

City of Cambridge Committee on Public Planting

Meeting Minutes – 10 September 2025 - 5:30-7pm

Virtual Meeting via Zoom

Attendance (* indicates virtual attendance)

CPP Members: Ahron Lerman*, Cindy Carpenter, Chantal Eide, Cynthia Smith, Gretchen Friesinger, Ray Fahrner, Robb Johnson, Sara Cohen*, Sophia Emperador, Tracey Orr*, Christina Mann, Paola Massari, Eva Tine, Tenley Ransom, Rob Vandenabelle, Carrie Burke

DPW/City of Cambridge: Abby Bentley*, David Lefcourt, Andrew Putnam, Courtney Kirk, Kristen Kelleher

Guests & members of the public: none

Meeting notes submitted by: Chantal Eide

Agenda Items:

1. New CPP members:
 - a. New CPP members were introduced and all members went around the room introducing themselves.
2. Review previous meeting minutes:
 - a. May 2025 minutes were approved
 - b. June 2025 minutes were approved
 - c. July 2025 minutes were approved
3. Updates from Urban Forest team (Abby, David, Andrew & Kirsten) - 15 min.
 - a. Updates on 2025 tree planting goals and progress to date, on Cambridge and DCR land (Abby)
 - i. This spring, 556 trees were planted, 120 of which were on DCR land. The city will maintain, water, and prune the DCR trees for 5 years at which time they will become DCR's responsibility.
 - ii. For Fall planting, we are looking for planting sites. Right now there are 211 locations.
 - iii. Cambridge Parkway was considered as a site but DCR did not approve because our requested tree well sizes were too big.
 - iv. Abby showed a map of where the DCR trees were planted. Some were along Alewife Brook Parkway near the Whole Foods.
 - b. Update on goals and progress to date for Forest Friends newsletter subscribers and trees adopted (Kirsten)
 - i. Kristen has done some work on the website.
 - ii. We have over 1000 Forest Friend newsletter subscribers.
4. Urban Forest Master Plan 5 year review (Andrew) - 30 min.
 - a. Consultant for the project
 - i. Reed Hildebrand is the consultant for the project

- b. Brief overview, overall project scope and timeline
 - i. They'll be looking at the state of the urban forest, at risks to the urban forest, and at targets for the urban forest.
 - ii. The 5 year update will describe the current conditions, assess recommendations, and evaluate areas for improvement.
 - iii. They'll look at any successes from the last 5 years, challenges, and what is seen as potential. What strategies are effective for stemming loss and growing canopy for the last 5 years.
 - iv. Some preliminary results from UVM are that there has been 5% growth since 2020.
 - v. There will be two meetings with CPP. CPP will play the role of the task force.
- c. CPP inputs - when, kinds of inputs requested

- 5. Monday 27 October at 11am there will be a meeting of the Health and Environment subcommittee.
- 6. Updates from CDD - none
- 7. Other business & announcements - 5 min.
 - a. Danehy Park Family Day - September 20 (rain date September 27)

The meeting was adjourned at approximately 7pm.

.....

Items for further/future discussion: (topics tabled for this month or proposed for next month)

- We very much look forward to Reed Hildebrand's presentation next month.

Action items: (describe item, identify person responsible and time frame)

- All committee members should familiarize themselves with the Urban Forestry Master Plan Technical Report.

Public comments: none

.....

Next meeting: Our next Zoom meeting will be held on 8 October 2025 at 5:30pm and will be advertised to the public in advance.

Attachment:

- 1. Presentation on the history of the Urban Forest Master Plan, given by Andrew Putnam

WORKS**

CITY OF CAMBRIDGE

Urban Forest Master Plan

Background & Process

Overview

- Builds on the findings of the Cambridge Climate Change Vulnerability Assessment (CCVA) and helps support the goals of the Climate Change Preparedness and Resilience (CCPR) study
- Recognizes the capacity of the urban forest to realize the Core Values from Envision Cambridge
 - Livability & Diversity
 - Equity
 - Economic Opportunity
 - Sustainability & Resilience
 - Community Health and Wellbeing
 - Learning

