BOARD OF ZONING APPEAL

831 Massachusetts Avenue, Cambridge MA 02139

617-349-6100

2021 FEB -1 AM 11:04
OFFICE OF THE CITY CLERK
CAMBRIDGE, MASSACHUSETTS

BZA Application Form

BZA Number: 106662

General Information

The undersigned hereby petitions the Board of Zoning Appeal for the following:

Special Permit: X Variance: Appeal:

PETITIONER: ~~3M Associates LLC~~ Cellco Partnership d/b/a Verizon Wireless

PETITIONER'S ADDRESS: Duval & Klasnick LLC, Boxford, MA 01921
WKC P.O. Box 254 WKC

LOCATION OF PROPERTY: 599 Massachusetts Ave, Cambridge, MA, 605 Massachusetts Ave *2-12 Essex Street WKC*

TYPE OF OCCUPANCY: Mobile Communications Facility **ZONING DISTRICT:** Business B Zone/Central Square Overlay

REASON FOR PETITION:

/Telecommunication Facility (antenna)/

DESCRIPTION OF PETITIONER'S PROPOSAL:

Remove 4 antennas mounted to rooftop equipment shelter at 599 and 605 Mass. Avenue buildings. Install 4 antennas inside of false penthouse enclosure mounted on the rooftop of the 2-12 Essex Street building. Install 2 remote radio heads & surge protector mounted to ballast frame behind of proposed false penthouse.

SECTIONS OF ZONING ORDINANCE CITED:

- Article: 4.000 Section: 4.32.G.1 (Telecommunication Facility).
- Article: 4.000 Section: 4.40 (Footnote 49) (Telecommunications Facility).
- Article: 10.000 Section: 10.40-10.46 (Special Permit).
- Article: 6409(A) Section: Middle Class Tax Relief and Job Creation Act (aka Spectrum Act)

Notary Public
Commonwealth of Massachusetts
My Commission Expires
December 31, 2021

- If ownership is not shown in recorded deed, e.g. if by court order, recent deed, or inheritance, please include documentation.

BZA Application Form

SUPPORTING STATEMENT FOR A SPECIAL PERMIT

Please describe in complete detail how you meet each of the following criteria referring to the property and proposed changes or uses which are requested in your application. Attach sheets with additional information for special permits which have additional criteria, e.g.; fast food permits, comprehensive permits, etc., which must be met.

605 Massachusetts Ave, 2-12 Essex Street

Granting the Special Permit requested for 599 Massachusetts Ave, Cambridge, MA (location) would not be a detriment to the public interest because:

A) Requirements of the Ordinance can or will be met for the following reasons:

As demonstrated by the documents provided with this application and will be further discussed at the hearing on this matter, the modification satisfies the standards for an Eligible Facilities Request pursuant to Section 6409(a) of the Federal Spectrum Act. The proposed modification also satisfies the standards for the grant of a special permit. (For further details, please see attached narrative and supporting documents)

B) Traffic generated or patterns of access or egress would not cause congestion hazard, or substantial change in established neighborhood character for the following reasons:

The modification of the unmanned facility will not change existing traffic demand or impact ingress or egress. The modified facility will continue to generate only about one to two vehicles trips per month in a standard passenger vehicle. (For further details, please see attached narrative and supporting documents)

C) The continued operation of or the development of adjacent uses as permitted in the Zoning Ordinance would not be adversely affected by the nature of the proposed use for the following reasons:

The modified facility will have no adverse effects on the operation or development of adjacent uses. The modified facility will emit no light, odor, dust or glare and generates no unusual noise or other adverse impacts. (For further details, please see attached narrative and supporting documents)

D) Nuisance or hazard would not be created to the detriment of the health, safety, and/or welfare of the occupant of the proposed use or the citizens of the City for the following reasons:

The modified facility will generate no additional traffic or other negative impacts on surrounding properties or within the City of Cambridge. The facility requires no water or sewer services and emits no light, odor, dust or glare and generates no unusual noise or other adverse impacts. The facility will be unoccupied with no employees or customers. The availability of wireless services enhances the health, safety and welfare of the community. (For further details, please see attached narrative and supporting documents)

E) For other reasons, the proposed use would not impair the integrity of the district or adjoining district

or otherwise derogate from the intent or purpose of this ordinance for the following reasons:

The facility has been designed to minimize its visual impact and is in harmony with the general purpose of the zoning ordinance for this use and in accordance with the requirements for an Eligible Facilities Request under Section 6409(a). (Please see attached narrative and supporting documents)

***If you have any questions as to whether you can establish all of the applicable legal requirements, you should consult with an attorney.**

- FRP MEMBERS SHALL BE FABRICATED AND ASSEMBLED AS INDICATED ON THE DRAWINGS.
- THE CONTRACTOR SHALL PROTECT THE FRP STRUCTURAL MEMBERS FROM ABUSE TO PREVENT BREAKAGE, NICKS, GOUGES, ETC. DURING FABRICATION, HANDLING, AND INSTALLATION.
- FRP BOLTS SHOULD BE TIGHTENED 1/2 TURN PAST SNUG AND LOCKED WITH EPOXY.
- FIBERGLASS TO MEET ALL VERIZON WIRELESS STANDARDS FOR RF PROPAGATION. PROVIDE TEST REPORTS TO VERIZON WIRELESS FOR REVIEW & APPROVAL.
- STRUCTURAL FRP SHALL HAVE THE MINIMUM MECHANICAL PROPERTIES:
E=2800KSI
TENSILE STRENGTH(LW): 33KSI
COMPRESSIVE STRENGTH(LW): 33 KSI
FLEXURAL STRENGTH(LW): 33KSI
DENSITY: 104PCF
- FIBERGLASS PANEL DESIGN & CONNECTION DESIGN TO BE BY OTHERS.
- PROVIDE FRP SHOP DRAWINGS TO DEWBERRY ENGINEERS INC. FOR REVIEW & APPROVAL PRIOR TO FRP FABRICATION.

