Willard Street Drainage Improvements Community Meeting

Thursday, March 30, 6:30-8:30 P.M.
Friends Meeting at Cambridge, Friends Room
5 Longfellow Park, Cambridge MA

City staff and their consultant will present an overview of the Willard Street Drainage Improvement Project, which includes replacing and/or rehabilitating the sewer and stormwater infrastructure and the construction of a new stormwater pipe and outfall at the Charles River, evaluation and implementation of stormwater best management practices, and water main replacement. Due to the construction required to make these subsurface improvements, there is an opportunity to evaluate surface improvements to the roadway to promote traffic calming and improvements to bicycle and pedestrian accessibility. We encourage neighborhood members to attend to learn more about the project.

For more information, please visit www.CambridgeMa.gov/theworks/WillardSt. If you would like join an email distribution list to receive further information and updates on potential future drainage improvements in the Willard Street area, please visit bit.ly/WillardSt.

If you have any questions about this work or the upcoming meeting, contact Christi Apicella, Community Relations Liaison for the project, at 617.556.0020 (ext-3003) or capicella@mcmahonassociates.com; or Dan Riviello, DPW Community Relations Manager at 617.349.4825 or driviello@cambridgema.gov
