BZA APPLICATION FORM

SUPPORTING STATEMENT FOR A VARIANCE

EACH OF THE FOLLOWING REQUIREMENTS FOR A VARIANCE MUST BE ESTABLISHED AND SET FORTH IN COMPLETE DETAIL BY THE APPLICANT IN ACCORDANCE WITH MGL 40A, SECTION 10:

- A)** A Literal enforcement of the provisions of this Ordinance would involve a substantial hardship, financial or otherwise, to the petitioner or appellant for the following reasons:

The proposed modification to our previously-approved rebuild variance (case # 017193-2019) would shrink the structure's size in the Southeast corner, creating enough space for a conforming size (8.5'x20') parking space in the side yard. This would allow the property to maintain historical parking availability and usage, but in a way that is less nonconforming, as the parking would no longer be in the front yard.

The approved rebuild variance was due to structural and safety concerns raised by our architect and structural engineer that precluded keeping the existing structure without extreme additions to cost and risk. Thus a denial would result in us being forced to choose between foregoing necessary improvements to the structure and losing our existing nonconforming parking space.

- B)** The hardship is owing to the following circumstances relating to the soil conditions, shape or topography of such land or structures and especially affecting such land or structures but not affecting generally the zoning district in which it is located for the following reasons:

The lot is narrow. Building a structure within the setbacks would leave an un-usable width for a dwelling unit. The proposed modification would reduce nonconformity and improve the structure.

- C) DESIRABLE RELIEF MAY BE GRANTED WITHOUT EITHER:**

- 1)** Substantial detriment to the public good for the following reasons:

The proposed design improve the structure and reduce its current nonconformity. As the property currently has nonconforming parking, there would be no detriment by continuing that usage.

- 2)** Relief may be granted without nullifying or substantially derogating from the intent or purpose of this Ordinance for the following reasons:

Proposal upholds the purpose of the zoning ordinance as laid out in Article 1, Section 4.

*** If You have any questions as to whether you can establish all of the applicable legal requirements, you should consult with your own attorney.**

BZA APPLICATION FORM

SUPPORTING STATEMENT FOR A SPECIAL PERMIT

Please describe in complete detail how you meet each of the following criteria referring to the property and proposed changes or uses which are requested in your application. Attach sheets with additional information for special permits which have additional criteria, e.g.; fast food permits, comprehensive permits, etc., which must be met.

Granting the Special Permit requested for 315 Columbia St Cambridge, MA (location) would not be a detriment to the public interest because:

A) Requirements of the Ordinance can or will be met for the following reasons:

N/A

B) Traffic generated or patterns of access or egress would not cause congestion hazard, or substantial change in established neighborhood character for the following reasons:

No traffic would be generated by this proposal, which maintains the property's historical parking availability and usage and does so in a way that substantially reduces its nonconformity. Whereas the parking space is now nonconforming for front yard, dimensional, and setback reasons, the proposed space would be nonconforming for only the setback reason.

C) The continued operation of or the development of adjacent uses as permitted in the Zoning Ordinance would not be adversely affected by the nature of the proposed use for the following reasons:

N/A

D) Nuisance or hazard would not be created to the detriment of the health, safety and/or welfare of the occupant of the proposed use or the citizens of the City for the following reasons:

No nuisance or hazard would be generated by this proposal, which maintains the property's historical parking availability and usage and does so in a way that reduces nonconformity substantially.

E) For other reasons, the proposed use would not impair the integrity of the district or adjoining district or otherwise derogate from the intent or purpose of this ordinance for the following reasons:

The proposal would reduce the nonconformity of the existing nonconforming parking at the property, and thus would not impair the integrity of the neighborhood. Moreover, to our knowledge several other properties in the neighborhood have nonconforming parking within side-yard setbacks.

In my professional opinion, I certify to Lindsey Locks and the City of Cambridge that as a result of a survey made on the ground to the normal standard of care of professional land surveyors practicing in Massachusetts, I find that the property falls outside of the special flood hazard area as shown on the F.I.R.M. for Middlesex County, Massachusetts, Map #25017C0576E Dated: June 4, 2010 and that the location of the improvements are as shown hereon.
