What is the role of the Climate Committee?

The Climate Committee has three roles that help the City reduce climate change impacts, reduce greenhouse gas emissions, increase equity, and serve as a partner to and example for other communities:

- 1. Provide feedback and ideas to the City on ways to reduce and live with climate change while prioritizing the needs of the most at-risk populations.*
- 2. Share information about City climate programs with community members, listen to community concerns, and raise feedback with City staff so programs effectively serve all community members.*
- 3. Stay informed about the City's climate goals and provide accountability and feedback on barriers and opportunities to improve effectiveness.*

Officer Section of Bylaws

Officers will be elected on an annual basis. Elections will take place in September of each year unless the Committee decides otherwise.
