Community Schools Bus Policy

The Community School Programs offer afterschool enrichment classes in every elementary school in Cambridge. Most children attend the classes at the Community School located in their school building. Some families prefer to have their children attend classes in the school building located in their neighborhood. If an established bus route exists from a child's school to the preferred Community School, very often the Cambridge Public Schools are able to transport children to that Community School. Parents/guardians need to make transportation arrangements with the Cambridge Public Schools.

In an effort to support families, beginning this year a staff person from Community Schools will be available in front of the school to greet children under the age of 9 arriving by bus and will escort them into the school. Children age 9 and older who have parental permission may enter the school on their own.

To avoid disrupting ongoing classes and to support children's full participation in the enrichment classes, children must arrive no earlier than 15 minutes prior to the start of Community School Program and no later than 1 hour past the program start time. For a breakdown by school of the times that children may arrive for programs, please refer to the schedule below:

If you were to design your own home, what would it look like? How about a huge TV and gaming room, 4 car garage, or perhaps a playroom just for your pet dog! It's up to you how you want to make your dream home, but it's important to know some of the basics when it comes to architecture, that way your home is not only stable, but also convenient and functional. By learning Digital Architectural Design, you'll walk through the design process of creating a floor plan, modeling rooms within a home, and creating your first home in which you can tour in 3D. Once you get the grasp of creating the necessities of a home, you'll explore styles and construct commercial buildings that follow standard regulations like fire safety and wheelchair accessibility.
