

Cambridge Fire Headquarters Renovation Project

Detours and Traffic Impacts to begin week of March 31

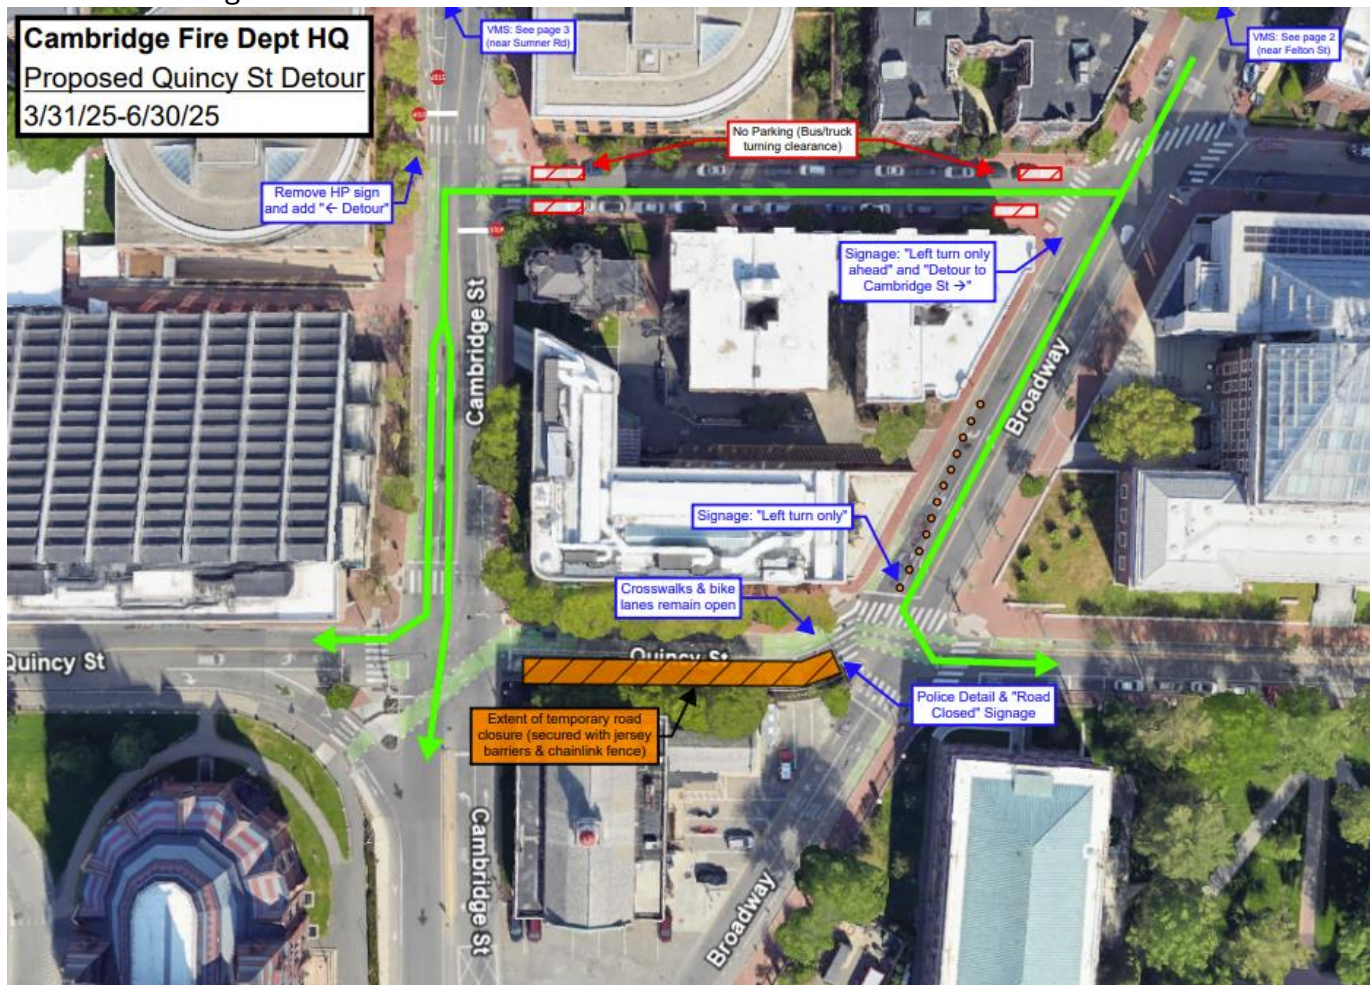

Dear Neighbor:

As part of the Cambridge Fire Department Headquarters Renovation Project, the City's contractor, WT Rich, will implement a detour on Quincy Street between Cambridge Street and Broadway. Traffic will be redirected onto Prescott Street. Pedestrian crosswalks and bike lanes on the affected section of Quincy Street will remain accessible.

The detour is expected to be in place 24 hours a day for approximately three months, from **March 31, 2025**, to **June 30, 2025**, weather permitting. During this time, construction vehicles will be on Quincy Street for demolition activities and installing new structural steel for the building.

Please stay alert for detour signs, road closure signs, variable message boards, and no parking signs, as these will be updated frequently throughout the project.

Refer to the image below for detailed detour information.

What to Expect During Construction:

- Work hours will be **7 AM to 4 PM, Monday-Friday**, but the detour will remain **in effect 24/7**.
- “No Parking” signs will be posted; please be sure to check dates/times.
- Signs and message boards will be in place to guide drivers and warn them about the upcoming detour.
- Emergency services have been notified of the detour and will have access in the event of an emergency
