Project Starting in Your Neighborhood!

Central Square Safety Improvement Project

Massachusetts Avenue: Inman Street to Lafayette Square

You can help us improve how people travel through this part of Central Square.
Turn over this postcard for more info about the project and upcoming community events!

Central Square Safety Improvement Project

What To Expect

- **Installation of Separated Bike Lanes:** Bike lanes will be installed along the curb, separating bikers from vehicles with physical barriers.
- **Traffic Safety Improvements:** New pavement markings, traffic signs, and flex posts will help create a safer and more comfortable street for everyone.
- **Reduced Parking:** The project will reduce the amount of on-street parking. The design is still being finalized, but we expect to keep about 75% of current curbside space for loading and parking.
