SUPPORTING STATEMENT FOR A VARIANCE

EACH OF THE FOLLOWING REQUIREMENTS FOR A VARIANCE MUST BE ESTABLISHED AND SET FORTH IN COMPLETE DETAIL BY THE APPLICANT IN ACCORDANCE WITH MGL 40A, SECTION 10.

- A)** A literal enforcement of the provisions of this Ordinance would involve a substantial hardship, financial or otherwise, to the petitioner or appellant for the following reasons:
- A literal enforcement of the provisions of this Ordinance would prevent the Petitioner from making any modifications to this home.
- B)** The hardship is owing to the following circumstances relating to the soil conditions, shape or topography of such land or structures and especially affecting such land or structures by not affecting generally the zoning district in which it is located for the following reasons:
- The Hardship is directly related to the shape and size of the lot and the age and layout of the building.
- C) DESIRABLE RELIEF MAY BE GRANTED WITHOUT EITHER:**
- 1)** Desirable relief may be granted without substantial detriment to the public good for the following reasons:
- The proposed modifications conform to the height, front setback, lot area per dwelling unit and open space requirements, and do not exceed the extent of the existing rear setback violations.
- 2)** Desirable relief may be granted without nullifying or substantially derogating from the intent or purpose of this Ordinance for the following reasons:
- The proposed structure is consistent with the size and use of surrounding structures in the neighborhood.

***If you have any questions as to whether you can establish all of the applicable legal requirements, you should consult with an attorney.**

BZA Application Form

SUPPORTING STATEMENT FOR A SPECIAL PERMIT

Please describe in complete detail how you meet each of the following criteria referring to the property and proposed changes or uses which are requested in your application. Attach sheets with additional information for special permits which have additional criteria, e.g.; fast food permits, comprehensive permits, etc., which must be met.

Granting the Special Permit requested for 63 Chilton St , Cambridge, MA (location) would not be a detriment to the public interest because:

A) Requirements of the Ordinance can or will be met for the following reasons:

Article 4.22 allows for the creation of accessory dwelling units where, as in this case, the existing dwelling has been in existence as of February 2019, it exceeds 1,800 sf of Gross Floor Area, and the proposed accessory unit does not exceed 900sf or 35% of the structure.

B) Traffic generated or patterns of access or egress would not cause congestion hazard, or substantial change in established neighborhood character for the following reasons:

The established neighborhood character contains numerous residential uses which do not contain off street parking.

C) The continued operation of or the development of adjacent uses as permitted in the Zoning Ordinance would not be adversely affected by the nature of the proposed use for the following reasons:

The addition of an accessory dwelling unit will not adversely affect adjacent uses in the neighborhood.

D) Nuisance or hazard would not be created to the detriment of the health, safety, and/or welfare of the occupant of the proposed use or the citizens of the City for the following reasons:

The addition of an accessory unit will neither adversely affect the health, safety and/or welfare of the people living or working in the building nor the citizens of Cambridge.

E) For other reasons, the proposed use would not impair the integrity of the district or adjoining district or otherwise derogate from the intent or purpose of this ordinance for the following reasons:

The addition of an accessory dwelling unit to this single family structure is not out of character with the neighborhood.

***If you have any questions as to whether you can establish all of the applicable legal requirements, you should consult with an attorney.**

Re: Case No. BZA-124207 – 63 Chilton Street (the “Property”)
July 29, 2021 Meeting

Dear Board:

We are abutters of the Property. Thank you for considering our perspective as you review the petition for zoning relief in connection with the above-referenced case.

As a starting point, we want to express our appreciation to the petitioners, Vikas Saini and Julie Croston, for meeting with us to discuss the project. It was a positive conversation that helped answer questions and narrow our concerns to a singular issue regarding the use of the proposed accessory apartment. As discussed below, we believe that this issue can be resolved without affecting the planned use of the apartment as long-term, family housing.

According to the application for zoning relief, the petitioners are seeking both a variance and special permit. The Property is listed in the application as 2,682 square feet, while the maximum allowable Gross Floor Area (“GFA”) is 3,343.5 square feet. This provides the petitioners with 661.5 square feet to modify the Property within the allowable GFA. If granted, the requested zoning relief would allow the petitioners to alter their primary dwelling and add an accessory apartment, converting an existing 1.5 story single family home into a 2.5 story residence with a fourth floor overhang above the second and third floors. The project would increase the GFA by 1,000 square feet, exceeding the allowable GFA by more than 300 square feet. The petitioners also seek to locate a parking spot within the required front yard setback and appear to ask the Board to waive the requirement for off-street parking for the accessory dwelling unit.

The petitioners’ request for a special permit to add an accessory dwelling unit is linked to their request for a variance: the overall project and ability to accommodate the accessory apartment depend on the Property exceeding the GFA allowed under the zoning ordinance. Accordingly, the two requests bear a close relationship and should be considered together as part of the overall relief that the petitioners request.

We understand that Vikas’ mother would live in the proposed accessory apartment. We appreciate Vikas’ and Julie’s preference to “upsized” the Property to

accommodate that type of long-term, family use. In fact, the creation of new, long-term housing stock has long been a city priority. The addition of accessory dwelling units can help promote this important policy. We do not oppose use of the Property for this purpose and would look forward to welcoming Vikas' and Julie's family member as a neighbor.

Our concern centers on the potential for zoning relief here to accommodate short-term, more transient rentals. If certain requirements are met, accessory apartments can be rented out for a mere days or weeks. Even if the intent at this time is not to use the Property as a short-term rental, circumstances can change and properties can be sold to new owners with different preferences. That could include the preference to establish a revenue-generating business through short-term rentals. Such a use would present a greater burden to abutters and neighbors and should be considered in weighing the zoning relief requested and the statutory criteria for granting such a request.

Board precedent has weighed these considerations in the past. For example, in a recent case before the Board related to a different property, neighbors expressed concern that granting requested relief could allow the petitioner to use a newly created accessory apartment as a short-term rental. *See* Case No. BZA-118270 (June 24, 2021). The Board granted relief but conditioned its approval on the petitioners not using an accessory apartment as a short-term rental property. Consistent with such prior Board action, if the Board is inclined to act favorably on the request for zoning relief regarding the Property in this case, we respectfully ask that the Board include a similar condition to ensure that the new accessory apartment is used solely as long-term housing (e.g., a term of six months or greater). That condition would not disrupt the petitioners' planned use of the new unit as we understand it.

Thank you again for taking the time to consider our perspective. We plan to attend the July 29th meeting.

Sincerely,

/s/ Jason Marshall

Re: Case No. BZA-0124207
63 Chilton St., Cambridge, MA 02138

Dear Chairman Alexander,

I am writing on behalf of Julie Ann Croston and Vikas Saini, who have submitted a request for a Variance to construct a non-conforming addition to an existing single-family structure, as well a Special Permit to allow for the addition of an accessory dwelling unit and the continued use of a non-conforming parking space.

This family is one that is deeply committed to our community. Julie has long worked with Cambridge School Volunteers as their Director of Recruitment and Communications, where she plays a vital role in supporting our students and a broader network of Cambridge Public Schools volunteers, educators, and caregivers. As this zoning relief, if granted, will also allow the construction of an additional dwelling unit, this project aligns with our vision for the ADU Ordinance: building additional units onto existing housing as one of many complementary strategies for addressing the pressing affordable housing crisis.

I wholeheartedly encourage the Board to grant this Variance and Special Permit. Please do not hesitate to contact my office if you have any further questions.

Thank you,