CITY OF CAMBRIDGE

Urban Forest Master Plan

Background & Process

Overview

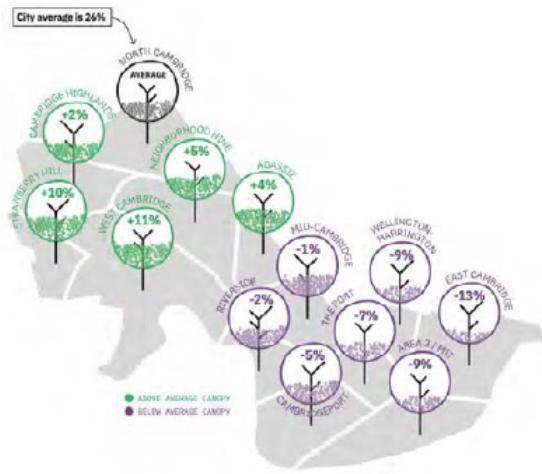

- Task Force of 18 private citizens representing residents of Cambridge, subject experts, local institutions, and business groups met 11 times during 2018 and 2019.
- Documented the State of the Urban Forest
- Evaluated Risks to the Urban Forest, **including factors contributing to canopy loss**
- Set Targets, Prioritization, and Action Steps
- Developed a Technical Report to advise stakeholders on data-driven solutions for preserving and expanding the urban forest and achieving goals.

2020 CUFMP MAJOR FINDINGS

The rate of canopy loss meant inaction would result in 10-15% canopy coverage by 2050

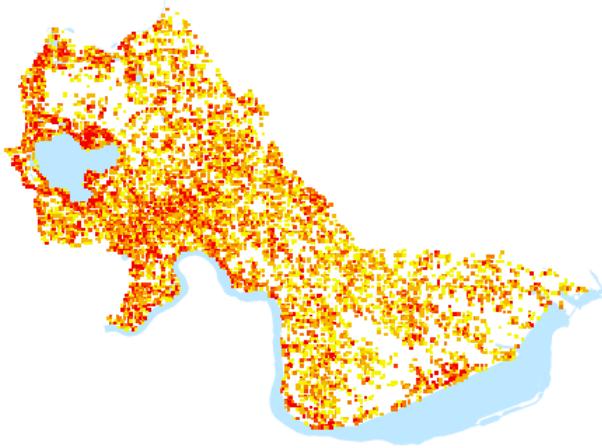

THE WORKS
CAMBRIDGE
DEPARTMENT
OF PUBLIC
WORKS

The forest is not equitable

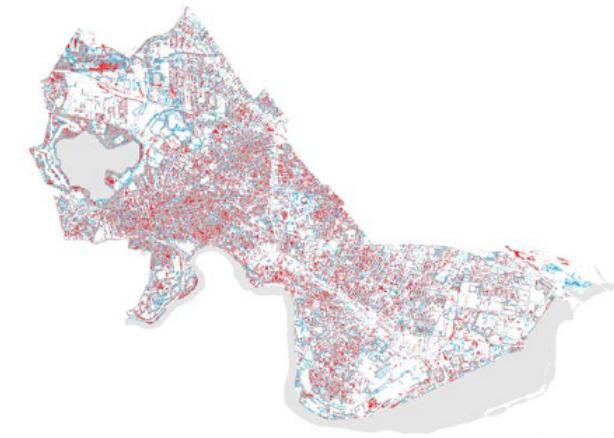

Focus efforts in low canopy communities

The forest is susceptible to risk

Diversify species & Reduce heat island

More loss happens on private property

Share responsibility

CUFMP TARGETS

EQUITY

- 25% minimum canopy by neighborhood

RESILIENCY

- 60% canopy over sidewalks
- 50% reduction of heat island hotspots
- Species diversification

SHARED RESPONSIBILITY

- 10% to 25% increase in canopy cover by across all landowner types

Health and Environment Committee

CITY OF CAMBRIDGE

GOALS OF THE 5-YEAR UPDATE

- 1. Evaluate progress since the 2019 Urban Forest Master Plan, focused on the goals and priorities set forth in the UFMP**
- 2. Evaluate and recommend new strategies or modifications to existing strategies, across policy, City practices and design, and outreach and engagement**
- 3. Set priorities for the next 5 years, identifying the actions that will be most impactful and feasible**

PHASE A ANALYSIS AND EVALUATION

2025
SUMMER

2025
FALL

2026
WINTER

2026
SPRING

PHASE A
**ANALYSIS AND
EVALUATION**

PHASE B
RECOMMENDATIONS

PHASE C
DOCUMENTATION

- Q: What is the current status of the urban forest?
- Q: What progress was made?
- Q: What are new risks?

Tasks:

- Mapping Analysis
- Interviews
- City Data Analysis
- Tree Survey
- Best practices review

THE
CAMBRIDGE

CITY OF CAMBRIDGE

Urban Forest Master Plan

Reported Canopy Coverage

2019 CUFMP AND UVM STUDIES

Note: 2019 UFMP was based on canopy data that was later further processed by UVM and resulted in different canopy cover assumptions.

