I am not interested in having the option to use an application to book trips, calculate fares and have passengers pay through it. I would rather to continue using the meter and our flat rate book.

I am interested in having the ability to use an application to book trips, calculate fares and have passengers pay through it. I understand that when the application is used, the meter or flat rate book will not be used for that trip.

** Please note that at this time it is still uncertain whether a booking trip, fare calculation and payment application can be used per state or municipal law or Hackney Rules. This ballot is being used so that the Board of License Commissioners can gather information from the drivers and medallion holders as to interest in using such an application.*
