

Regarding an addition planned at 500 Green Street

Dear neighbors. I am planning an addition to my condo at 500 Green St that I have been dreaming about for 14 years. It is only now possible due to the recent change to the zoning in Cambridge. Currently, my 2 bedrooms are on the 4th floor in a built out attic with very low sloped ceilings. This project would raise the roof of the building to allow that 4th floor to be a full living level which would allow me space for a 3rd bedroom as well as making the bedroom level more comfortable and safe to live in. The timing of the zoning change couldn't be better for me since we welcomed our second child in March of 2025.

Part of the permitting process includes this notification to my neighbors to let you know that I will be available to answer questions and share plans for the project at the following day, time and location.

Date: 2-25-26

Time: 9:30 AM

Location: 500 Green Street

I myself am a general contractor and licensed construction supervisor so I will be the builder for the project but this is for my personal home where I have lived for 14 years. You can reach me at Patrick.britton@britton-homes.com or 508-231-8700.
