

# Mass Ave Partial Construction Working Group Site Walks

The Mass Ave Partial Construction Project was initiated in response to the City's Cycling Safety Ordinance. The project will design and implement improvements to Massachusetts Ave between Waterhouse Street and Alewife Brook Parkway, including separated bicycle facilities, pedestrian and transit improvements, and accommodation for curbside access. Improvements will be accomplished using a combination of quick-build techniques and limited construction such as removal and/or reconfiguration of the roadway median.

Visit [cambridgema.gov/massavepartialconstruction](http://cambridgema.gov/massavepartialconstruction) for more complete information about the Project, and for Project updates.

The City and Working Group will be having two site walks along the corridor to observe travel behavior and consider design challenges and possibilities:

- One site walk between Porter Station and Rice Street, an approximately .6 mile segment
- One site walk between Porter Station and Waterhouse Street, an approximately .7 mile segment.

All Working Group meetings are open to the public, although time for general public comment will be limited. The Project will also be holding general public meetings and other public events during the planning and design phase. We encourage interested members of the public to join the Project contact list at [cambridgema.gov/massavepartialconstruction](http://cambridgema.gov/massavepartialconstruction) in order to learn about these events.

## Working Group Site Walk #1: Porter Square to Waterhouse Street

Thursday, August 3, 2023

3:00 PM – 5:00 PM

Meeting Location: Red Windmill Sculpture at Porter Station

## Working Group Site Walk #2: Porter Square to Rice Street

Monday, August 7, 2023

5:00 PM – 7:00 PM

Meeting Location: Red Windmill Sculpture at Porter Station
