

River Street Reconstruction Working Group Meeting #8

At this meeting, Working Group members will discuss the feedback received on the preferred alternative for the River Street corridor between Memorial Drive and Auburn Street. We will also discuss and ask for feedback on conceptual designs for the section of River Street between Auburn Street and Massachusetts Avenue, including options for the general arrangement of the curbs, buses, and bicycle facilities around Carl Barron Plaza and the bus terminal area.

The River Street Reconstruction Project will upgrade the subsurface infrastructure while developing a new surface design for River Street, the bus terminal area at River and Magazine Streets near Central Square, and Carl Barron Plaza. Working Group meets approximately monthly. All Working Group meetings are open to the public. Visit <http://www.cambridgema.gov/riverstreet> for updates.