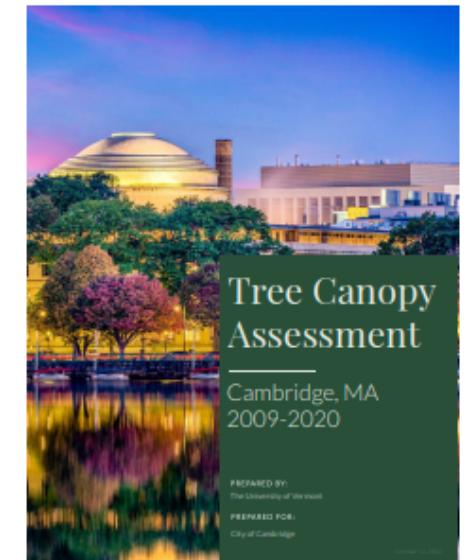

THE WORKS
CAMBRIDGE
DEPARTMENT
OF PUBLIC

CITY OF CAMBRIDGE

2019 CUFMP:
2009 canopy cover: 30%

2020 UVM Report
2009 canopy cover: 26%

Tree Canopy Report

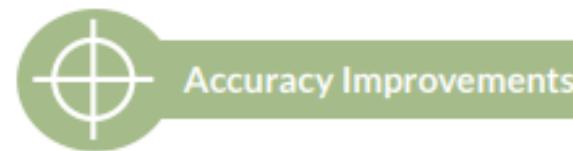

Improved Techniques

- LiDAR imaging, processing techniques and resolution continue to improve
- Harmonized flyover data provides accurate results for tracking change in canopy coverage

THE WORKS
CAMBRIDGE
DEPARTMENT
OF PUBLIC

CITY OF CAMBRIDGE

Accuracy Improvements

Due to improved accuracy achieved through the harmonization process, tree canopy numbers in this assessment may differ from previous analyses. Original tree canopy outputs for 2009 and 2014 were much coarser in resolution and required smoothing prior to harmonization.

