 With Project
Transit Travel Times

Route 64/70 Travel Times (Memorial Drive to Mass Ave)

River Street Transit Travel Times

- Travel time savings of 4 – 5 minutes over existing condition
- Bus lane to provide more reliable and on-time bus service
Bicycle Improvements

• Bicycle Level of Comfort (BLC)
  • River Street is currently BLC 3 or BLC 4
  • Proposed River Street to be BLC 1
    • Integrated separated bicycle facility with signalized crossings
Auburn St to Mass Ave-Circulation
River Street Corridor
Auburn Street to Mass Ave

- Maintains single general purpose lane + bus only lane
- Additional turning lanes provided at Green Street and Mass Ave
- Existing raised median island removed between Green Street and Mass Ave to allow for bus lane and separated bike lanes
Design Direction Review

- Decisions from previous Working Group meetings:
  - Butterfly shape for plaza preferred

Island Configuration Option (Not Preferred)
Circulation Changes Needed To Support Butterfly Plaza

• To expand the available plaza space, bus/bike only operations are proposed at Green Street & River Street
• These network changes will improve safety and operations for all modes
Proposed Network Changes

1. No through vehicle movement at Green Street except buses and bikes
2. First block of Magazine Street changed to one way southbound
3. Franklin Street between Magazine St and Western Ave changed to two-way
4. New signals at Franklin Street
5. Removal of parking spaces along north side of Franklin St, to be replaced along Magazine St
Bus/Bike Connector Bus Route Change

- Proposed 47 Route Changes:
  - First/final stop at Green/Magazine St
  - Return to Pearl Street via Magazine & Franklin Streets
  - Improved travel time by avoiding Mass Ave intersection
  - Walking distance from existing Mass Ave stop approximately 570 feet
  - MBTA coordination ongoing
Bus/Bike Connector
Pedestrian Phasing & Vehicle Conflicts

Existing Pedestrian Phasing

Proposed Pedestrian Phasing
Bus/Bike Connector
Vehicular Movements Change

Existing Vehicular Movements

Proposed Vehicular Movements
Bus/Bike Connector
Transportation Benefits

• The proposed network changes will allow:
  • Direct access to Western Avenue to be maintained for MBTA buses
  • Protected pedestrian crossing of River Street at Green Street
  • Improved bicycle connections
  • Reduced conflicts at Magazine Street and Green Street
  • Improved traffic flow due to signal at Franklin Street
Green Street
Existing Vehicular Volumes

Weekday AM
- 67

Auburn Street to Mass Ave
OVERVIEW OF DRAFT DESIGN PLAN

The Draft Plan will be posted at the project website's "Documents" under Working Group Meeting #10.

After this meeting, please share your thoughts by email - RiverStreet@CambridgeMA.gov
Check in Question

Do the proposed network changes require further clarification when presented at the public meeting?

A. No, it’s great as you have presented it!
B. Overall it’s good, but I recommend minor changes/clarifications
C. Yes, additional details and/or explanations would be helpful
Clarifications?
Carl Barron Plaza
Urban Design Options
The Community Process

On-site research

• Movement tracking
• Activity mapping
• Diary entries/on-site observations

Community Engagement

• In person interviews - 17 total
• Online survey - 32 respondents
• Open house and day of engagement - over 140 people engaged
Design Objectives/Themes distilled from the community process

**Comfort:** Ensure everyone feels comfortable to linger

**Identity:** A cleaner, more inviting space

**Access:** Balance transportation needs with enjoyment of the plaza

**Uses:** Everyday activity mixed with programmed events

**Sociability:** Spaces for people to gather in large and small groups
Shared Design Goals Review

**Inclusive**  
Attract a wide range of users while preserving usability for the existing regulars

**Activated**  
Create a vibrant space through everyday activities and special programming

**Safe**  
Create a feeling of safety for everyone

**Flexible**  
Allow for a wide range of uses and activities that can evolve over time

**Attractive**  
Improve the perception of the space

**Comfortable**  
Provide seating, lighting and amenities that promote short- and long-term lingering

**Multimodal**  
Ensure pedestrian and bicyclist flow, and coordinate with transit users’ needs

**Functional**  
Provide materials and amenities that are functional and easily maintained

**All-Season**  
Provide comfortable year-round use and reduce microclimate influence
Site Analysis & Constraints

- **Underground Utilities/Subway**
  - Major public and private utilities
  - Shallow utilities (electric, comms)
  - Sewer lines
  - Red Line Subway - Mass Ave.
  - Sanitary and drainage Lines