BRACKET NOTES:

- SLOT U-BOLT HOLES TO ALLOW FOR MINOR FIELD ADJUSTMENT.

ANTENNA MOUNTING BRACKET

SCALE: N.T.S.

NOTES:

- INSTALL ALL EQUIPMENT PER MANUFACTURER'S RECOMMENDATIONS.
- ALL EQUIPMENT SHALL BE GROUNDED PER VERIZON WIRELESS STANDARDS AND MANUFACTURER'S RECOMMENDATIONS.
- DETAIL IS SCHEMATIC.
- ALL MOUNTING HARDWARE TO BE GALVANIZED.
- BOND FRAME & ANTENNAS TO THE SECTOR GROUND BAR.
- CLEAN AND INSPECT ROOF PRIOR TO PLACEMENT OF PROPOSED BALLAST FRAME. INSTALL VZW APPROVED ROOFING MATS. FINAL ENCLOSURE SPECIFICATIONS AND ATTACHMENT TO BE MADE BY FIBERGLASS MANUFACTURER.
- ENCLOSURES SHALL MATCH COLORS & TEXTURE OF THE BUILDING FACADE. SUBMIT SAMPLES TO BUILDING OWNER & VERIZON WIRELESS FOR APPROVAL.
- INSTALL SHIMS AS REQUIRED TO LEVEL BALLAST MOUNT ON ROOF.
- BALLAST MOUNT LOCATIONS ON ROOF BASED ON STRUCTURAL ANALYSIS BY DEWBERRY ENGINEERS INC. DATED 11/23/20.

PROJECT SUMMARY

SITE ADDRESS:
599-605 MASSACHUSETTS AVE
2-12 ESSEX ST
CAMBRIDGE, MA 02139

ZONING DISTRICT:
BUSINESS B
CENTRAL SQUARE OVERLAY

PROJECT DIRECTORY

THIS SITE WILL CONSIST OF REPLACING & RELOCATING (4) ALPHA SECTOR PANEL ANTENNAS & ASSOCIATED EQUIPMENT TO A BALLAST FRAME ON ADJACENT BUILDING OWNED BY SAME LANDLORD. PROPOSED ANTENNAS TO BE INSTALLED IN PROPOSED FALSE PENTHOUSE (TO MATCH COLOR & TEXTURE OF BUILDING). EXISTING POWER, TELCO & GROUND CONDUITS TO BE RE-ROUTED IN COORDINATION WITH EXISTING BUILDING.

PROJECT DESCRIPTION

THIS DOCUMENT WAS DEVELOPED TO REFLECT A SPECIFIC SITE AND ITS SITE CONDITIONS AND IS NOT TO BE USED FOR ANOTHER SITE OR WHEN OTHER CONDITIONS PERTAIN. REUSE OF THIS DOCUMENT IS AT THE SOLE RISK OF THE USER.

A.D.A. COMPLIANCE:
FACILITY IS UNMANNED AND NOT FOR HUMAN HABITATION.

FIBERGLASS NOTES:

- FRP (FIBERGLASS REINFORCED POLYMER) STRUCTURAL SHAPES SHALL BE MANUFACTURED USING THE PULTRUSION PROCESS.
- IF PRE-FABRICATED MEMBERS DO NOT ASSEMBLE ACCORDING TO PLAN, CONTACT THE FIBERGLASS MANUFACTURER BEFORE CUTTING OR ALTERING FABRICATED MEMBERS.
- FRP MEMBERS SHALL BE FABRICATED AND ASSEMBLED AS INDICATED ON THE DRAWINGS.
- THE CONTRACTOR SHALL PROTECT THE FRP STRUCTURAL MEMBERS FROM ABUSE TO PREVENT BREAKAGE, NICKS, GOUGES, ETC. DURING FABRICATION, HANDLING, AND INSTALLATION.
- FRP BOLTS SHOULD BE TIGHTENED 1/2 TURN PAST SNUG AND LOCKED WITH EPOXY.
- FIBERGLASS TO MEET ALL VERIZON WIRELESS STANDARDS FOR RF PROPAGATION. PROVIDE TEST REPORTS TO VERIZON WIRELESS FOR REVIEW & APPROVAL.
- STRUCTURAL FRP SHALL HAVE THE MINIMUM MECHANICAL PROPERTIES:
E=2800KSI
TENSILE STRENGTH(LW): 33KSI
COMPRESSIVE STRENGTH(LW): 33 KSI
FLEXURAL STRENGTH(LW): 33KSI
DENSITY: 104PCF
- FIBERGLASS PANEL DESIGN & CONNECTION DESIGN TO BE BY OTHERS.
- PROVIDE FRP SHOP DRAWINGS TO DEWBERRY ENGINEERS INC. FOR REVIEW & APPROVAL PRIOR TO FRP FABRICATION.

BRACKET NOTES:

- SLOT U-BOLT HOLES TO ALLOW FOR MINOR FIELD ADJUSTMENT.

ANTENNA MOUNTING BRACKET 2
SCALE: N.T.S.