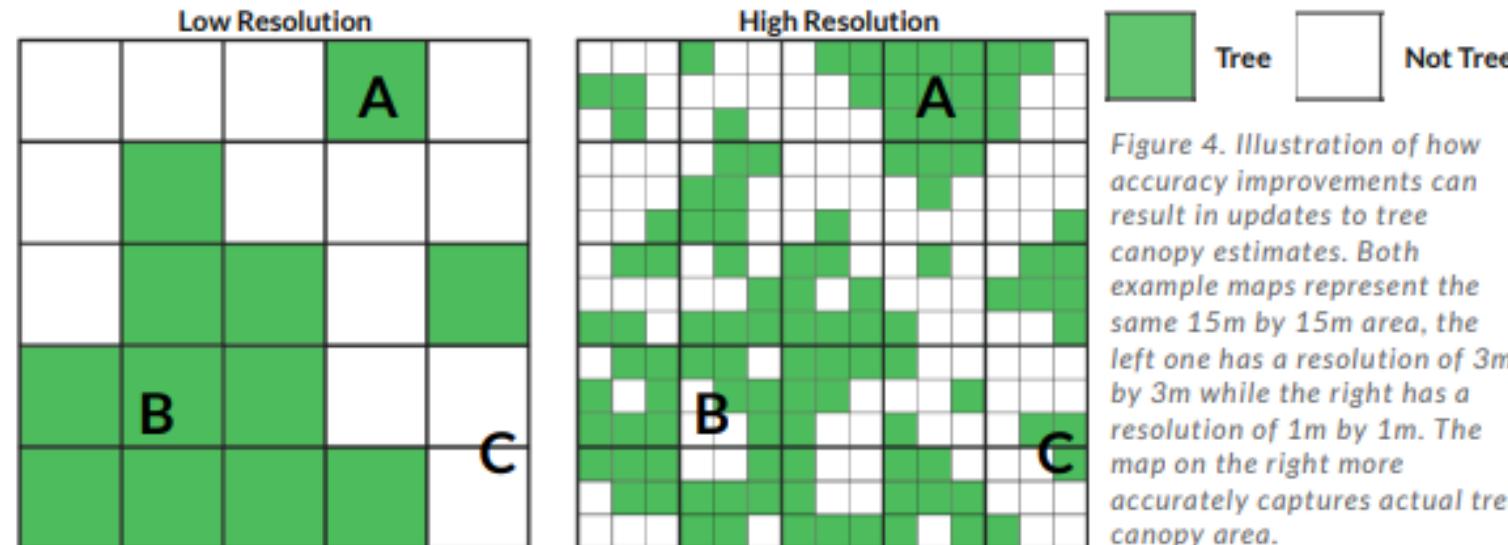

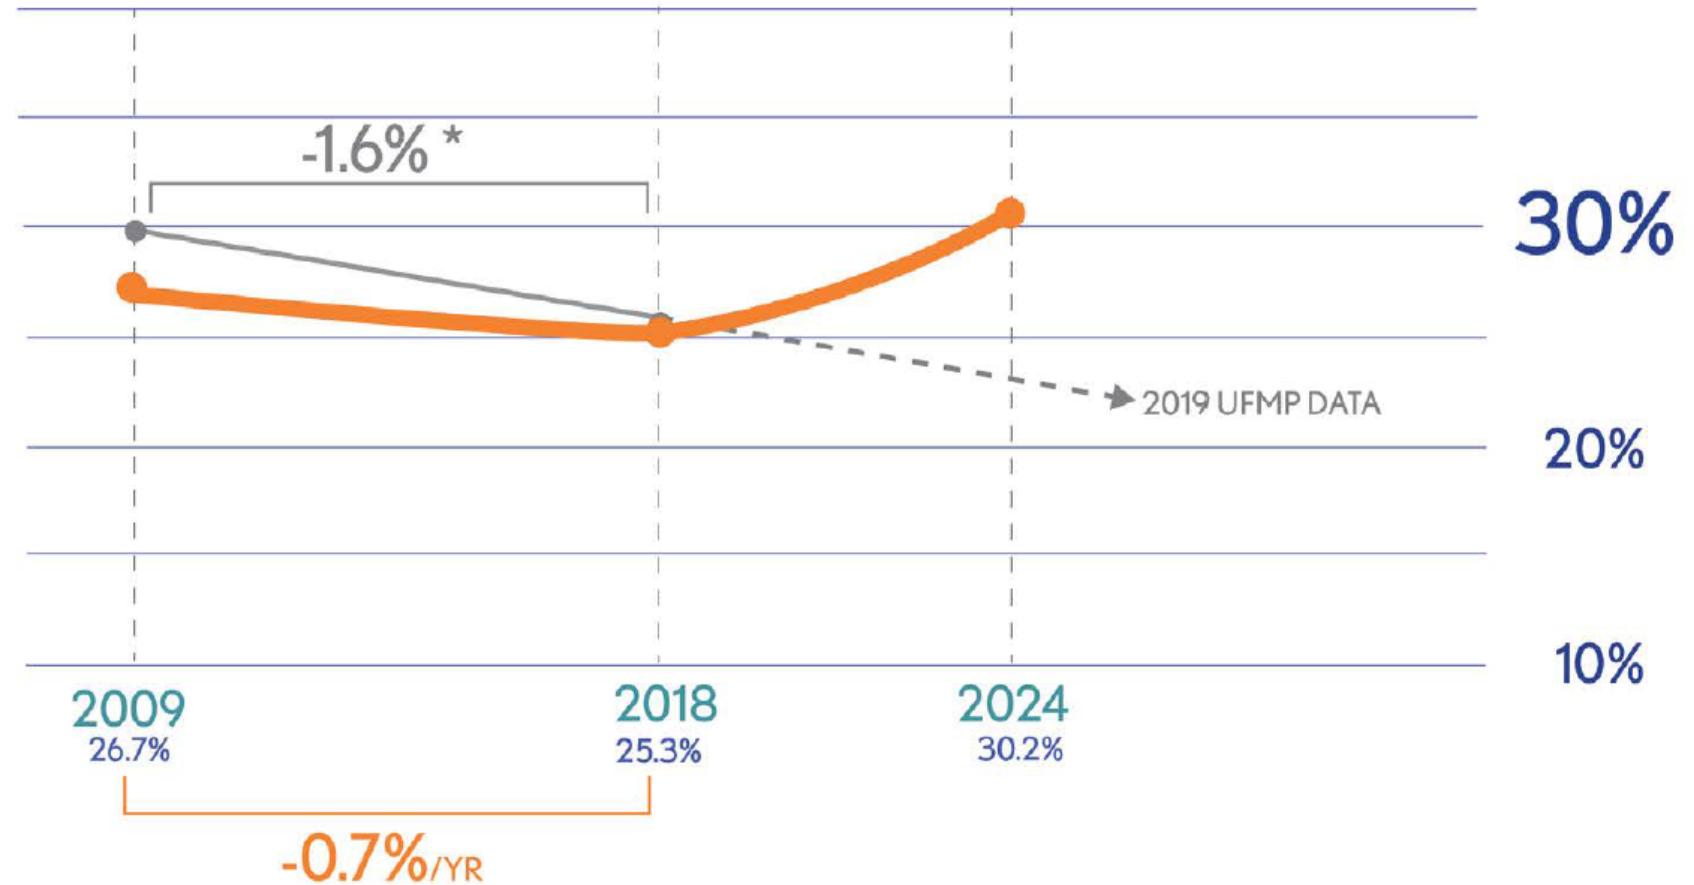

Figure 4. Illustration of how accuracy improvements can result in updates to tree canopy estimates. Both example maps represent the same 15m by 15m area, the left one has a resolution of 3m by 3m while the right has a resolution of 1m by 1m. The map on the right more accurately captures actual tree canopy area.

New techniques better capture:

- A** Edge Growth. Better detection of edge growth may add tree cover that was not previously mapped.
- B** Forest Gaps. Previous assessments may include overestimates of tree cover where tree canopy gaps were not detected.
- C** Small Patches. Tree patches that were previously too small for detection can now be mapped.

2019 UFMP PROJECTION

Note: 2019 UFMP was based on canopy data that was later further processed by UVM and resulted in different canopy cover assumptions.

Urban Forest Master Plan

Goals & Strategy Matrix

		Policy
		Design
		Practices
1		Enhance and Expand the Tree Protection Ordinance
2		Formalize Practices for Planting and Inspection
3		Leverage Land Use Requirements
4		Leverage Public-Private Partnerships
5		Institutionalize Tree Priorities
6		Plant Resilient Species
7		Street Tree Planting Strategies
8		Site New Parks and Open Space Strategically
9		Improve Monitoring
10		Expand Maintenance
11		Expand Planting Practices
12		Invest in Educational Programs
13		Build Community Partnerships
14		Seek Alternative Green Strategies
15		Integrate UFMP into Complementary Planning Studies

POLICY SUCCESSES

Update the Tree Protection Ordinance

Mitigation paid into Tree Fund since the
TPO amendment in 2019 to July 1st, 2025:
\$2,416,244.11

Permit Type	Total	
Mitigate completely with money	50	6%
