## Creating Opportunities for Career Success

Just-A-Start's (JAS) Biomedical Careers Program is a free educational and job skills training program that prepares individuals for entry-level jobs in biotechnology and the life sciences. The program is ideal for people who are looking for a new career or are entering the job market for the first time.

Since 1992, over 500 people have graduated from the program. Graduates are employed at biotechnology companies, hospitals, universities, and clinical laboratories. These entry-level positions come with good salaries and excellent potential for growth.

## What kinds of jobs do program graduates secure?

- Laboratory Technicians/Assistants
- Manufacturing Technicians
- Research Assistants
- Clinical Lab Assistants
- Animal Care Technicians
- Quality Control Technicians

## In addition to coursework, the program includes:

- Tutoring
- Academic and career coaching
- Field trips to local companies
- Guest lectures from industry professionals
- Interview practice and participation in a job fair
- Job placement assistance for one year after graduation