= STEEL ANGLE

WINDLOAD DESIGN CRITERIA:

IN ACCORDANCE WITH 780 CMR MASSACHUSETTS AMENDMENTS TO THE INTERNATIONAL BUILDING CODE (IBC):

- ULTIMATE WIND SPEED	128 MPH
- RISK CATEGORY	II
- EXPOSURE CATEGORY	B
- DESIGN WIND LOAD	36.7 PSF

NOTES:

- INSTALL ALL EQUIPMENT PER MANUFACTURER'S RECOMMENDATIONS.
- ALL EQUIPMENT SHALL BE GROUNDED PER VERIZON WIRELESS STANDARDS AND MANUFACTURER'S RECOMMENDATIONS.
- DETAIL IS SCHEMATIC.
- ALL MOUNTING HARDWARE TO BE GALVANIZED.
- BOND FRAME & ANTENNAS TO THE SECTOR GROUND BAR.
- CLEAN AND INSPECT ROOF PRIOR TO PLACEMENT OF PROPOSED BALLAST FRAME. INSTALL VZW APPROVED ROOFING MATS. FINAL ENCLOSURE SPECIFICATIONS AND ATTACHMENT TO BE MADE BY FIBERGLASS MANUFACTURER.
- ENCLOSURES SHALL MATCH COLORS & TEXTURE OF THE BUILDING FACADE. SUBMIT SAMPLES TO BUILDING OWNER & VERIZON WIRELESS FOR APPROVAL.
- INSTALL SHIMS AS REQUIRED TO LEVEL BALLAST MOUNT ON ROOF.
- BALLAST MOUNT LOCATIONS ON ROOF BASED ON STRUCTURAL ANALYSIS BY DEWBERRY ENGINEERS INC. DATED 11/23/20.

**Re: Application for Modification to Special Permit
Building Mounted Mobile Communications Facility
Located at 599 Massachusetts Avenue, 605 Massachusetts Avenue & 2-12 Essex
Street, Cambridge, Massachusetts**

Dear Board Members:

Enclosed please find an Application to the Board of Zoning Appeals for a special permit for the modification of an existing building mounted mobile communications facility submitted on behalf of Cellco Partnership d/b/a Verizon Wireless.

In accordance with the Application requirements, please find enclosed the following:

- Application;
- Support Statements;
- Application fee of \$500.00 payable to the City of Cambridge;
- Assessors GIS Block Map;
- Dimensional Form;
- Ownership Certificate, Notarized;
- Stamped Project Plans; and
- Photo Simulations

The Applicant would be happy to provide any additional information that you may require and would appreciate reasonable notice of any additional information you require in time to provide such information for the public hearing.

Should you require any additional information, please don't hesitate to contact me.
Thank you very much for your cooperation.

Very truly yours,
DUVAL & KLASNICK LLC

BZA APPLICATION FORM

GENERAL INFORMATION

The undersigned hereby petitions the Board of Zoning Appeal for the following:

Special Permit: X Variance: _____ Appeal: _____

PETITIONER: Cellco Partnership d/b/a Verizon Wireless

PETITIONER'S ADDRESS: c/o Duval & Klasnick LLC , P.O. Box 254, Boxford, MA 01921

LOCATION OF PROPERTY: 599 and 605 Massachusetts Avenue, 2-12 Essex Street

TYPE OF OCCUPANCY: Mobile Communications Facility ZONING DISTRICT: Business B, Central SQ Overlay

REASON FOR PETITION:

- | | |
|---|---------------------|
| _____ Additions | _____ New Structure |
| _____ Change in Use/Occupancy | _____ Parking |
| _____ Conversion to Addi'l Dwelling Unit's | _____ Sign |
| _____ Dormer | _____ Subdivision |
| <u> X </u> Other: <u> Mobile Communications Facility </u> | |

DESCRIPTION OF PETITIONER'S PROPOSAL:

- Remove 4 antennas mounted to rooftop equipment shelter at 599 and 605 Mass. Avenue buildings.
- Install 4 antennas inside a false penthouse enclosure mounted on the rooftop of the 2-12 Essex Street building.
- Install 2 remote radio heads & surge protector mounted to ballast frame behind of proposed false penthouse.

SECTIONS OF ZONING ORDINANCE CITED:

- Article 4.000 Section 4.32.G.1 & 4.40 (Footnote 49 - Telecommunications Facility)
- Article 10.00 Section 10.40 - 10.46 (Special Permit)
- Article 6409(a) Section Middle Class Tax Relief and Job Creation Act (aka Spectrum Act)

Applicants for a **Variance** must complete Pages 1-5
Applicants for a **Special Permit** must complete Pages 1-4 and 6
Applicants for an **Appeal** to the BZA of a Zoning determination by the Inspectional Services Department must attach a statement concerning the reasons for the appeal

BZA APPLICATION FORM

SUPPORTING STATEMENT FOR A SPECIAL PERMIT

Please describe in complete detail how you meet each of the following criteria referring to the property and proposed changes or uses which are requested in your application. Attach sheets with additional information for special permits which have additional criteria, e.g.; fast food permits, comprehensive permits, etc., which must be met.

Granting the Special Permit requested for 599 & 605 Mass Ave. & 2-12 Essex Street (location) would not be a detriment to the public interest because:

- A) Requirements of the Ordinance can or will be met for the following reasons:

As demonstrated by the documents provided with this application and will be further discussed at the hearing on this matter, the modification satisfies the standards for an Eligible Facilities Request pursuant to Section 6409(a) of the Federal Spectrum Act. The proposed modification also satisfies the standards for the grant of a special permit. *(For further details, please see attached narrative and supporting documents)*

- B) Traffic generated or patterns of access or egress would not cause congestion hazard, or substantial change in established neighborhood character for the following reasons:

The modification of the unmanned facility will not change existing traffic demand or impact ingress or egress. The modified facility will continue to generate only about one to two vehicles trips per month in a standard passenger vehicle. *(For further details, please see attached narrative and supporting documents)*

- C) The continued operation of or the development of adjacent uses as permitted in the Zoning Ordinance would not be adversely affected by the nature of the proposed use for the following reasons:

The modified facility will have no adverse effects on the operation or development of adjacent uses. The modified facility will emit no light, odor, dust or glare and generates no unusual noise or other adverse impacts. *(For further details, please see attached narrative and supporting documents)*

- D) Nuisance or hazard would not be created to the detriment of the health, safety and/or welfare of the occupant of the proposed use or the citizens of the City for the following reasons:

The modified facility will generate no additional traffic or other negative impacts on surrounding properties or within the City of Cambridge. The facility requires no water or sewer services and emits no light, odor, dust or glare and generates no unusual noise or other adverse impacts. The facility will be unoccupied with no employees or customers. The availability of wireless services enhances the health, safety and welfare of the community. *(For further details, please see attached narrative and supporting documents)*

- E) For other reasons, the proposed use would not impair the integrity of the district or adjoining district or otherwise derogate from the intent or purpose of this ordinance for the following reasons:

The facility has been designed to minimize its visual impact and is in harmony with the general purpose of the zoning ordinance for this use and in accordance with the requirements for an Eligible Facilities Request under Section 6409(a). *(Please see attached narrative and supporting documents)*

BZA APPLICATION FORM

CITY OF CAMBRIDGE

NARRATIVE IN SUPPORT OF APPLICATION FOR SPECIAL PERMIT

APPLICANT: Cellco Partnership d/b/a Verizon Wireless

SITE ADDRESS: 599 and 605 Massachusetts Avenue, 2-12 Essex Street
Cambridge, Massachusetts

ZONING DISTRICT: Business B and Central Square Overlay District

BACKGROUND

This Narrative in Support of an Application for Special Permit, *while reserving all rights*, to modify an existing building mounted mobile communications facility (“Facility”) is respectfully submitted by Cellco Partnership d/b/a Verizon Wireless (“Verizon Wireless”) to the City of Cambridge, Board of Zoning Appeal (“Board”). To the extent required, Verizon Wireless seeks approval to further modify its existing Facility approved by special permit #9100 and BZA-017208-2019 on the existing building at 599 Massachusetts Avenue, 605 Massachusetts and 2-12 Essex Street (the “Property”).

This application is submitted with full reservation of Verizon Wireless’ rights including without limitation Section 6409(a) of the federal Middle Class Tax Relief and Job Creation Act of 2012 also referred to as the “Spectrum Act.” The Spectrum Act was passed to “advance wireless broadband service” for both public safety and commercial purposes. The modification to the existing Facility satisfies the standards for the modification of an eligible facility under the Spectrum Act.

APPLICANT’S INTEREST IN THE PROPERTY

3MJ Associates, LLC (“Owner”) and Cellco Partnership d/b/a Verizon Wireless entered into a certain Lease Agreement by which Owner leased to Verizon Wireless building space and access/utility easement rights on a portion of the Owner’s property located at 599 Massachusetts Avenue, 605 Massachusetts Avenue and 2-12 Essex Street being shown on Tax Map of the City of Cambridge at Map 90, Lot 52, Map 90, Lot 70, and Map 90, Lot 194, respectively for the location of Verizon Wireless’ antennas and space for its equipment.

See Exhibit 1, ZBA Application Form - Ownership Information.

PROJECT DESCRIPTION

As noted on the attached plans and described in this application, the buildings owned by 3MJ Associates LLC is a group of buildings used for office and residential purposes (the “Buildings”). Verizon Wireless has installed and operates an existing Facility consisting of 3 sectors of 4 antennas each (12 in total) and rooftop equipment shelter located on the Buildings. The existing antennas are installed on the façade and rooftop of the Buildings.

Facility Modification Details

Verizon Wireless is proposing to relocate the Alpha Sector antennas, which currently are mounted on the exterior of the existing rooftop equipment shelter, due to the recent construction of the six-story building at 2-12 Essex Street, which effectively blocks the signals generated by the Alpha sector antennas. In order to address this situation, Verizon Wireless proposed to relocate the Alpha sector equipment to screened ballast mounted antennas on the rooftop of the Essex Street building. As shown on the Plans and Photo Simulations, Verizon Wireless proposes to ballast mount the relocated antennas, together with associated RRHs and junction boxes, that will be located inside a screened enclosure. The equipment would be concealed from view by a fiberglass enclosure that is colored to match the existing building.

Relocated Alpha Sector Screened Ballast Mounted Equipment

Remove 4 antennas mounted to the rooftop equipment shelter. Install 4 antennas inside a fiberglass false penthouse enclosure colored to match the existing building and two RRHs mounted on a rooftop ballast mount on the Essex Street building that will be screened by the penthouse. Total: 4 antennas, 2 remote radio heads and 1 large junction box. – *See Roof Plan Sheet C-1.*

See Exhibit 2, Plans.

See Exhibit 3, Photo Simulations

SATISFACTION OF ELIGIBLE FACILITIES REQUEST STANDARDS

On February 22, 2012, President Obama signed into law H.R. 3630, known as the “Middle Class Tax Relief and Job Creation Act of 2012,” which then became Public Law 112-96 (“P.L. 112-96”).¹ Section 6409(a) of P.L. 112-96 adds new language to the existing body of laws, regulations, and decisions pertaining to wireless facility zoning.²

¹ *Middle Class Tax Relief and Job Creation Act of 2012*, Pub L. No. 112-96, 126 Stat. 156 (2012).

² Section 6409(a) states:

(a) FACILITY MODIFICATIONS.—

(1) IN GENERAL.—Notwithstanding section 704 of the Telecommunications Act of 1996 (Public Law 104–104) or any other provision of law, a State or local government may not deny, and shall approve, any eligible facilities request for a modification of an existing wireless tower or base station that does not substantially change the physical dimensions of such tower or base station.

