

City of Cambridge Community Preservation Act FY 2022 Project Funding Application

SUBMISSION INSTRUCTIONS

Completed forms and attachments may be emailed to jmathews@cambridgema.gov. **Deadline for submission is Wednesday, July 14, 2021.**

CPA CATEGORIES & ALLOWABLE USES

CPA funds can only be used for certain purposes:

- ❖ Affordable Housing (also called Community Housing)
- ❖ Historic Resources
- ❖ Open Space
- ❖ Recreational Land

For a description of the CPA categories and the allowable uses of CPA funds in each project category, please review the state [Department of Revenue Allowable Uses Chart](#). Also note the following regarding potential **affordable housing and **historic projects**:**

- Cambridge Affordable Housing Trust (CAHT): Absent extraordinary circumstances, CPA funding for affordable housing flows through the CAHT. For more information, including on applying for funding, visit: <https://www.cambridgema.gov/CDD/housing/housingtrust>.
- Cambridge Historical Commission Preservation Grant Program: CPA funding for historic projects on private property is available through the Preservation Grant Program. If you are applying for historic funding for a private property, please explain why Preservation Grant funding is insufficient or unavailable. For more information, visit: <https://www.cambridgema.gov/historic/permitsApplications/preservationgrants>.

APPLICANT INFORMATION

Name(s): _____

Applicant Organization, if applicable: _____

Phone: _____

Email: _____

Address: _____

PROJECT INFORMATION

- ❖ Applicants are encouraged to attach any maps, photographs, designs, renderings, budget documents, or other images or plans related to the project when submitting their application form.
- ❖ Letters of support from community members or organizations may also be attached.
- ❖ Actual quotes for project costs are strongly encouraged. Estimates may be used, so long as the basis for the estimate is explained in detail.

Project Title: _____

Project Address: _____

CPA Category:

- Affordable Housing
- Historic Resources
- Open Space
- Recreation

Previous CPA Funding Received, if applicable: _____

CPA Funding Amount Requested: _____

Project Description:

Please submit a separate word document or pdf with the following project details:

- Goals/Purpose
- Property Ownership/Site Control

If you are not the property owner, please submit site control documentation, a memorandum of agreement (MOA), or a letter of support from the relevant public agency (e.g., the Massachusetts Department of Conservation and Recreation) as an attachment. Projects for City of Cambridge-owned property must be submitted by a City Department.

- Community Support
 - Total Project Budget
 - Other Funding Description (amount, source of funds, etc.)
 - Project Timeline
-

Alewife Restoration

The Alewife Reservation is 130 acres of open space and urban wild owned by Massachusetts Department of Conservation and Recreation and largely within the boundaries of Cambridge. It is directly accessible from the Alewife T station on the Red Line.

Part of the more than 400,000 acres under DCR's control, it is a highly modified landscape and very urban. This development pressure has increased significantly in the past few decades, but just a portion of the Reservation is managed from an ecological perspective. It is largely made up of invasive species.

In 2003, the state agency prior to DCR produced a detailed master plan for the property but so far only some of it has been realized--in particular the stormwater wetland that handles the runoff from North Cambridge streets.

This funding request would help implement more parts of the master plan, an in particular, remove invasives while expanding the native plantings found around the stormwater wetland. Over a series of three years, Green Cambridge will work with Parterre Ecological to train youth participants to do this work across selected sites in the Reservation in collaboration with DCR staff. Work on our first site has begun this summer with MSYEP participants by cutting and removing invasive species within the wetland buffer and restoring the area with native plantings.

In this way, we create connections for potential future employment and educational pathways while also doing ecological restoration for the benefit of Cambridge residents.

In addition to MSYEP participants, Green Cambridge will organize spring and fall volunteer events for further maintenance and restoration each year of the project.

This work has the support of DCR in two ways: their involvement in helping Green Cambridge gain a three-year order of conditions for the first site and being advanced toward a DCR Partnership Grant for this work. I've attached the most recent permitting application created in partnership with DCR as evidence of support.

