

COUNT OF SLAB-COLUMN CONNECTIONS BY DCR

RIVERVIEW CONDOMINIUMS –
SUPPLEMENT TO 27 JUNE 2025 SGH LETTER

1 July 2025

FIG. 1 – Count of slab-column connections by DCR range for full code-required gravity loading (envelope), showing categorizations (meets code, strengthening required, potentially dangerous) in accordance with IEBC and ACI 562.

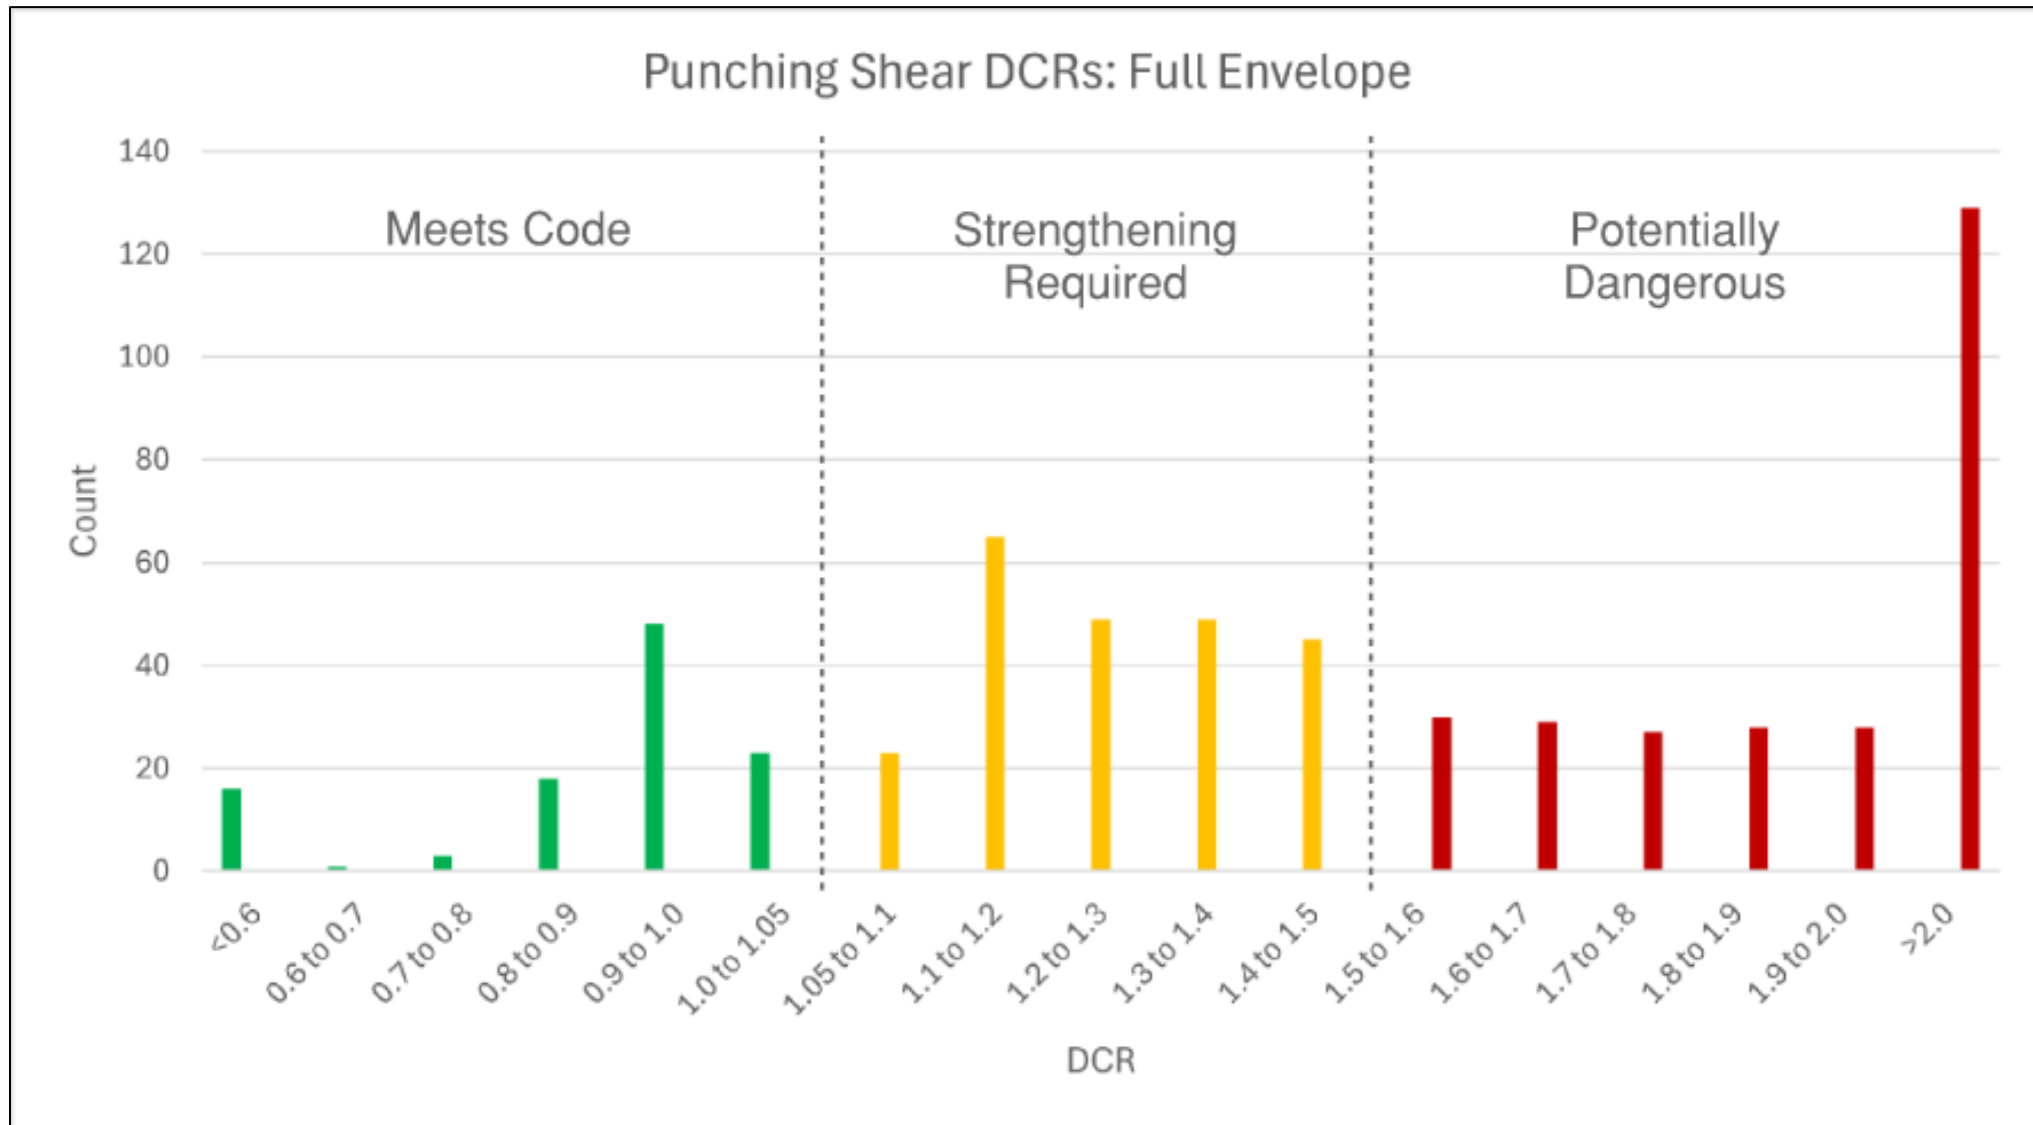

FIG. 2 – Count of slab-column connections by DCR range under dead-load only (structure self-weight), showing categorizations (meets code, strengthening required, potentially dangerous) for the unloaded structure.