- **Seven (7) Existing Trees**

- **Relocate/Re-envision Art**

- **Solar Orientation**
  - Green St. edge: Sunny
  - Mass Ave: Shady
Design Givens for all Options

- **Direct pedestrian routes** through and around plaza (8'-0" min.)
- **Maintain healthy trees** in Carl Barron Plaza
- Maximize additional **tree plantings** and green space
- Provide **flexible plaza areas** for a variety of activities
- **Transit Shelters** at all (3) transit stop areas
- **MBTA Operators' Booth** with visibility to all three bus stops and layover area
- **Bus boarding areas** (8'-0" min. clear zone)
- **Separated bicycle facility** (width varies, 6'-0" min.)
Design Option Review
Where are we in the process?

• Materials presented are draft only
• Looking for your feedback on desired features and overall design direction
• Initial review of design alternatives is one step in the process
  • not picking favorites yet
• Sharing with additional stakeholders over Summer/Fall 2020.
• Public meeting is tentatively scheduled for Fall 2020
Option Overview

Option A
Yin Yang Pavilions

Option B
Serpentine Gardens

Option C
Gateway Plazas

Option A+C Hybrid
Option A : Yin Yang Pavilions

Key Design Features

Green St. End
- Custom bus shelters: 3 Locations

Mass Ave End
- Iconic open air pergola structure at Mass Ave. Plaza
- Flexible plaza space with suspended overhead lighting
- Curved seat wall and low curved planting elements

General
- Two existing trees to remain
- Eleven new trees
Option A | Birdseye Views

View across Mass Ave. toward Carl Barron Plaza and Western Ave.

View SE across Western Ave. to transit hub at Carl Barron Plaza
View SE along transit hub toward Holmes Building

View looking toward River Street at Mass Ave

View SE along transit hub toward Holmes Building

View toward church at Green Street end of Plaza
Option A: Example Program Diagram

Opportunities

- Gathering under the Mass. Ave. pergola (small – medium)
- Independent but complementary programming for both sides of plaza
- Small performance or vendors
- Flexible & movable seating

Constraints

- Curvilinear seating at main plaza bisects space
- Planters, unless flush with pavement, reduce programmable space
Option B: Serpentine Gardens

Key Design Features

Green St. End
• Curvilinear Bus shelters: 3 Locations
• Pedestrian path running along bike path

Mass Ave End
• Curvilinear fixed seating with backs
• Linear water feature (two sided)
• Open Plaza

General
• Paving - serpentine motif
• Wayfinding features
• Two existing trees to remain
• Twelve new trees
View SE along transit hub toward Holmes Building

View looking toward River Street at Mass Ave

View SE along transit hub toward Holmes Building

View toward church at Green Street end of Plaza
Opportunity Diagram

Opportunities

• Gathering around linear fountain and plaza area (small – medium)
• Independent programming for both sides of plaza
• Small performance or vendors
• Flexible & Movable seating

Constraints

• Curvilinear seating at main plaza bisects space
• Green Street Plaza can only host small activities
Option C: Gateway Plazas

Key Design Features

Green St. End
• Iconic Transit hub structure visible from various vantage points
• Trees in flush pavement
• Pedestrian circulation parallel to and separated from bike lane

Mass Ave End
• Multi-use open plaza
• Central water feature (two sided)

General
• Two existing trees to remain
• Thirteen new trees
Option C | Birdseye Views

View across Mass Ave, toward Carl Barron Plaza and Western Ave.

