**Present:** Andrew Upton, attorney; and Loic Le Garrec.

**Documents Considered:** Application and documents attached thereto; and letter in support.

The concept proposed is similar to Petit Robert bistro at South End, all food focused with alcohol as amenity. Price point moderate – all day opened. Hiring chef Cyrille Couet. Loic Le Garrec has strong history of compliance. There is a presumed need for a license as there has been a liquor licensed attached to it. **Documents Considered:** Application and documents attached thereto.

**Summary:** This is to add a 120 sq. ft. area against the building on a private sidewalk. Plan submitted with 9 seats due to City requirement on patios on the public way. ***[Matters 9 & 10 were called together]***

9. **Application #165779** Slawdog, LLC d/b/a State Park, One Kendall Sq. #300, Common Victualler All Alcohol License #11490, has applied for an Alteration of Premises to extend its current outdoor patio further onto the private way. Includes outdoor patio on private property on the first floor of approximately 600 sq. ft.

**Present:** Rachel Miller Munzer; and John Kessen.

**Documents Considered:** Application and documents attached thereto.

**Summary:** These are interrelated applications to remove a portion of the patio from Mamaleh's and add it to State Park. The premises description on these have always been wrong in terms of the size of the outdoor areas (they include the walkway which is not part of the premises). For State Park it would now be the upper patio, on the plaza level for 1000 sq. ft. with 48 seats and 20 standing. The lower patio is only 390 sq. ft. with 20 seating and 10 standing. The hours of operation would be the same as indoors. For Mamaleh's the patio is in fact only 172 sq. ft. with a total of 32 seats. The hours of operation would also be the same as indoors.

**Decision:** Granted with updated premises description. *(Note: after the hearing, we received a clarification from the applicant. The State Park outdoor areas would include three separate ones: on the upper level there are two areas, one is of 1,000 sq. ft. (48 seats and 20 standing), and the other of 646 sq. ft. (20 seats, 20 standing); the third is on the lower level, 390 sq. ft. (20 seats and 10 standing). The administrative changes were made to the record and a condition was added to the license that states "While outdoor areas are open and operating, there must be managerial staff monitoring the areas." Mamaleh's patio would remain at 172 sq. ft. in front of the first-floor portion of the premises with 32 seats.)*

33. **Board discussion** Extension of licensed premises.

**Documents Considered:** State law and corresponding documents.

**Summary:** The governor/legislature extended temporary extensions through 2023. Part of the legislative history is that this will allow towns and cities that did not have outdoor programs set ups prior to COVID to make all necessary changes to create ones. The City of Cambridge has had an outdoor program for more than 20 years. The only new thing in the City's program is allowing the use of parking/travel lane for outdoor seating. Since the summer of 2021, when COVID extensions were going to end 60 days after the state of emergency, licensees have been asked to apply to make the temporary patios part of their annual licenses. This is also encouraged by the state through the ABCC advisories which have been distributed to all licensees upon issuance. Since the 2021 summer, the License Commission has sent at least 10 communications on the issue. To date, there are a good number of businesses that have applied.

From the application already heard, the Board has learned that abutters or neighbors that may have been supportive during the last two years, are not as supportive now. The Board needs to be fair to all – the temporary patio program was implemented in a lax way to ensure businesses survived, especially when the indoor of the premises was not able to be open. That is not where we are at now. It was acknowledged businesses are still hurting and need assistance to survive, which is why the License Commission has gone above and beyond, lowered fees, and at every step of the way assisted licensees in navigating all necessary processes, including the City's new dining policy, new permits for the use of the public way and applying with us and the ABCC when applicable.

Considering all factors, the Board felt it cannot automatically extend outdoor areas. First for those on the public way the City is requiring outdoor areas comply with the current dining policy (it may waive for a short time the notice to abutters and stamped plans but all other aspects must be complied with); the Board needs to hear from abutters – prior to COVID we had patios but now the amount of patios has duplicated, this may be great generally but neighbors, residents and other businesses should be heard as this may impact them in a different way; and finally the Board wanted to fairly deal with the businesses that have complied with its policies and directives to apply and those that have not yet applied need to do so.

**Decision:** Board adopted the following process:

Temporary extensions are not to be automatically extended/approved.

A business must first file an application to have the area included in their annual license and be heard by the Board. If the Board approves the extension, at that time the temporary extension would be issued to allow the business to, in the case of those on the private way, immediately open and

operate the outdoor area while they wait for final approval of the ABCC; and those in the public way, to open and operate the outdoor area once they have signed the temporary indemnification agreement with the City and while they wait for the ABCC approval and final signatures on the City's two year indemnification agreement.

The Board may consider issuing a temporary extension to a particular place without requiring an application to make the temporary outdoor area part of their annual license in extreme circumstances, such as business will be closed within the 2022 calendar year; the space will not be available; etc. however those businesses must still apply through a Change to Existing License and the Board will hear and consider the matters in a meeting, after abutter notification is provided.

The expiration date on the temporary extension will be aligned with that on the annual license, December 31, 2022, even though most will be moot, but this allows for any unforeseen delays in approval with the ABCC.

The Chair of the License Commission and her designees be allowed to issue the temporary licenses pursuant to the aforementioned processes.