The project timeline is estimated to run from July 2021 through December 2024.

While we are continuing to develop the multi-year project budget, we have attached this year's budget totalling \$40,146 and anticipate each year to be at the same level. Thus we are asking for \$120,438 in CPA funding for this project.

Item	Amount	Notes
Materials (+ delivery)	\$7,082	Plants
Supplies (+ delivery)	\$540	Tools and supplies
Outreach	\$350	Social media + flyers
Signage	\$1,800	
Consultant	\$7,870	Parterre. On-site expertise, project development, site selection, permitting
Consultant	\$3,200	Gardener On The Hill. On-site expertise, Day-of volunteer management.
Coordination	\$1,335	GC Project Coordinator
Indirect Costs	\$2,218	Insurance, rent, etc.
Project Management	\$3,327	GC PM costs
	\$27,721	Total for the MSYEP Phase of the Project
Site selection, permitting, etc.	\$2,600	
After MSYEP Maintenance	\$1,053	
Fall Volunteer Event	\$4,386	
Spring Volunteer Event	\$4,386	
	\$40,146

6. General Project Description:

(See attached LMP) The "River Restore" area is a 28,000 sq. ft portion of the Alewife reservation abutting Little River and Alewife Reservation Park. The entire area lies within the 25-ft RA, BLSF & Bank/BVW buffer. In the Spring/Summer of 2021 Parterre plans to assist the youth Mayors Summer Youth from Green Cambridge in cutting & removing invasives and restoring with native plants.

A. General Information (cont.)

7. Registry of Deeds:

Middlesex
County

14623
Book

13
Page

Certificate (if Registered Land)

B. Site and Activities Subject to Regulation

Complete any of the following sections that apply to the proposed work and project site.

1. Complete for proposed activities located, in whole or in part, in Buffer Zone.

a. Check all the following borders to the Buffer Zone:

Inland Resource Areas

Coastal Resource Areas

Inland Bank

Coastal Beach

Barrier Beach

Bordering Vegetated Wetland (BVW)

Rocky Intertidal Shore

Coastal Dune

Salt Marsh

Coastal Bank

b. Check all the methods used to delineate the Bordering Vegetated Wetland boundary:

Final Order of Resource Area Delineation issued by Conservation Commission or DEP (attached)

DEP BVW Field Data Form (attached)

Final Determination of Applicability issued by Conservation Commission (attached)

Other Method of Determining BVW boundary (attach documentation):

50% or more wetland indicator plants

Saturated/inundated conditions exist

Groundwater indicators

Direct observation

Hydric soil indicators

Credible evidence of conditions prior to disturbance.

Massachusetts Department of Environmental Protection
Bureau of Resource Protection - Wetlands

DEP File Number:

WPA Form 4 – Abbreviated Notice of Intent

Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

Provided by DEP

Cambridge

Town

B. Site and Activities Subject to Regulation (cont.)

c. Describe, with reference to supporting plans and calculations where necessary, the size, type, and location of the proposed work and mitigating measures and designs to insure that the proposed work will not alter the resource area and Buffer Zone borders. Attach additional sheets, if necessary.

There will be no permanent alteration to the Wetland buffer. Invasive species will be removed using methods that avoid disturbance and native plants will be installed with erosion controls to prevent any soil loss. No new soil will be brought in and no soil will be taken out. See attached Land Management Plan

2. Complete for proposed activities located, in whole or in part, in Land Subject to Flooding.

a. Resource area description:

Bordering Land Subject to Flooding:

0

Volume of Flood Storage Lost (cubic feet)

0

Volume of Flood Storage Compensation (cubic feet)

Isolated Land Subject to Flooding:

0

Volume of Flood Storage Lost (cubic feet)

0

Volume of Flood Storage Compensation (cubic feet)

b. Describe, with reference to supporting plans and calculations where necessary the size, shape, location, and type of work, mitigating measures, and designs proposed to meet the performance standards set forth in 310 CMR 10.57(4) and 10.60. Attach additional sheets, if necessary.

