Feedback:

1. Suzannah provided feedback that the black background on the signage may not go with the façade expected, so we have attached the second option that we can go with, with no black background and with only one tasteful signage with wiring in the back.
2. Bob Flack provided insight that this will be a great addition to what Market Central would want to be able to provide to the locality in terms of the citizens’ experience.
3. Patrick Rowe congratulated us on our venture and wished us good luck.
