

Creative Arts with Catie

Wednesday June 5, 2019
10:00am - 11:30am

Through this art class I want you to find yourself through art. That means you may find it therapeutic but also very informative about varying art styles. I hope that from this class you learn a lot and become more openminded about art. I will also try to teach you about some obscure artists that are well known. In this class I'm not going to teach you about what to do but more or less give you a guideline and teach you how to go with it.

This Program is for senior 60+
