

# Community Meeting

## Sherman Street Combined Sewer Overflow Tank and DPW Facilities

### In-person Community Meeting

Join us on **Thursday, Dec. 11** to learn about the future plans for the City-owned lot at 135 Sherman Street.

**The meeting will include:**

- A brief presentation outlining the proposed use of the space.
- An interactive workshop where you can explore details, ask questions, and share feedback with members of the project team.

In 2023, the City purchased the lot at 135 Sherman Street as a potential site for a combined sewer overflow holding tank and to provide office and storage space for the Parks and Forestry Divisions of Public Works. The project team has recently concluded a concept design process, and we look forward to sharing our proposed vision for this site with the public.
