

Separated Bike Lanes & Other Safety Improvements On Broadway

Quincy St to Portland St

Street Layout Changes

The City of Cambridge will add separated bike lanes and make related safety improvements on Broadway. We will:

Install separated bike lanes:

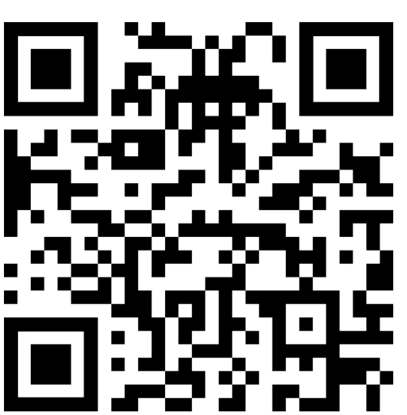

This refers to bike lanes along the curb, separated from vehicles by white flex-posts or other physical barriers.

Consider improvements for those walking and taking the bus:

Bus stop locations could be changing and enhancements can be made for pedestrian safety at existing crosswalks.

Reduce parking:

This project will reduce on-street parking. We haven't finished design yet, but we hope to maintain about 40% of the current spaces.