Although activities are located within BLSF, the storage lost is expected. Activities include invasive removal and replacement with native plantings.

3. Complete for proposed activities located, in whole or in part, in the Riverfront Area.

a. Name of Waterway (if available):

Little River

Massachusetts Department of Environmental Protection
Bureau of Resource Protection - Wetlands

DEP File Number:

WPA Form 4 – Abbreviated Notice of Intent

Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

Provided by DEP

Cambridge

Town

B. Site and Activities Subject to Regulation (cont.)

b. Width of Riverfront Area (check one):

25 ft. - Designated Densely Developed Areas only

100 ft. - New agricultural projects only

200 ft. - All other projects

c. Describe how the Mean Annual High-Water Line was determined:

visual observation

d. Distance of proposed activity closest to the Mean Annual High-Water Line:

5

Feet

e. Total area of Riverfront Area on the site of the proposed project:

26000

Square Feet

f. Proposed alteration of the Riverfront Area:

26000(Temperary)

Total Square Feet

26000(Temperary)

Square Feet within 100 ft.

Square Feet between 100 ft. and 200 ft.

g. Indicate project purpose:

Single family house

Commercial development

Transportation

Residential subdivision

Industrial development

Other (describe):

Ecological Restoration

h. Was the lot where the activity is proposed created prior to August 1, 1996?

Yes

No

Massachusetts Department of Environmental Protection
Bureau of Resource Protection - Wetlands

DEP File Number:

WPA Form 4 – Abbreviated Notice of Intent

Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

Provided by DEP

Cambridge

Town

B. Site and Activities Subject to Regulation (cont.)

i. Describe how the project will meet all performance standards set forth in 310 CMR 10.58(4) for the Riverfront Area, including standards requiring consideration of alternative project design or location. Attach additional sheets, if necessary.

Activities will consist of trash cleanup and invasive species management with a fall native species planting and seeding. Stems greater than 1" in diameter and any stems along the bank will be cut and treated with a triclopyr 3A based herbicide to avoid soil disturbance. Any disturbed areas will be overseeded with native species suitable for the area and covered with an all natural fiber erosion control fabric (See attached Land Management Plan)

4. Is the project exempt from the DEP Stormwater Management Policy?

Yes If yes, explain why the project is exempt:

No If no, stormwater management measures are required. Applicants are encouraged to complete the Stormwater Management Form and submit it with this Abbreviated Notice of Intent.

5. a. Is any portion of the proposed project located within estimated habitat as indicated on the most recent Estimated Habitat Map of State-Listed Rare Wetland Wildlife published by the Natural Heritage and Endangered Species Program?

Yes If yes, include proof of mailing or hand delivery of Abbreviated Notice of Intent to :

Natural Heritage and Endangered Species Program
Division of Fisheries and Wildlife
1 Rabbit Hill Road
Westborough, MA 01581-3336

No

August 2017

Date of Map

b. Is any portion of the proposed project in an Area of Critical Environmental Concern (ACEC)?

Yes If yes, provide name of ACEC (see the Area of Critical Concern list for ACEC locations):

No ACEC Name _____

Massachusetts Department of Environmental Protection
Bureau of Resource Protection - Wetlands

DEP File Number:

WPA Form 4 – Abbreviated Notice of Intent

Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

Provided by DEP

Cambridge

Town

B. Site and Activities Subject to Regulation (cont.)

c. Is any portion of the site subject to a Wetlands Restriction Order under the Inland Wetlands Restriction Act (M.G.L. c. 131, § 40A) or the Coastal Wetlands Restriction Act (M.G.L. c. 130, § 105)?

Yes

No

6. If any activity within Land Subject to Flooding, the Riverfront Area, or Buffer Zone is exempt from performance standards in accordance with any provision of the wetlands regulations, 310 CMR 10.00, identify the appropriate exemption:

Plantings of native species in RA and Buffer- 310 CMR 10.02(2)(b)(2)(d)
Exemption

C. Additional Information

Applicants must include the following with this Abbreviated Notice of Intent (ANOI):

- USGS or other map of the area (along with a narrative description, if necessary), containing sufficient information for the Conservation Commission and the Department to locate the site.
- Plans identifying the location of proposed activities relative to the boundaries of each affected resource area.
- Other material identifying and explaining the determination of resource area boundaries shown on plans (e.g., a DEP BVW Field Data Form).
- List the titles and final revision dates for all plans and other materials submitted with this ANOI.

D. Fees

The fees for work proposed under each Abbreviated Notice of Intent must be calculated and submitted to the Conservation Commission and DEP (see Instructions and NOI Wetland Fee Transmittal Form).

No filing fee shall be assessed for projects of any city, town, county, or district of the Commonwealth, federally recognized Indian tribe housing authority, municipal housing authority, or the Massachusetts Bay Transportation Authority.

Applicants must submit the following information (in addition to pages 1 and 2 of the NOI Wetland Fee Transmittal Form) to confirm fee payment:

Check Number

Green Cambridge

Payor name on check

Check date

Green Cambridge

Applicant name on check

Massachusetts Department of Environmental Protection
Bureau of Resource Protection - Wetlands

DEP File Number:

Provided by DEP

Cambridge

Town

E. Signatures and Submittal Requirements

I hereby certify under the penalties of perjury that the foregoing Abbreviated Notice of Intent and accompanying plans, documents, and supporting data are true and complete to the best of my knowledge. I understand that the Conservation Commission will place notification of this Notice in a local newspaper at the expense of the applicant in accordance with the wetlands regulations, 310 CMR 10.05(5)(a).

I further certify under penalties of perjury that all abutters were notified of this application, pursuant to the requirements of M.G.L. c. 131, § 40. Notice must be made in writing by hand delivery or certified mail (return receipt requested) to all abutters within 100 feet of the property line of the project location.

Signature of Applicant

May 6 2021

Date

Signature of Property Owner (if different)

Date

Signature of Representative (if any)

Date

For Conservation Commission:

Two copies of the completed Abbreviated Notice of Intent (Form 4), including supporting plans and documents; two copies of pages 1 and 2 of the NOI Wetland Fee Transmittal Form; and the city/town fee payment must be sent to the Conservation Commission by certified mail or hand delivery.

For DEP:

Two copies of the completed Abbreviated Notice of Intent (Form 4), including supporting plans and documents; two copies of pages 1 and 2 of the NOI Wetland Fee Transmittal Form; and a **copy** of the state fee payment must be sent to the DEP Regional Office by certified mail or hand delivery.

Other:

If the applicant has checked the “yes” box in any part of Section B, Item 5, above, refer to that section and the Instructions for additional submittal requirements.

The original and copies must be sent simultaneously. Failure by the applicant to send copies in a timely manner may result in dismissal of the Abbreviated Notice of Intent.

Massachusetts Department of Environmental Protection
 Bureau of Resource Protection - Wetlands

 a. Street Address b. City/Town

To calculate filing fees, refer to the category fee list and examples in the instructions for WPA Form 4 (Abbreviated Notice of Intent).

B. Fees

Notice of Intent (Form 3) or Abbreviated Notice of Intent (Form 4):

The fee should be calculated using the following six-step process and worksheet. **Please see Instructions before filling out worksheet.**

Step 1/Type of Activity: Describe each type of activity that will occur in wetland resource area and buffer zone.

Step 2/Number of Activities: Identify the number of each type of activity.

Step 3/Individual Activity Fee: Identify each activity fee from the six project categories listed in the instructions.