View SE across Western Ave. to transit hub at Carl Barron Plaza.
View SE along transit hub toward Holmes Building

View looking toward River Street at Mass Ave

View SE along transit hub toward Holmes Building

View toward church at Green Street end of Plaza
Option C: Example Program Diagram

Opportunities

- Gathering around central fountain and plaza area (small-medium)
- Several activities can be combined into a medium sized event
- Independent programming is feasible for both plazas
- Small performance or vendors
- Flexible and movable seating
- Trees in flush pavement and large pavilion at Green St. End provide flexibility
Option A+C Hybrid

Key Design Features

Green St. End
• Iconic Transit hub structure visible from various vantage points
• Trees in flush pavement
• Pedestrian circulation parallel to bike lane

Mass Ave End
• Iconic open air pergola structure at Mass Ave. Plaza
• Flexible plaza space with catenary lighting
• Curved seat wall and low curved planting elements

General
• Two existing trees to remain
• Ten new trees
Option A+C Hybrid | Birdseye Views

1. View across Mass Ave. toward Carl Barron Plaza and Western Ave.
2. View SE across Western Ave. to transit hub at Carl Barron Plaza
Opportunity

- Gathering under the Mass. Ave. pergola (small – medium)
- Independent programming is feasible for both plazas
- Small performance or vendors
- Flexible & movable seating

Comments

- Trees in flush pavement & large pavilion at Green St. End provide flexibility
- Curvilinear seating at main plaza bisects space

Option Summary

Option A
Yin Yang Pavilions

Option C
Gateway Plazas

Option B
Serpentine Gardens

Option A+C Hybrid
Check in Question

Which feature(s) do you think are most important to include in the redesigned Carl Barron Plaza?

- Fixed Seating
- Movable Seating
- Trees & Landscaping
- Pergola Structure
- Water Feature
- Café/game tables
- Bicycle Parking
- Wayfinding
- Direct pedestrian routes
- Space for programming
Possible Movable Furniture Elements

A. Lounge chair

B. Chair w/ back

C. STOOP bench-Vestre

D. STRIPES bench-Vestre

E. Solstice Umbrella-Landscape forms

F. Rapson Rocking Chair-Loll
Check in Question

Which movable seating do you like for Carl Barron Plaza?

- A. Lounge chair
- B. Chair w/ back
- C. STOOP bench (stepped)
- D. STRIPES bench (semi-circular backless)
- E. Solstice Umbrella w/ fixed tables and chairs
- F. Rapson Rocking Chair
Clarifications?
Public Comment
River Street Reconstruction

Take our survey and tell us how River Street works for you today!

The River Street Reconstruction project will upgrade the sanitary sewer, stormwater, and water subsurface infrastructure while developing a new surface design for River Street, the bus terminal area at River and Magazine Streets near Central Square, and Carl Barron Plaza. The project aims to create a streetscape design that meets the needs of all the various users and in a way that engages the local community, contributes to overall enhancement of the neighborhood, and meets the City’s goals related to infrastructure, transportation, and urban design.

The concurrent design of Carl Barron Plaza, the significant open space at the heart of Central Square will include consideration of public art, fixed and/or unified furniture, access, plantings, and landscaping. The design must also consider the complexity of transportation needs related to the bus bays adjacent to the Plaza and people moving through the plaza.

The community outreach and design processes will occur throughout 2019 and into early 2020. Construction is anticipated to begin in Spring 2020.

Click here to sign up for email updates on this project.

Click here to provide general comments and feedback.

The Public Input Map is now online, but you can still access it through the link to see what input was provided on issues and opportunities along River Street and in Carl Barron Plaza. Soon we will be posting a survey to understand how you use River Street today so that we can use that input in the design and also compare to a similar survey after the construction is complete.

September 2019
Complete and Share the Pre-Construction Survey!!

- Still live at cambridgema.gov/riverstreet
- Will become the “before” survey for the River Street Reconstruction
- When the post-construction survey is complete, the two will help the City evaluate the project
- Please help us distribute to your neighbors!
THANK YOU!

riverstreet@cambridgema.gov