Mitigate completely with trees	86	11%
Mitigate with combination of tree planting and n	54	7%
Tree(s) meet the requirement of one of the special circumstances and do not require mitigation.	599	76%
Grand Total	789	100%

More residential trees replanted through the Tree Protection Ordinance

THE
CAMBRIDGE
DEPARTMENT
OF PUBLIC
WORKS

POLICY RECOMMENDATION
NEEDING IMPROVEMENT:
Establish a Tree Trust

CITY OF CAMBRIDGE

DESIGN SUCCESS: Diversify species and planting strategies

Diversifying planting strategies:
Densifying planting

Diversifying planting strategies:
Miyawaki forests

THE WORKS
CAMBRIDGE
DEPARTMENT
OF PUBLIC
WORKS

DESIGN RECOMMENDATION
NEEDING IMPROVEMENT:
Reduce the roadway to increase tree
planting locations

CITY OF CAMBRIDGE

PRACTICE SUCCESS Expand Planting Practices

Significant increases in City plantings
to over 1,200 trees per year

THE
CAMBRIDGE
DEPARTMENT
OF PUBLIC
WORKS

CITY TREE DATABASE - PLANTING PRACTICES:

After two years, ball and burlapped trees on average had a survival rate of 89% (n= 2763).
Bareroot trees had a survival rate of 80% (n=1175).

	Column 1	Park Tree Total...	% Survival	Street Tree Total	% Survival
11	2019	174	64%	603	60%
12	2020	156	74%	386	69%
13	2021	378	77%	819	67%
14	2022	504	93%	837	76%
	2023	151	84%	783	90%
16	2024	445	86%	820	86%

PRACTICE RECOMMENDATION
NEEDING IMPROVEMENT:
Treat private trees for Emerald Ash
Borer

OUTREACH SUCCESS

Create Newsletter

The Forest Friends monthly newsletter was recommended at the 2023 Health & Environment Subcommittee.

Currently 1,167 subscribers

OUTREACH RECOMMENDATION
NEEDING IMPROVEMENT:
Support citizen science projects

CITY OF CAMBRIDGE

Health and Environment Committee

Agenda:

- 2024 Canopy Report

**THE
