

CITY OF CAMBRIDGE

Community Development Department

BRIAN P. MURPHY

*Assistant City Manager for
Community Development*

MEMORANDUM

TO: Jeffrey Roberts, Land Use and Zoning Planner, Community Planning Division

FROM: Tegin Bennett, Transportation Planner, Environmental & Transportation Planning Division

DATE: November 17, 2014

RE: Zoning Ordinance Section 6.104.2 b "Short-Term Bicycle Parking Public Contribution" pricing backup

Following is the breakdown for how the current price per rack was developed. The prices are estimated for what it would cost a property owner to install a standard galvanized "post-and-ring" (DERO "hitch" or equivalent) bicycle parking rack into concrete in accordance with zoning standards. By contributing to this fund, the city takes responsibility for siting, installation, ownership, and maintenance this bicycle parking. In addition, the city will be responsible for replacement, if needed, so additional cost is factored in. This memorandum will be periodically updated to reflect changes in costs.

Cost of rack	\$125
Shipping.....	\$45
Police detail.....	\$80
DPW permit.....	\$100
Installation	\$350
Maintenance/replacement contribution.....	\$100
TOTAL	\$800
