Sections:

8.66.020 - Statement of Purpose

The City Council hereby finds that the preservation of existing trees and the promotion of new tree planting is a public purpose that protects the public health, welfare, environment and aesthetics of the City of Cambridge and its citizens.

The urban forest serves a wide variety of functions, which promote the health, safety, and welfare of residents. These functions include:

- conserving energy, by providing shade and evaporative cooling through transpiration;
- improving local and global air quality by absorbing carbon dioxide and ozone, absorbing particulate matter, and producing oxygen;
- reducing wind speed and directing air flow;
- reducing noise pollution;
- providing habitat for birds, small mammals, and other wildlife;
- reducing storm runoff and the potential for soil erosion;
- increasing real property values; and
- enhancing visual and aesthetic qualities that attract visitors and businesses.

Regarding any project which includes a building of 25,000 square feet or more and which is subject to the provisions of § 19.50 of the Zoning Ordinance, the materials submitted to the Inspectional Services Department with the application for a building permit shall include a Tree Study, together with a certification from the City Arborist that the applicant has submitted the Tree Study for review to the City Arborist not less than twenty-one (21) days prior to the submission of the application for a building permit, and that the Tree Study is complete and complies with the applicable provisions of this Chapter and regulations promulgated thereunder. The City Arborist shall refer the Tree Study with the City Arborists certification and recommendations to the Planning Board, to assist the Planning Board in establishing any conditions that may be required as a result of the findings of the Tree Study in connection with the issuance of a special permit. The Owner of the Lot shall be required to commit to comply with all provisions of the Tree Study and the applicable provisions of this Chapter and regulations promulgated hereunder in the application for a building permit.

c. For any project which requires a special permit under §§ 4.26.1 - 4.26.3, §19.20, §11.12.1, §11.12.2, or §11.12.3 of the Zoning Ordinance, or for any project which includes a building of 25,000 square feet or more and which is subject to the provisions of § 19.50 of the Zoning Ordinance the total DBH of Replacement Trees, or Mitigation Payment of equivalent value, as applicable, shall be equal to or exceed the total DBH of the Significant Trees to be removed from the Lot and 1.5 times the total DBH of Exceptional Trees to be removed from the lot.

d. In addition, the Owner of the Lot shall, prior to the issuance of a building permit, post and file a bond with the City Clerk in the amount of the total costs set forth in the Mitigation Plan, but in no event less than five thousand dollars ($5,000.00), with one or more sureties conditioned to the faithful observance of the conditions and specifications of the Tree Protection Plan and, if applicable, the Mitigation Plan. Prior to the issuance of such certification, the Owner shall grant access to the Lot to permit the City Arborist to verify that the conditions and specifications of the Tree Protection Plan have been met.

8.66.070 - Procedure for Other Significant Tree Removals.

Mitigation Payment will be required for all Significant Trees removed where an insufficient quantity of Replacement Trees is provided. Where no Replacement Trees are proposed the Mitigation Payment of equivalent value shall be based on the total DBH of the Significant Trees to be removed and 1.5 times the total DBH of Exceptional Trees to be removed from the Lot. When Replacement Trees are planted on a lot, the Mitigation Payment will be based on one-half of the DBH difference between each Significant Tree removed and each Replacement Tree planted to replace it on a one-for-one basis. This calculation will start with the smallest Significant Tree to be removed and then proceed in ascending order based on the sizes of the additional Significant Trees to be removed. This calculation will also value Exceptional Trees at 1.5 times their total DBH. When the number of Replacement Trees planted exceeds the number of Significant Trees removed, each additional Replacement Tree will be credited based on its DBH.

8.66.080 – Mitigation Requirements

Except as provided in 8.66.065, the following Mitigation Requirements shall apply when Significant Trees are removed from a Lot:

The Mitigation Payment for Significant Trees shall be estimated, on a DBH basis, in accordance with the City of Cambridge’s most recent tree planting and maintenance contract inclusive of purchasing, planting, watering and maintaining Replacement Trees for a period of not less than five (5) years.

The Mitigation Payment associated with Exceptional Trees shall be estimated on a DBH basis at 1.5 times the value provided in the City of Cambridge’s most recent tree planting and maintenance contract inclusive of purchasing, planting, watering and maintaining Replacement Trees for a period of not less than five (5) years.

A 10% Mitigation Payment shall apply for Owners who qualify for the City of Cambridge residential real estate property tax exemption.

No Mitigation Payment shall apply to property owners that receive established forms of financial assistance.

8.66.090 - Tree Replacement Fund

There is hereby established a Tree Replacement Fund which shall be held by the City Treasurer in an account and administered in accordance with applicable provisions of the General Laws. Failure to adequately protect and maintain Significant Trees free from harm may result in a fine in accordance with 8.66.090, and failure to adequately protect Significant Trees that results in a Significant Tree being removed within two (2) years of the failure to protect being noted may result in a fine in accordance with 8.66.090 and a Mitigation Payment that reflects the value of the Significant Trees removed in accordance with 8.66.080.