Step 4/Subtotal Activity Fee: Multiply the number of activities (identified in Step 2) times the fee per category (identified in Step 3) to reach a subtotal fee amount. Note: If any of these activities are in a Riverfront Area in addition to another Resource Area or the Buffer Zone, the fee per activity should be multiplied by 1.5 and then added to the subtotal amount.

Step 5/Total Project Fee: Determine the total project fee by adding the subtotal amounts from Step 4.

Step 6/Fee Payments: To calculate the state share of the fee, divide the total fee in half and subtract \$12.50. To calculate the city/town share of the fee, divide the total fee in half and add \$12.50.

Massachusetts Department of Environmental Protection
 Bureau of Resource Protection - Wetlands
NOI Wetland Fee Transmittal Form
 Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

B. Fees (continued)

Step 1/Type of Activity	Step 2/Number of Activities	Step 3/Individual Activity Fee	Step 4/Subtotal Activity Fee
Control Vegetation	1.5	\$165	\$155
Step 5/Total Project Fee:			\$165
Step 6/Fee Payments:			
Total Project Fee:			\$165
			a. Total fee from Step 5
State share of filing fee:			\$70
			b. 1/2 total fee less \$12.50
City/Town share of filing fee:			\$95
			c. 1/2 total fee plus \$12.50

C. Submittal Requirements

- a.) Complete pages 1 and 2 and send with a check or money order for the state share of the fee, payable to the Commonwealth of Massachusetts.

Department of Environmental Protection
 Box 4062
 Boston, MA 02211
- b.) **To the Conservation Commission:** Send the Notice of Intent or Abbreviated Notice of Intent; a **copy** of pages 1 and 2 of this form; and the city/town fee payment.
- c.) **To DEP Regional Office** (see Instructions): Send the Notice of Intent or Abbreviated Notice of Intent; a **copy** of pages 1 and 2 of this form; and a **copy** of the state fee payment. (E-filers of Notices of Intent may submit these electronically.)

Massachusetts Department of Environmental Protection
 Bureau of Resource Protection - Wetlands
Stormwater Management Form
 Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

A. Property Information

Important:
 When filling out forms on the computer, use only the tab key to move your cursor - do not use the return key.

Note:
 This November 2000 version of the Stormwater Management Form supersedes earlier versions including those contained in DEP's Stormwater Handbooks.

1. The proposed project is:
 - a. New development Yes No
 - b. Redevelopment Yes No
 - c. Combination Yes No (If yes, distinguish redevelopment components from new development components on plans).

2. Stormwater runoff to be treated for water quality is based on the following calculations:
 - a. 1 inch of runoff x total impervious area of post-development site for discharge to **critical areas** (Outstanding Resource Waters, recharge areas of public water supplies, shellfish growing areas, swimming beaches, cold water fisheries).
 - b. 0.5 inches of runoff x total impervious area of post-development site for other resource areas.

B. Stormwater Management Standards

DEP's Stormwater Management Policy (March 1997) includes nine standards that are listed on the following pages. Check the appropriate boxes for each standard and provide documentation and additional information when applicable.

Standard #1: Untreated stormwater

- a. The project is designed so that new stormwater point discharges do not discharge untreated stormwater into, or cause erosion to, wetlands and waters.

Standard #2: Post-development peak discharge rates

- a. Not applicable – project site contains waters subject to tidal action.

Post-development peak discharge does not exceed pre-development rates on the site at the point of discharge or downgradient property boundary for the 2-yr, 10-yr, and 100-yr, 24-hr storm.

- b. Without stormwater controls
- c. With stormwater controls designed for the 2-yr, and 10-yr storm, 24-hr storm.
- d. The project as designed will not increase off-site flooding impacts from the 100-yr, 24-hr storm.