Verizon Wireless respectfully submits the proposed modifications satisfy the standards for an eligible facility request pursuant to 47 U.S.C. §1455 and 47 C.F.R. §1.6100. In an effort to advance Congress' goal of facilitating the rapid deployment of qualified modifications, the Federal Communications Commission adopted rules in 2014 that clarified many of the terms of Section 6409(a).³ The Commission stated that the purpose of implementing the rules “will serve the public interest by providing guidance to all stakeholders on their rights and responsibilities under the provision, reducing the delays in the review process for wireless infrastructure modifications, and facilitating the rapid deployment of wireless infrastructure, thereby promoting the advanced wireless broadband services.”⁴

47 U.S. Code §1455(a) and 47 C.F.R. §1.6100(b) builds on the existing legal framework for wireless facilities by requiring permitting authorities to approve an eligible facilities request in an effort to streamline “the process for siting of a wireless facility by preempting the ability of State and local authorities to delay collocation of, removal of, and replacement of wireless transmission equipment.”⁵ “Collocation” is defined as “the mounting or installation of transmission equipment on an eligible support structure for the purpose of transmitting and/or receiving radio frequency signals for communications purposes.” The term “eligible support structure” means any structure that is a “tower” or “base station.” A “base station” is defined as a structure or equipment that enables Commission-licensed or authorized wireless communications and includes any structure other than a tower that supports or houses permitted equipment used for wireless communications services.⁶ The term “eligible facilities request” includes any request for modification of an existing wireless tower or base station that involves— (i) collocation of new transmission equipment; (ii) removal of transmission equipment; or (iii) replacement of transmission equipment.⁷

The Property constitutes a “base station” and an “eligible support structure” in that it currently exists and “supports and houses” wireless communication equipment that has been reviewed and approved under the City’s zoning ordinance. The proposed replacement of the Verizon Wireless antennas and remote heads on the Property for the purpose of transmitting and receiving radio frequency signals for communication purposes constitutes

(2) ELIGIBLE FACILITIES REQUEST.—For purposes of this subsection, the term “eligible facilities request” means any request for modification of an existing wireless tower or base station that involves—

- (A) collocation of new transmission equipment;
- (B) removal of transmission equipment; or
- (C) replacement of transmission equipment.

(3) APPLICABILITY OF ENVIRONMENTAL LAWS.—Nothing in paragraph (1) shall be construed to relieve the Commission from the requirements of the National Historic Preservation Act or the National Environmental Policy Act of 1969.

³ See Accelerating of Broadband Deployment by Improving Wireless Facilities Siting Policies, Report and Order, 29 FCC Rcd 12865 (2014) (“2014 Order”).

⁴ Id. At 12872.

⁵ 158 Cong. Rec. E237 (daily ed. Feb. 24, 2012) (statement of Rep. Upton).

⁶ 47 C.F.R. §1.6100(b)(1)

⁷ 47 U.S.C. § 1455(a)(2) and §1.6100(b)(3)

a “replacement of transmission equipment” and the proposed addition of antennas is the “collocation of new transmission equipment.”

Federal authorities clearly provide that an eligible facilities request must be approved if the installation does not result in a substantial change.⁸ The proposed modifications to the existing Verizon Wireless facility is an “eligible facilities request.” Through its statutory mandate and given the lack of statutory definitions, the Federal Communications Commission has defined a substantial change under Section 6409(a) as follows:

(i) For other eligible support structures (i.e., the “Building”), it increases the height of the structure by more than 10% or more than ten feet, whichever is greater - **The proposed screened ballast mounted antennas and remote radio heads will not exceed 80’ above ground level and will not extend higher than the existing building penthouse height of 85’.**

(ii) For other eligible support structures (i.e., the “Building”), it involves adding an appurtenance to the body of the structure that would protrude from the edge of the structure by more than six feet – **The proposed antennas will not protrude more than six feet from the ballasts.**

(iii) For any eligible support structure (i.e., the “Building”), it involves installation of more than the standard number of new equipment cabinets for the technology involved, but not to exceed four cabinets; or, it involves installation of any new equipment cabinets on the ground if there are no pre-existing ground cabinets associated with the structure – **The proposed modification does not involve the installation of new cabinets. All radio equipment will remain at the current location.**

(iv) It does not entail any excavation or deployment outside the current site – **The modification does not involve any excavation or deployment outside the current site.**

(v) It would not defeat the concealment elements of the eligible support structure – **Verizon Wireless’ modifications do not defeat any concealment elements the relocated ballast antennas will be screened from view.**

(vi) It complies with conditions associated with the siting approval – **The installation will remain compliant.**

It is clear that state and local authorities have no power to deny a complying installation, and any attempt to do so would be in direct conflict with federal law. Having satisfied the standards for the modification of an eligible support structure that will not result in a substantial change, the Board may not deny the Section 6409(a) Modification. Consistent with that determination, the permitting is limited to non-discretionary permitting related to applicable building, structural and electrical codes. Additionally, when an applicant asserts in writing that a request for a modification is covered by this section, a State or local government may only require the applicant to provide documentation or information to the extent reasonably necessary to determining whether

⁸ See 47 U.S.C. §1455(a) and 47 C.F.R. §1.6100(b)

the request meets the requirements for an eligible facilities request. Further, the Federal Communications Commission also adopted rules that require local review subject to Section 6409(a) be completed within sixty (60) days. A Section 6409(a) request will be “deemed granted” if not approved within the sixty (60) day period.

SATISFACTION OF SPECIAL PERMIT REVIEW STANDARDS

Based on the description set forth herein, and as will be further demonstrated at the Public Hearing on this matter, the proposed modification of the Facility meets the location, height and site requirements of Section 4.32(g)(1), Section 4.40 (footnote 4) and Sections 10.40 – 10.46. Pursuant to Ordinance, the modification of the Facility is allowed upon the grant of a special permit from the Zoning Board of Appeals in the currently designated Industry B zoning district.

While reserving all rights, Verizon Wireless’ modification satisfies the standards set forth in Section 4.40 (footnote 4) and Sections 10.40 – 10.46 of the City of Cambridge, Zoning Ordinance.

1. The scope of or limitations imposed by any license secured from any state or federal agency having jurisdiction over such matters – **Verizon Wireless operates in compliance with all of the rules and regulations promulgated by the Federal Communications Commission as required by its licensing.**

See Exhibit 4, FCC License to Operate.

2. The extent to which the visual impact of the various elements of the proposed facility is minimized: (1) Through the use of existing mechanical elements on a building's roof or other features of the building as support and background, (2) Through the use of materials that in texture and color blend with the materials to which the facilities are attached, or (3) Other effective means to reduce the visual impact of the facility from off the site - **Verizon Wireless proposes to relocate the Alpha sector consisting of four antennas from the current side mount on the rooftop equipment shelter to the proposed screened ballast mount on the rooftop of the adjoining building.**

3. Where it is proposed to erect such a facility in any residential zoning district, the extent to which there is a demonstrated public need for the facility at the proposed locations, the existence of alternative, functionally suitable sites in nonresidential locations, the character of the prevailing uses in the area, and the prevalence of other, existing mechanical systems and equipment carried on or above the roof of nearby structures. The Board of Zoning Appeal shall grant a special permit to erect such a facility in a residential zoning district only upon a finding that nonresidential uses predominate in the vicinity of the proposed facility's location and that the telecommunication facility is not inconsistent with the character that does prevail in the surrounding neighborhood – **The wireless use and modification of the Facility is consistent with the purpose of the Business B District and Central Square Overlay District.**

The proposed modification also satisfies the standards of Section 10.43 of the Ordinance for the grant of special permits. As noted above, the proposed modification will allow Verizon Wireless to improve wireless signal coverage and is an integral part of Verizon Wireless' network design in the City of Cambridge. The modification of the equipment detailed herein will aid in reaching Verizon Wireless' goal to provide enhanced service and communications in the City of Cambridge. The proposed modification will generate no traffic or other negative impacts on surrounding properties or the City of Cambridge. The Facility requires no water or sewer services. The utilities will continue to be obtained from existing service. The Facility will continue to be unoccupied, with no employees or customers. The Facility will continue to be regularly maintained by qualified technicians to assure that the equipment operates at optimal condition so that no threat of explosion, fire or other danger to life or property occurs. Reliable wireless service also enhances community safety, because it is used by public safety officials as well as the public in times of crisis, natural disaster, inclement weather and similar circumstances.

It is a truism to state that it is absolutely essential that there is the necessary infrastructure to ensure access to reliable wireless services. The ability to utilize mobile devices has become so integral that the absence of reliable service certainly has a negative impact. The availability of reliable wireless service also provides greater access to 911 emergency services. Maintaining wireless service provides another tool for ensuring that emergencies can be reported as quickly as possible, which reduces the response times of public safety personnel.

Because the application is for the modification of equipment that provides wireless services, the proposal is subject to §704 of the federal Telecommunications Act of 1996 ("TCA"), codified at 47 U.S.C. §332(c)(7)(B). By way of background, the TCA is a federal law enacted in 1996 whose purpose is "[t]o promote competition and reduce regulation in order to secure lower prices and higher quality services for American telecommunications consumers and encourage the rapid deployment of new telecommunications technologies." To further this purpose, the TCA established national standards that apply to permitting for wireless facilities. These standards preempt inconsistent state and local laws, so they must be considered in making decisions related to wireless facilities.

The proposed modification of the existing Facility satisfies the criteria for granting a special permit, Verizon Wireless respectfully requests that the Board grant a special permit to modify the existing facility to allow for the proposed upgrade of this existing mobile communications system.

CONCLUSION

The availability of wireless communications service enhances community safety, and is increasingly relied upon by civil defense and other safety officers as well as the general public in times of crisis, natural disaster, bad storms or similar circumstances. Wireless communications service also provides a convenience to residents, and is an attractive feature and service to businesses. The proposed modification, by providing these

services, will promote the health, safety, convenience and general welfare of the inhabitants of the City of Cambridge.

In compliance with Section 6409(a) of the federal Middle Class Tax Relief and Job Creation Act of 2012, the proposed modification constitutes an eligible facilities request entitled to approval. In the alternative, *with all rights reserved*, the proposed modification meets all the standards for a special permit pursuant to the City's Zoning Ordinance. Verizon Wireless respectfully requests that the Board vote to grant a special permit and any other relief pursuant to the City of Cambridge Zoning Ordinance, Massachusetts General Laws chapter 40A, and, the federal Telecommunications Act of 1996.

