The Hive Policy

Purpose

A doorway to opportunity and learning, the Cambridge Public Library devotes significant resources including physical space, professional expertise, and networking and learning opportunities to engage patrons of all ages in acquiring and expanding STEM literacy skills.

The Hive is a large, open space for collaboration and learning, multimedia work, tinkering and training. The Hive includes a makerspace, two recording studios and an extended reality studio. It is free to use with your library card!

Good public service requires that The Hive environment be conducive to STEAM learning and exploration. This necessitates the willingness of all patrons of The Hive to be considerate of the rights of others to work safely and undisturbed. To ensure that such an environment exists, the Library has established policies and guidelines for the use of The Hive facilities.

Statement of Policy

1. All patrons are required to comply with staff directives (whether documented policy or not) and posted guidelines for the use of tools, equipment and space. Failure to promptly comply with staff directives may result in the suspension of library privileges.

3. Patrons are responsible for checking in at the service desk upon entering The Hive.