B. Stormwater Management Standards (cont.)

Standard #3: Recharge to groundwater

Amount of impervious area (sq. ft.) to be infiltrated: _____
 a. square feet

Volume to be recharged is based on:

b. The following Natural Resources Conservation Service hydrologic soils groups (e.g. A, B, C, D, or UA) or any combination of groups:

_____	_____	_____	_____
1. % of impervious area	2. Hydrologic soil group	3. % of impervious area	4. Hydrologic soil group
_____	_____	_____	_____
5. % of impervious area	6. Hydrologic soil group	7. % of impervious area	8. Hydrologic soil group

c. Site specific pre-development conditions: _____
 1. Recharge rate _____ 2. Volume _____

d. Describe how the calculations were determined:

e. List each BMP or nonstructural measure used to meet Standard #3 (e.g. dry well, infiltration trench).

Does the annual groundwater recharge for the post-development site approximate the annual recharge from existing site conditions?

f. Yes No

Standard #4: 80% TSS Removal

a. The proposed stormwater management system will remove 80% of the post-development site's average annual Total Suspended Solids (TSS) load.

b. Identify the BMP's proposed for the project and describe how the 80% TSS removal will be achieved.

Massachusetts Department of Environmental Protection
 Bureau of Resource Protection - Wetlands
Stormwater Management Form
 Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

B. Stormwater Management Standards (cont.)

c. If the project is redevelopment, explain how much TSS will be removed and briefly explain why 80% removal cannot be achieved.

Standard #5: Higher potential pollutant loads

Does the project site contain land uses with higher potential pollutant loads

a. Yes No

b. If yes, describe land uses:

Paved and permeable multiuse paths/surfaces and stormwater wetland.

c. Identify the BMPs selected to treat stormwater runoff. If infiltration measures are proposed, describe the pretreatment. (Note: If the area of higher potential pollutant loading is upgradient of a critical area, infiltration is not allowed.)

Standard #6: Protection of critical areas

Will the project discharge to or affect a critical area?

a. Yes No

b. If yes, describe areas:

c. Identify the BMPs selected for stormwater discharges in these areas and describe how BMPs meet restrictions listed on pages I-27 and I-28 of the Stormwater Policy Handbook – Vol. I:

See Stormwater Policy Handbook Vol. I, page I-23, for land uses of high pollutant loading (see Instructions).

See Stormwater Policy Handbook Vol. I, page I-25, for critical areas (see Instructions).

B. Stormwater Management Standards (cont.)

Note:
 components of
 redevelopment
 projects which
 plan to develop
 previously
 undeveloped
 areas do not fall
 under the scope
 of Standard 7.

Standard #7: Redevelopment projects

Is the proposed activity a redevelopment project?

- a. Yes No b. If yes, the following stormwater management standards have been met:

c. The following stormwater standards have not been met for the following reasons:

d. The proposed project will reduce the annual pollutant load on the site with new or improved stormwater control.

Standard #8: Erosion/sediment control

a. Erosion and sediment controls are incorporated into the project design to prevent erosion, control sediments, and stabilize exposed soils during construction or land disturbance.

Standard #9: Operation/maintenance plan

a. An operation and maintenance plan for the post-development stormwater controls have been developed. The plan includes ownership of the stormwater BMPs, parties responsible for operation and maintenance, schedule for inspection and maintenance, routine and long-term maintenance responsibilities, and provision for appropriate access and maintenance easements extending from a public right-of-way to the stormwater controls.

b. Plan/Title

c. Date

d. Plan/Title

e. Date

C. Submittal Requirements

Online Users:
Include your document transaction number (provided on your receipt page) with all supplementary information you submit to the Department.

DEP recommends that applicants submit this form, as well as, supporting documentation and plans, with the Notice of Intent to provide stormwater management information for Commission review consistent with the wetland regulations (310 CMR 10.05 (6)(b)) and DEP's Stormwater Management Policy (March 1997). If a particular stormwater management standard cannot be met, information should be provided to demonstrate how equivalent water quality and water quantity protection will be provided. DEP encourages engineers to use this form to certify that the project meets the stormwater management standards as well as acceptable engineering standards. For more information, consult the Stormwater Management Policy.
