

Want a Career that Makes a Difference? Explore Green Jobs!

What is a Green Job?

A green job is any job that protects or repairs the land, water, or air. You can get a green job in an office, outdoors, on a construction site, in laboratories, or in factories.

Green jobs usually pay well to start and most do not require a four-year degree!

Schedule a Green Jobs Consultation!

The City of Cambridge's Green Jobs Specialist meets with Cambridge residents (14 years and older) to advise them on green careers, connect them with job training opportunities, and help them with their resumes, cover letters, and other job-seeking skills!