FIBERGLASS NOTES:

- FRP (FIBERGLASS REINFORCED POLYMER) STRUCTURAL SHAPES SHALL BE MANUFACTURED USING THE PULTRUSION PROCESS.
- IF PRE-FABRICATED MEMBERS DO NOT ASSEMBLE ACCORDING TO PLAN, CONTACT THE FIBERGLASS MANUFACTURER BEFORE CUTTING OR ALTERING FABRICATED MEMBERS.
- FRP MEMBERS SHALL BE FABRICATED AND ASSEMBLED AS INDICATED ON THE DRAWINGS.
- THE CONTRACTOR SHALL PROTECT THE FRP STRUCTURAL MEMBERS FROM ABUSE TO PREVENT BREAKAGE, NICKS, GOUGES, ETC. DURING FABRICATION, HANDLING, AND INSTALLATION.
- FRP BOLTS SHOULD BE TIGHTENED 1/2 TURN PAST SNUG AND LOCKED WITH EPOXY.
- FIBERGLASS TO MEET ALL VERIZON WIRELESS STANDARDS FOR RF PROPAGATION. PROVIDE TEST REPORTS TO VERIZON WIRELESS FOR REVIEW & APPROVAL.
- STRUCTURAL FRP SHALL HAVE THE MINIMUM MECHANICAL PROPERTIES:
E=2800KSI
TENSILE STRENGTH(LW): 33KSI
COMPRESSIVE STRENGTH(LW): 33 KSI
FLEXURAL STRENGTH(LW): 33KSI
DENSITY: 104PCF
- FIBERGLASS PANEL DESIGN & CONNECTION DESIGN TO BE BY OTHERS.
- PROVIDE FRP SHOP DRAWINGS TO DEWBERRY ENGINEERS INC. FOR REVIEW & APPROVAL PRIOR TO FRP FABRICATION.

BRACKET NOTES:

- SLOT U-BOLT HOLES TO ALLOW FOR MINOR FIELD ADJUSTMENT.

Case No. 9100
Location: 599- 601 and 603-605 Mass Ave
Petitioner: Verizon Wireless c/o John Moran, Alpine Advisory Services Agent

On June 9, 2005, Petitioner John Moran appeared before the Board of Zoning Appeal requesting a special permit to install telecommunication antennas, a roof top equipment shelter and an emergency natural gas generator on the lower rear roof and stairways. The Petitioner submitted plans and photographs.

Board member Clemons stated that because he was an employee of Verizon, he had to recuse himself. The Petitioner was given the choice of continuing the case until a five member Board could be assembled or proceeding with the available four member Board, where a unanimous vote would be required in order to prevail. The Petitioner chose to proceed.

Mr. Moran stated that the details of the proposal had been altered to address concerns of the Planning Board. He stated that the array was to be in a non-residential district. He produced the requisite FCC licensure. He stated that the array was painted to match the building.

The Chair asked if anyone wished to be heard on the matter, no one indicated such.

After discussion, the Chair moved that the Board grant a special permit to install telecommunications antennae on a rooftop and an equipment shelter and an emergency natural gas generator on the lower roof and stairway based on the findings that the Petitioner has a federal license, which is in the file, that the photosimulations are consistent with recommendations from the city's Planning Board, and that the visual impact on the various elements of this facility have been minimized through the sheltering and camouflaging of these elements. The Chair noted that the Petitioner has submitted a report by a Donald L. Haes, Jr., PhD, ChP, a Massachusetts radiation control program's health physics service provider, Registration No. 65-0017, analyzing the antennae array at the specific site. The Chair moved that, based on those findings, the Board grant the special permit on the following conditions:

1. that the work be in substantial conformance with drawings submitted in support of the application, dated the 28th of April 2005, revision No. 2, revised Gamma Sector Location, entitled Central Square, 599 Mass Ave, Cambridge, Mass, prepared for Verizon Wireless by GPI Consulting Engineers, consisting of five sheets of drawings, and
2. that should the equipment be abandoned or become obsolete it will be removed from the premises.

The four member Board voted unanimously in favor of granting the special permit (Sieniewicz, Spurlock, Hughes, and Chan) with the above conditions. Therefore, the special permit is granted.

The Board based its decision upon the above findings and upon the following:

- 1) The meeting of the requirements of the Ordinance;
- 2) Traffic generated or patterns of access or egress would not cause congestion, hazard, or substantial change in the established neighborhood character;
- 3) The continued operation of or the development of adjacent uses as permitted in the Ordinance would not be adversely affected by the nature of the proposed uses:
- 4) Nuisance or hazard would not be created to the detriment of the health, safety and /or welfare of the occupants of the proposed use;
- 5) The proposed use would not impair the integrity of the district or adjoining district or otherwise derogate from the Ordinance, and in fact would be a significant improvement to the structure and benefit the neighborhood, and;
- 6) The new use or building construction is not inconsistent with the Urban Design Objectives set forth in Section 19.30 of the Cambridge Zoning Ordinance.

The Board of Zoning Appeal is empowered to waive local zoning regulations only. This decision therefore does not relieve the petitioner in any way from the duty to comply with local ordinances and regulation of the other local agencies, including, but not limited to the Historical Commission, License Commission and/or compliance with requirements pursuant to the Building Code and other applicable codes.

Members of the Board of Zoning Appeal heard testimony and viewed materials submitted regarding the above request for relief from the requirements of the Cambridge Zoning Ordinance. The Board is familiar with the location of the petitioner's property, the layout and other characteristics as well as the surrounding district.

Case No. BZA-017208-2019
Location: 599 & 605 Massachusetts Avenue / 2-12 Essex Street
Petitioner: Cellco Partnership d/b/a Verizon Wireless – c/o Timothy Twardowski, Esq.

On December 5, 2019, Petitioner's attorney Timothy Twardowski appeared before the Board of Zoning Appeal requesting a variance in order to update the existing mobile communications facility by replacing all of the four panel antennas in each of the antenna arrays (12 antennas total will be replaced), to install two remote radio heads and two junction boxes per sector, and to relocate the existing Alpha sector antennas. The Petitioner requested relief under Article 4, Sections 4.32.G.1 and 4.40 and Article 10, Section 10.40 of the Cambridge Zoning Ordinance ("Ordinance"). The Petitioner submitted materials in support of the application including information about the project, plans, and photographs.

Mr. Twardowski stated that the proposal was to upgrade an existing telecommunications facility by replacing 12 antennas, lowering some, screening others, and painting them to match the building where appropriate. He stated that the Petitioner was also requesting to install remote radio heads, which would be mounted on the roof, out of sight.

