***Updated Construction Notice:** *Roadway Milling and Paving on Hampshire Street*

Dear Neighbor:

The City's contractor, EJ Paving, **will be milling (grinding) and paving Hampshire Street from Prospect Street to Broadway beginning Tuesday, August 1st.**

Parking will be restricted along the corridor for the duration of this work. Please be mindful of posted signage. This work is **weather permitting**. Wet weather on scheduled paving days will delay paving. Tentative Schedule is as follows:

Tuesday, August 1st through Friday, August 4th

Milling Hampshire Street between Broadway and Prospect Street

Saturday, August 5th and Monday, August 7th (rain date Tuesday, August 8th)

Paving Hampshire Street between Broadway and Prospect Street

During work hours **one lane traffic will be maintained heading from Prospect Street eastbound** towards Kendall Square. At the end of each day, the roadway will return to the normal traffic pattern.

We encourage vehicular and bicycle travelers to avoid this area if at all possible, particularly on August 5th and 7th.

During a portion of paving operations **secondary Streets will be closed at Hampshire Street** preventing access to Hampshire Street. These streets may be restricted to abutters only and require 'wrong way' travel at times. Residents of these streets should plan vehicle trips accordingly and allow extra time for travel. Please pay careful attention to signs and detail officer directives.

An application for a Special Noise Variance was submitted to the Cambridge Board of License Commissioners. Public Comment for consideration by the Board can be sent to noise@cambridgema.gov.

What to Expect during Paving

- Work will occur between 7 AM and 6 PM.
- Vehicle access in and out of properties will be **restricted**. Please plan vehicle and parking trips accordingly.
- "No Parking" signs will be posted; please be sure to check dates/times.
- Access will be maintained for emergency vehicles and City services.

Information & Assistance:
