Join us as *Disability Reframed: A Community Film Series* shares an open-captioned screening of *Finding Dory*, an animated film about Dory, a Blue Tang fish with a sunny personality and also with cognitive difficulties like attentional deficits and memory loss. When Dory realizes she is missing her family, a variety of marine friends help her find her way home. Along the way, lessons about community and diversity make this award-winning story truly memorable for kids and adults alike.

A lively post-film community discussion with the audience will be moderated by Mike Langlois – a regular feature of *Disability Reframed*.

*Admission is Free*
