## **BZA Application Form**

### **SUPPORTING STATEMENT FOR A SPECIAL PERMIT**

**Please describe in complete detail how you meet each of the following criteria referring to the property and proposed changes or uses which are requested in your application. Attach sheets with additional information for special permits which have additional criteria, e.g.; fast food permits, comprehensive permits, etc., which must be met.**

**Granting the Special Permit requested for 136-138 Rindge Avenue , Cambridge, MA (location) would not be a detriment to the public interest because:**

**A)** Requirements of the Ordinance can or will be met for the following reasons:

The proposed work will cause no detriment to the direct abutters or to the neighborhood in general. There will be no loss of privacy, no creation of any substantial shadows on the abutting lots. The scale and character of the houses and neighborhood will remain unchanged. There will be no additional dwelling units and no new non-conforming lot conditions. The existing non-conforming lot conditions will not be increased.

**B)** Traffic generated or patterns of access or egress would not cause congestion hazard, or substantial change in established neighborhood character for the following reasons:

The existing 2 family house (136-138) will remain a 2 family house.  
The existing 1 family house (140) will remain a 1 family house.

The (2) existing parking spaces will remain and (2) will be added.

The new mansard roof (136-138) and new dormers and left side addition (140) are consistent with other similar houses on the street.

The existing exteriors of the houses are in bad shape and an eyesore which will be tastefully renovated to be consistent with the traditional character of the neighborhood.

The existing driveway, walkways and yard spaces will receive the cosmetic upgrades they badly need with new pervious pavers and landscaping.

In sum, there will be no change to existing traffic patterns, no increase in congestion, no loss of off street parking, no added density, and no change to the established character of the neighborhood.

**C)** The continued operation of or the development of adjacent uses as permitted in the Zoning Ordinance would not be adversely affected by the nature of the proposed use for the following reasons:

The proposed renovations and additions will have no impact on the adjacent property uses and are consistent with the current 1 and 2-family residential use of the property.

**D)** Nuisance or hazard would not be created to the detriment of the health, safety, and/or welfare of the occupant of the proposed use or the citizens of the City for the following reasons:

The proposed renovations and additions will create no new air or light pollution, the existing 1 and 2-family residential use will remain. There will be no loss of privacy.

E) For other reasons, the proposed use would not impair the integrity of the district or adjoining district or otherwise derogate from the intent or purpose of this ordinance for the following reasons:

The proposed project is consistent and in harmony with the uses and character of the neighborhood, and upholds the intents of the zoning ordinance as there will be no creation of any detriment whatsoever.

**\*If you have any questions as to whether you can establish all of the applicable legal requirements, you should consult with an attorney.**