The Chair asked if anyone wished to be heard on the matter, no one indicated such. The Chair read a letter from the Planning Board that made some suggestions. The Petitioner indicated that those suggestions were accommodated in the provided plans.

After discussion, the Chair moved that the Board make the following findings based upon the application materials submitted and all evidence before the Board and that based upon the findings the Board grant the requested relief as described in the Petitioner's submitted materials and the evidence before the Board: that the Board find that the requirements of the Ordinance could not be met without the special permit; that the Board find that traffic generated or patterns in access or egress resulting from what was proposed would not cause congestion, hazard, or substantial change in established neighborhood character; that the Board find that the relief requested was simply to update telecommunications equipment, so that whatever impact had occurred was not going to be increased, but rather would be ameliorated by what was proposed; that the Board find that the continued operation or development of adjacent uses, as permitted in the Ordinance, would not be adversely affected by what was proposed; that the Board find that the neighborhood had had the experience of dealing with the telecommunications antennas on these buildings, and no one had had a problem; that the Board find that no nuisance or hazard would be created to the detriment of the health, safety and/or welfare of the occupant of the proposed use, or the citizens of the City; that the Board find that what was proposed would not impair the integrity of the district or adjoining district, or otherwise derogate from the intent and purpose of the Ordinance; that the Board find that the modification of the existing telecommunication facility at the site proposed by the Petitioner would not substantially change the physical dimensions of the existing wireless tower or base

station at such facility within the meaning of Section 6409(a) of the Middle-Class Tax Relief and Job Creation Act of 2012, also known as the Spectrum Act.

The Chair further moved that based upon all the information presented the Board grant the requested relief as described in the Petitioner's submitted materials and the evidence before the Board on the following conditions:

1. that the work proceed in accordance with plans submitted by the Petitioner, as initialed by the Chair,
2. that upon completion of the work, the physical appearance and visual impact of the proposed work be consistent with the photo simulations submitted by the Petitioner and initialed by the Chair,
3. that the Petitioner at all times maintain the proposed work so that its physical appearance and visual impact remain consistent with the photo simulations previously referred to,
4. that should the Petitioner cease to utilize the equipment approved tonight for a continuous period of six months or more, it promptly thereafter remove such equipment and restore the building on which it was located to its prior condition and appearance to an extent reasonably practicable,
5. that the Petitioner continue to comply with the conditions imposed by the Board with respect to previous Special Permits granted to the Petitioner with regard to the site in question,
6. that inasmuch as the health effects of the transmission of electromagnetic energy waves is a matter of ongoing societal concern and scientific study, the Special Permit is also subject to the following conditions:
 - A. that the Petitioner shall file with the Inspectional Services Department each report it files with the federal authorities regarding electromagnetic energy wave emissions emanating from all of the Petitioner's equipment on the site. Each such report shall be filed with the Inspectional Services Department no later than ten business days after the report has been filed with the federal authorities. Failure to timely file any such report with the Inspectional Services Department shall ipso facto terminate the Special Permit granted tonight.
 - B. that in the event that at any time federal authorities notify the Petitioner that its equipment on the site, including, but not limited to the special permit granted tonight, fails to comply with the requirements of law or governmental regulations, whether with regard to the emissions of electromagnetic energy waves or otherwise, the Petitioner, within ten business days of receipt of such notification of such failure, shall file with the Inspectional Services Department a report disclosing in reasonable detail that such failure has occurred and the basis for such claimed failure. The special permit shall ipso facto terminate if any of the Petitioner's federal licenses are suspended, revoked, or terminated.

- C. that to the extent a special permit has terminated pursuant to the foregoing paragraphs A and B, the Petitioner may apply to this Board for a new special permit provided that the public notice containing such application discloses in reasonable detail that the application has been filed because of a termination of the special permit pursuant to paragraphs A or B above. Any such new application shall not be deemed a repetitive petition and therefore will not be subject to the two-year period during which repetitive petitions may not be filed.
- D. that within ten business days after receipt of a Building Permit for installation of equipment subject to this petition, the Petitioner shall file with the Inspectional Services Department a sworn Affidavit of the person in charge of the installation of equipment by the Petitioner of the geographical area that includes Cambridge, stating that A, he or she has such responsibility, and B that the equipment being installed pursuant to the special permit will comply with all federal safety rules and will be situated and maintained in locations with appropriate barricades and other protections, such that individuals, including nearby residents and occupants of nearby structures, will be sufficiently protected from excessive radio frequency radiation under federal law.

The five member Board voted unanimously in favor of granting the special permit with the above conditions (Alexander, Sullivan, Green, Hickey, and Monteverde). Therefore, the special permit is granted as conditioned.

The Board of Zoning Appeal is empowered to waive local zoning regulations only. This decision therefore does not relieve the Petitioner in any way from the duty to comply with local ordinances and regulations of the other local agencies, including, but not limited to the Historical Commission, License Commission and/or compliance with requirements pursuant to the Building Code and other applicable codes.

Constantine Alexander, Chair

ATTEST: A true and accurate copy of the above decision has been filed on 12-15-19 with the Offices of the City Clerk and the Planning Board by Maria J. [Signature], duly authorized representative of the Board of Zoning Appeal.

Twenty days have elapsed since the above decision was filed in the office of the City Clerk and:

no appeal has been filed; or

an appeal has been filed within such twenty days.

The person exercising rights under a duly appealed special permit does so at risk that a court will reverse the permit and that any construction performed under the permit may be ordered undone. This certification shall in no event terminate or shorten the tolling, during the pendency of any appeals, of the periods provided under the second paragraph of G.L. c. 40A, §6.

Date: Jan. 8, 2020
